SUPPLEMENT TO

# The Gazette of India.

No. 12.} DELHI, SATURDAY, MARCH 22, 1913.

# OFFICIAL PAPERS.

A Supplement to the Gazette of India will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in Part VI of the Gazette.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The Supplement and Part VI of the Gazette can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALOUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

FINANCE DEPARTMENT

# Speech of the Honourable Finance Member

INTRODUCING THE

### BUDGET FOR 1913-14.

I have to lay before the Council the Budget for 1913-14 in its final form. The Financial Statement which I presented on the 1st of March has since then been subjected to criticism and discussion, and as the result I think I am entitled to claim that our financial arrangements have the approval of the great majority of Hon'ble Members. We have made a further examination of the figures in the light of the latest information available and the final form which they take is shown in the statements which are in the hands of Hon'ble Members, and in the explanatory memorandum which also has been revised and brought up to date.

2. The changes in the figures which I have to describe on a comparison with those entered in the Financial Statement are few and of no great importance, and I need engage but little of the time of the Council in describing them.

(701)

A

- 3. In the year which is about to close our Imperial surplus is now likely to be £31,800 higher. In the March sale we have obtained a very high price for uncertified opium and the estimate of opium receipts is increased accordingly by £51,800. Land revenue has increased by £32,000 in consequence of very high collections in Burma, and Customs also advance. On the other hand, there has been a distinct falling off in recent weeks in railway earnings chiefly on the North-Western Railway and we have had to reduce our estimate under this head by £100,000. The provincial account shows a betterment of £54,600, nearly the whole of which has accrued under land revenue with less important alterations which practically cancel each other under other heads.
- 4. As regards the Budget of next year I have only to notice that the Imperial surplus has been increased by a matter of £15,100, chiefly in consequence of certain corrections proposed in the budget estimates of heads of revenue, such as excise, which are divided with Local Governments. The provincial account on the other hand is £73,400 worse than in the Financial Statement; the Local Governments of Bombay and Burma having increased their provision for expenditure on Civil Works by 11 lakhs.
- 5. In the matter of Ways and Means, the most important feature I have to notice is the drop which has recently taken place in Council Bills, the amount offered for sale having fallen from 80 lakhs on the 5th of March to 60 lakhs on the 12th of March and again to 50 lakhs on the 19th. The Secretary of State has in consequence reduced his estimate of drawings to £25,660,000 which is £1,400,000 less than the estimate given in the Financial Statement. In view of this decline in the drawings and of the large proportion which is likely to be drawn in telegraphic transfers instead of bills, we have reduced the estimate of probable outstandings at the end of the year by £502,000. These outstandings represent bills which have been drawn and for which we have received the money in London, and which have not been cashed by us in India. It will be obvious, therefore, that a reduction in outstandings means a deterioration of the same extent in our total balance. On the other hand, there is the improvement I have already described in our revenue account which contributes an additional £86,000 to our balances; there are lapses in capital expenditure of £251,000, and an improvement under Deposits and remittances of £122,000. On the whole therefore our closing balance for the current year is likely to be only £43,000 less than the figure which I gave in the Financial Statement. I may mention that for next year the Secretary of State has increased his estimate of drawings by £450,000, and there will be in addition a remittance Home of the same amount in light weight sovereigns. These transactions do not affect our balance as a whole; but as 1 have just said the opening balance will be £43,000 less, there is a deterioration in the revenue account of £58,000 and the estimate of net credits from remittances has been reduced by £131,000, so that the final figures show a closing balance for 1913-14, £232,000 less than in the Financial Statement. There are no other points which it is necessary for me to bring to notice of Hon'ble Members, and I need only add before sitting down that while there will be no discussion on the Budget to-day, it will be open to them next Monday to offer any observations on it which they think proper, without moving Resolutions or dividing the Council.

GUY FLEETWOOD WILSON.

DELHI,
FINANCE DEPARTMENT;
March 20th, 1913.

# MEMORANDUM EXPLAINING THE DETAILS OF THE ESTIMATES.

- 1. In this memorandum the variations between the Budget and the Revised Introductory. estimates of the current year, and between the latter and the Budget estimates of next year, are explained in detail for the major heads of account. Under most of the heads details by provinces have been given, and it may be explained that the figures shown against "India General" represent the transactions of the Central Government, including all expenditure directly controlled by it, of the minor administrations of Ajmer-Merwara and Coorg, and of the convict settlement in the Andamans. The Budget estimates of Provincial and "Divided" expenditure in 1913-14 generally represent the allotments proposed by the several Governments and Administrations with whom regular provincial settlements have been concluded and in the case of provinces having local Legislative Councils more detailed information regarding the figures will be found in the Financial Statements presented by the Local Governments to their respective Councils.
- 2. The figures for the newly created province of Delhi have been entered separately and explained under each major head of account. It may be stated however at the outset that while the Revised estimates for 1912-13 under each head represent the probable receipts and outlay in six months of the current year, the Budget makes full provision for the revenue and the charges of a whole year; and that where the difference between the two sets of figures arises solely from this cause, no explanation of the variation has been given in this memorandum.

3. It is also necessary to explain at this stage that the figures entered Treatment of cost against Delhi in this memorandum represent only the revenue and expenditure of Imperial Delhi. of the Delhi administration and do not by themselves indicate the cost of change of the Imperial Capital. In order to ensure that, although brought into account under varying heads, expenditure connected with Delhi shall not be lost sight of, instructions have already been issued for the record of all such outlay under special descriptive sub-heads which have been opened in our accounts. Thus, the whole of the expenditure on the Delhi Project proper chargeable to capital will be shown under the new capital head "51' opened for this purpose. Charges connected with the construction of Temporary Delhi will be shown under a special descriptive sub-head under the major head "45—Civil Works—Imperial." Similarly, expenditure on the new cantonment will be shown under a specific descriptive head in the Military section of the accounts. Lastly, charges connected with the administration of the Delhi province will be brought together in a special Appendix to the Civil Estimates under the appropriate service heads, and in this will also be included expenditure from special sanitary or other grants for such objects as water supply, town improvements, preservation of antiquities, medical relief, etc.

In order to present in one view not only the gross expenditure arising from the change of Capital, but also the very substantial sums which will from time to time come to be taken by way of set-off, it has been decided to maintain a special pro forma statement with effect from 1912-13. The general form of the statement will be somewhat as shown in the appendix to this memorandum; but modifications in the detailed heads may have to be made as advised from time to time by the Comptroller General. It will not, however, be possible to present these figures until the accounts of 1912-13 are made up, and for the present it has been thought sufficient to compile a statement of the gross expenditure only arising lout of the change of Capital which is included in the

accounts of 1911-12, the Revised estimate of 1912-13 and the Budget estimate of 1913-14. The figures are given below in lakhs of rupees:—

0-11. Inc 15			
	1911-12, Accounts.	1912-13, Revised.	1913-14, Budget.
I.—Capital expenditure :-			
Initial outlay on Permanent Delhi (vide paragraphs 235 and 236)	-75	16.78	200.00
			•
II.—Revenue expenditure :—			
(a) Administration of Delhi Province (as recorded under the various heads of account in this memorandum)		17.74	20.47
(b) Construction and maintenance of temporary works at Delhi for the accommodation of the Government of India (vide paragraphs 191 and 192)	n	47.00	8-25
(c) Cost of new Cantonment (vide paragraphs 214 and 224)	• •••	-11	16.00
(d) Expenditure on provision of postal and telegraphic facilities including cost of new buildings	of	3.91	-85
(e) Maintenance of Viceregal residence a	at		1.59
(f) Cost of permanently moving Imperior offices (viz., a section of the Government Press and the Office of the Comptroll General) from Calcutta or elsewhere Delhi	er	1.15	•49
(g) Other indirect expenditure incurred most in the Secretariats owing to employme of special staff in connection with wo arising from the change of Capital, gra	nt rk nt		t pares - par
of special concessions to camp office brought to Delhi, etc	·	1.02	-37
	8.61	70.93	48.02
		-	

The whole of the capital outlay undoubtedly represents additional expenditure which would have been avoided but for the change of Capital. Of the charges recorded in the revenue account, the whole of item (b) must for the present fall under this class, though there will be small counterbalancing receipts in the shape of rents of the residential buildings, and a substantial portion of the outlay will in all probability be recouped when the temporary buildings are no longer required. Item (c) also represents mostly extra expenditure. But the same can hardly be said of the other items given above. The expenditure shown against items (f) and (g) will probably be more than counterbalanced by the savings accruing from the shorter move of the Government of India to Delhi. The whole of the outlay shown against items (d) and (e) is being met from ordinary Imperial grants; and all that has happened is that money is being now spent at Delhi which would have been spent elsewhere for the same purpose if the change of Capital had not been made, or else that being the Imperial Capital, Delhi is now receiving a larger share of the money than it used to get. Lastly, a good portion of the expenditure shown against item (a) represents the cost of the ordinary civil administration of the territory which used to be met by the Government of the Punjab before Delhi became the Imperial Capital; and the only effect of the change has been to transfer all such ordinary expenditure from the Provincial to the Imperial section of the accounts. But the revenue of the tract has also been so transferred, resulting in a gain to the Imperial Government of about  $R3\frac{1}{2}$  lakhs in 1912-13, and R7 lakhs in 1913-14; and it may also be necessary to make a reduction in the present assignment of Imperial land revenue received by the Punjab

if a detailed examination of the accounts indicates that the Provincial expenditure in the tract prior to its transfer to Imperial control exceeded the Provincial revenue derived from it, though pending such examination no such reduction has been entered in the estimates. A small portion of the expenditure, about Rupees one lakh a year, also represents the cost of certain wholly Imperial Services, e.g., Ecclesiastical, which has been merely transferred from the books of the Punjab to those of the new province; while a further portion of it representing special outlay on sanitation, etc., is being actually met, or, but for the change, would have been met from special Imperial grants.

4. The broad totals of revenue and expenditure for the last year, the current General results.

year and the ensuing year are as follows:-

or other careers of	The State of the S					
						Accounts. 1911-1912.
						£

	Surp	lus			. £	3,393,700
						Budget, 1913-1914.
						£
Revenue					٠.	82,324,500
Expenditure charged to Revenue	•		٠			80,998,200
	Sur	plus				£ 1,326,300

These figures exclude all capital, debt and remittance transactions.

5. The accounts of 1911-12 are not discussed in this memorandum, but Accounts, 1911-12. according to our usual practice in the past a brief explanation is given below of the principal divergences between the Revised estimates of revenue and expenditure as submitted to the Council twelve months ago, and the actual accounts of the year as closed, audited and compiled by the Comptroller and Auditor General.

6. The total revenue turned out about £796,900 more and the total expenditure about £50,400 less than the Revised estimate, with the result that the surplus was £847,300 larger than was anticipated. To this improvement, the net earnings of Railways contributed no less than £606,500. There was an increase of £425,600 in the gross receipts, the growth of traffic in March 1912, on the North-Western, the Bombay Baroda and Central India, and a few other lines having far exceeded expectation; while there was a net saving of £180,900 distributed among a number of lines, in the provision for working expenses and payment of surplus profits to companies. Eliminating the Provincial figures, the balance of the improvement in the surplus, viz., £240,800, occurred chiefly under the following heads. There was an increase of £56,600 in the Opium revenue owing to a rise in the auction price at the sales of Malwa opium in March 1912. Increases of smaller magnitude were also realised under some of the other heads of revenue; but these were more than counterbalanced by a decrease of £100,000 under Customs, distributed among a number of tariff heads. The net Military expenditure was less than the Revised estimate by

£70,100 mainly in consequence of a smaller expenditure on the purchase of stores in England and in connection with the Royal Visit in India, and there were savings of £58,900 and £53,200 respectively in the miscellaneous charges of Railways and in the expenditure of Civil Departments. Smaller lapses also occurred under a number of other heads, but they were nearly counterbalanced by an increase of £82,000 under Civil Works. Of the latter sum £57,400 (R8.61 lakhs) represents expenditure on Temporary Delhi and was incurred mainly in taking over the electric installations, etc., erected, and certain articles of furniture purchased, in connection with the Coronation Durbar.

7. Paragraphs 203 to 227 of this Memorandum have been communicated by the Hon'ble Mr. W. H. Michael, Secretary to the Government of India in the Military Finance Branch: and the rest of the Memorandum has been drafted by Mr. Bhupendra Nath Mitra, M.A., Assistant Secretary in the Finance

Department.

8. The Imperial expenditure shown against "Other Provinces" in the table at page 23 represents the cost of survey and record-of-right operations on a large scale in Bengal and in Bihar and Orissa, undertaken more for administrative than for fiscal purposes. The expenditure is of a temporary and varying character and was accordingly not considered suitable for inclusion in the financial settlements with the two provinces. Three-fourths of the charges are eventually recovered from landlords and tenants for the protection of whose rights the operations are primarily undertaken; and the recoveries are shown in the table as Imperial revenue against "Other Provinces."

### REVENUE.

### (a) Wholly Imperial.

9. Excluding the Delhi figures, the Revised estimate for 1912-13 is less Revised, 1912-13. than the Budget by R1 40 lakhs while the Budget for 1913-14 is R4 03 lakhs Budget, 1913-14. more than the Revised estimate for 1912-13. Both these variations are caused mainly by a postponement of the recovery in the current year of certain survey and settlement charges in Bengal and Bihar and Orissa, and by provision for the recovery of these arrears in 1913-14.

### (b) Divided and Wholly Provincial.

10. The total collections in 1912-13 are likely to exceed the Budget esti- Revised, 1912-13. mate by R25 03 lakhs. A large improvement of R36 50 lakhs is anticipated in the Punjab in spite of the loss of the Delhi revenue, owing to higher receipts from the sale of proprietary rights in the canal colonies and the revision of assessments in the Chenab colony. Important increases will also take place in Burma (R14 78 lakhs) where the outturn of the year's crops is much above the average; in Bengal (R4.78 lakhs) where, owing to the territorial re-arrangement, the Budget was based on data which were more or less uncertain, while the Revised includes certain special receipts; and in Madras (R4-76 lakhs) mainly in consequence of the postponement of certain collections which were expected to be realised in 1911-12 at the time when the Budget for the current year was framed. In Assam also there will be an improvement of R1 07 lakhs owing to a larger recovery of arrears; but in the other provinces the collections will fall short of the Budget estimate. There will be a considerable deficiency of R26 06 lakhs in Bombay due to the unfavourable agricultural conditions prevailing in certain parts of the Presidency; and important shortages of R6.75 lakhs and R2.68 lakhs are also expected in the Central and the United Provinces respectively, owing to larger suspensions and postponement of collections in certain districts necessitated by an indifferent monsoon.

11. The total Budget for 1913-14 is R4.91 lakhs more than the Revised Budget, 1913-14. estimate for the current year. An increase of R44.97 lakhs is expected in Bombay where provision has been made for the collection of a portion of the suspended revenue of the current year in addition to the normal demand for 1913-14. Important increases over the Revised estimate of the current year are also assumed in Madras (R801 lakhs) and in the Central Provinces (R765 lakhs) owing to normal growth in the revenue demand and to the recovery of arrears in the latter province. Provision for normal growth of the revenue demand has been made generally in the other provinces also. But the total collections in 1913-14 are expected to fall short of those in the current year in the Punjab (R36.70 lakhs) in consequence of smaller receipts from the sale of proprietary rights in the canal colonies; in Burma (R11 62 lakhs) where the estimates have been based on a normal outturn of next year's crops, while allowance has been made for a decrease in the petroleum revenue consequent on an expected falling-off in production in the Yenang-yaung oil-field; in the United Provinces (R4 99 lakhs) due to smaller recovery of revenue suspended in previous years, the outstanding amount of which will be considerably reduced by the end of the current year; and in Bengal (R2 00 lakhs) and in Assam (R1 lakh) owing to the absence of certain special receipts which have swelled the revenue in 1912-13.

# (c) Adjustments between Imperial and Provincial.

12. The table at page 24 shows the amount of Imperial Land Revenue assigned for Provincial expenditure in the two years. The variations between the Budget and Revised estimates of the current year and between the latter and the Budget estimate for 1913-14 are explained below.

# (1) Recurring assignments.

13. The bulk of the increase of R10,90,000 in the Revised estimate over the Budget of the current year is contributed by the following three items, the balance consisting of petty corrections and re-adjustments:—

	Lakhs of rupees.
(1) Additional grants for educational reforms out of the reserve provision made in the current year's Budget under the head "22.—Education".	10.96
(2) Grants for the improvement of sanitary services out of the lump provision made for the purpose in the current year's Budget under the head "24.—Medical".	1.89
(3) Saving in the compensatory grant given to Madras in connection with the remission of the Proprietary Estates village service	-2.63
cess · · · · ·	
	10.22

14. The increase of R1,71.10 lakhs in the Budget provision for next year over the Revised estimate of 1912-13 is made up as follows:—

	1.00		Lakhs of rupees
	(1)	Compensatory assignments to the Governments of Bengal, Bihar and Orissa, United Provinces and the Punjab to enable them to forego the appropriations which are now made from the cess on land to meet expenditure which should be defrayed properly from Provincial revenues:—	•
		Bengal	
+		Bihar and Orissa	
		United Provinces	
		Punjab	
		TOTAL .	79.46
		Additional recurring grants for the advancement of education	48.35
		Additional recurring grants for the development of sani-	86.50
*		Recurring grant to Assam for the proper administration of remote tracts on the north-east frontier	8.98
		Increase in compensatory assignment to Madras in connection with remission of village service cess in proprietary estates	2.43
	(6)	Additional recurring grants for the improvement of sanitary services	.76
			1,71.48
	(7)	Deduct-Petty adjustments of a recurring character	•33
		Total [	1,71.10

15. The fourth of these grants is intended to compensate the Government of Assam for political and police expenditure which it will have to incur in connection with the outlying territories on the north-east frontier, but for which no provision was made in its provincial settlement. The fifth grant is a necessary concomitant of the progress of resumption of inam lands of village servantssee paragraph 12 of last year's explanatory memorandum.

The sixth grant is an addition to the similar grant of R189 lakhs made in the current year, the object of the aggregate grant of R265 lakhs being to assist Local Governments in employing additional Deputy Sanitary Commissioners and municipalities in organising an efficient staff of health officers and sanitary inspectors. All the major provinces participate in the grant with the exception of Assam and the Central Provinces from which no schemes on the subject have

yet been received.

16. In connection with the grants falling within the first of the categories mentioned above, it may be explained that certain appropriations have hitherto been made in some of the provinces, in aid of expenditure which is properly chargeable to Provincial revenues, from the proceeds of the land cess which is wholly applied elsewhere to finance rural boards. Thus in Bengal and in Bihar and Orissa, a moiety of the land cess—known as the public works cess—forms an item of Provincial revenue; in Agra about one-third of the land cess is appropriated by the Provincial Government to meet the cost of the rural police; and in the Punjab the district boards have to make over to the Provincial Government about one-fifth of the land cess as a contribution for general services. The arrangement has naturally resulted in a severe restriction of the activities of the rural boards in these provinces; and the Royal Commission on Decentralisation recommended in paragraph 773(i) of their report, that the resources of rural boards should be augmented by the surrender of these appropriations. It is proposed to accept the recommendation; and provision has accordingly been made in next year's Budget for the subventions required to compensate the four Provincial Governments for the loss of revenue entailed by the change. In calculating this loss due allowance has been made for the resumption of certain grants now made to the rural boards by the Provincial Governments. In the United Provinces a necessary corollary of the measure will be the abolition of the separate police rate in Oudh, the cost of the rural police becoming an item of Provincial expenditure, while advantage will be taken of the change to introduce another desirable reform, viz., the substitution of cash-paid chaukidars in Gorakhpur for village watchmen who are paid by grants of land and whose jagirs will be resumed; and an addition has been made to the compensatory assignment to cover the fresh burden thrown on Provincial revenues. The figures given below show how the assignments to the four provinces have been worked out on the basis of the average actuals for the last three years :--

[[[[[[[[] [[] [[] [[] [[] [[] [[] [[] [	(In lakens of rupees).				
	Bengal.	Bihar and Orissa.	United Provinces.	Punjab.	
Net amount of appropriation sur- rendered	29.42	24.52	22.19	3.82	
Add—Cost of rural police in Oudh and chaukidars in Gorakhpur			11.02		
	29.42	24.52	33.21	3.82	
Deduct—Amount of contributions to rural boards to be resumed Deduct—Provincial share of land	4.49	1.60	3.54	1.74	
revenue from resumed jagirs in Gorakhpur .			·14		
Amount of assignment	24.93	22.92	29.53	2.08	
			-	-	

In the North-West Frontier Province also, the system of levying contributions from district boards for general services will be discontinued, a reduction being made in the grants received by the boards from Provincial revenues. The net loss of revenue in this province will amount to 22 lakh; and setting against this the Imperial share of the gain in land revenue in the United Provinces from the resumed jagirs the total cost of the measure will amount to R79.46 lakhs.

17. The following table gives the distribution among the different provinces of the recurring grants of R48 35 lakhs and R36 50 lakhs respectively for the promotion of education and the improvement of sanitation.

[Lakhs of Rupees. Total Imperial grants for Educa-tion provided in the Budget for 1913-14. Grants Province. Sanitation. Education. 1 2  $\mathbb{R}$  $\mathbf{R}$ R 1. Central Province 3.00 2.59 5.54 2. Burma 3.00 3.07 6.07 3. Assam .50 1.77 3.63 4. Bengal 5.00 13:20 25.45 5. Bihar and Orissa 3.00 5.23 10.53 6. United Province 6.00 6.38 14.63 7. Punjab 4.00 3.38 7.98 8. Madras 6.00 6.80 16.80 9, Bombay 6.00 5.93 13.68 Total 36.50 48.35 104.31

18. The subvention of R36 50 lakhs for sanitary expenditure represents the share assigned to the Governments of the nine major provinces, of the annual appropriation of R45 lakhs which it has been decided to make from Imperial revenues in aid of outlay on the improvement of sanitation. R5 lakhs out of this appropriation has been reserved for research for which there is a vast field in India, and the balance of R40 lakhs is intended to provide for urgent sanitary needs in cities. Out of the latter sum, R36 50 lakhs have been allotted to the major provinces, R1 50 lakhs to the minor administrations, and R2 lakhs kept in reserve for future distribution. The allotments to provinces have been made with reference to figures of urban population modified where necessary in accordance with lists of schemes ready and waiting for funds in each province.

19. The recurring assignments for education will be in addition to the similar grants made for this purpose from Imperial revenues in 1912-13, and the total provision in next year's Budget for special Imperial subventions to Provincial Governments in aid of educational expenditure will stand at R104'31 lakhs as shown in column 4 of the table in paragraph 17. Adding to this sum R3'69 lakhs allotted to meet the educational needs of the minor administrations and R7 lakhs held in reserve for future distribution, the special appropriation from Imperial revenues for outlay on the advancement of education will amount to R115 lakhs in 1913-14, or R55 lakhs more than the similar appropriation made in the current year. The distribution of this additional sum among the provinces has been made generally with reference to population, the demand for education and the expressed needs of Local Governments.

# (2) Non-recurring assignments.

(i) Grants for education, sanitation and other beneficial services.

Revised, 1912-13.

20. In the Budget estimate for the current year provision was made for a non-recurring appropriation of R65 lakhs from Imperial revenues for capital outlay on the promotion of education. Of this amount R62.50 lakhs have been allotted during the course of the year to the Provincial Governments to enable them to meet the requirements of universities and of certain special institutions, and the pressing demands for hostels; and the balance of R2.50 lakhs

has been utilised for similar purposes in the minor administrations. A small sum of R 20 lakh out of the portion of the current year's recurring grant which was held in reserve, has also been applied to meet an item of necessary capital expenditure in Madras. Further, it has been decided (a) to devote R2½ crores out of the general surplus of the current year to meet capital requirements of Provincial Governments in connection with universities, colleges and schools; and (b) to distribute R69 lakhs, representing roughly about a third of the opium revenue realised in the current year in excess of R5,40 lakhs, among the Provincial Governments to be applied almost wholly to the erection of hostels,—a small sum of R2 lakhs being allotted to the Calcutta University to enable it to purchase land which it urgently requires for purposes of extension. The total non-recurring subventions to Provincial Governments in 1912-13 for the promotion of education will thus amount to R381.70 lakhs.

21. It has also been decided to make further non-recurring grants to Provincial Governments aggregating R1½ crores out of the general surplus of the current year, the bulk of which will be devoted to meet pressing demands for the improvement of urban sanitation. The distribution of the non-recurring educational and sanitary grants among the several provinces has been made generally on the same basis as has been followed in distributing the recurring

grants, and is given in the table below:

AND THE PROPERTY OF THE PROPER		EDUCATIO	N.		
	Grant of R62.7 lakhs	Additional grants of			SANITA- TION.
	out of reserve provision in cur- rent year's Budget.	R250 lak s. R69 lakhs.		Total.	
Central Provinces	1.50	13.00	4:75	19.25	10.50
Burma	1.50	21.00	3.25	25.75	10.50
Assam	1.00	9.50	3.50	14.00	3.00

Total	. 62.70	250.00	69.00	381.70	150.00

22. In the next place, it has been decided to give from our general surplus in 1912-13 a non-recurring grant of R30 lakhs to Burma and one of R20 lakhs to Assam for communications and general development. The Provincial resources of Burma are not yet quite sufficient to enable the Local Government to maintain a satisfactory rate of progress in the development of the country which its backward condition makes specially and urgently necessary. In Assam also the improvement of communications is a matter of vital importance and the Local Government has recently decided after careful consideration and with the help of a representative conference of leading Europeans and Indians of the province, to allot a sum of R15 lakhs for expenditure by local boards on new communication projects to be carried out in three years.

23. Lastly, it has been decided to allot from our general surplus in 1912-13 a sum of R1 crore for discretionary grants to the Provincial Governments; these grants will not be earmarked for any particular purpose and it will be left to the Local Governments to determine the application of the sums placed at their disposal according to the special and pressing requirements of each. Assam and the Central Provinces will each receive R8 lakhs of the grants of this class, while a sum of R12 lakhs will be given to each of the seven other provinces.

Budget, 1913-14.

24. From the surplus Imperial revenues in 1913-14 it has been decided to make two appropriations of R10 lakhs each for (a) agriculture and allied purposes and (b) medical relief. The first of these grants will be applied mainly to the development of cotton cultivation and of the sugar industry, small sums being also allotted for bacteriological and other laboratories, the extension of cinchona plantations, the development of forests and other desirable improvements. The second grant will be devoted to the improvement of hospitals and medical education. R6 60 lakhs of the former grant and R8 75 lakhs of the latter will be assigned to the nine Provincial Governments; and the balance will be either utilised to meet necessary Imperial outlay in the minor administrations, etc., or else held in reserve for future allotment. The distribution of the assignments to the Provincial Governments is given below:—

		A	GRICULTURAL	AND ALLIED OB	ECTS.	
		Agriculture.	Forests.	Cinchona plantations.	Total.	MEDICAL RELIEF.

### EXPENDITURE.

# (a) Wholly Imperial.

26. Excluding the Delhi figures, the saving of R2 05 lakhs in the Budget Revised, 1912-13.

grant for 1912-13 is chiefly due to lapses in the provision for survey and settlement expenditure in Bengal and Bihar and Orissa; and the increase of R5 40 lakhs in the Budget estimate for 1913-14 over the Revised for the current year occurs mostly in the same item of expenditure. The variations in the figures shown against the North-West Frontier Province are due to ordinary lapses in grants in 1912-13 and to normal provision for the sanctioned scale of expenditure in 1913-14.

# (b) Divided and Wholly Provincial.

the Budget estimate. Savings of considerable magnitude are expected in the Punjab (2 92 lakhs) owing to the separation of Delhi, and the total or partial non-utilisation of the provisions for the reorganisation of the Indian Civil Sérvice and the extension of settlement operations; and in Madras (R2 72 lakhs) in consequence of smaller payments to village servants and of delay in the introduction of the scheme for the revision of taluk establishments. The saving in the latter province would have been larger, but for the arrear payment of Royal bonus to certain establishments and an increase in the grain compensation charges. Important savings in the Budget grants are also expected in the United Provinces (R 92 lakh), Bombay (R 83 lakh) and Bihar and Orissa (R 80 lakh) owing to ordinary lapses in grants, and the total or partial non-utilisation of the lump provisions for the revision of certain establishments. Burma is the only province in which there will be a material excess over the Budget grant. Here the increase in the land revenue collections will necessitate a larger payment of commission on the collections, while the expenditure on town and other surveys will be higher than was anticipated.

28. The total Budget estimate for 1913-14 is R11 37 lakhs higher than Budget, 1913-14. the Revised for the current year. The increase is confined practically to two provinces—United Provinces (R7 90 lakhs) and Madras (R3 56 lakhs). Of the large increase anticipated in the former province, R6 25 lakhs represents the cost of a scheme for the revision of pay of clerical establishments in accordance with the recommendations of a committee which was appointed two years ago to enquire into the matter; while the balance is mostly made up of provisions for the extension of settlement operations and for an increase in the number of deputy collectors in pursuance of a scheme which has been recently sanctioned by the Secretary of State. The increase of R3 56 lakhs in Madras is chiefly due to provision for the revision of village establishments including those in proprietary estates, as well as for a full year's cost of the reorganised taluk establishments. Special provision has also been made in the Central Provinces for the revision of the patwari establishments and the extension of settlement operations; in Assam for a survey school; and in the Punjab for an increase in the number of extra assistant commissioners and for the regrading of tahsildars. In Bombay also, special provision has been made for the revision of the pay of subordinate revenue establishments, and of village servants in the Kaira district; but its effect is obscured by smaller allotments for grain compensation allowance and other indirect famine outlay, and by a change in the method of adjustment of certain charges which will result in the transfer of R1 43 lakhs of expenditure from the head "3—Land Revenue" to "19A—Courts of Law."

 (b) Inclusive of the 100 chests mentioned above.
 (c) Inclusive of 1,000 chests for markets other than China.

### REVENUE.

# (i) Bengal Opium.

29. The Budget estimate for 1912-13 provided for the sale of 17,406 chests of Bengal opium; and it was assumed that 5,206 out of these would be specially certificated for China and would realise an average price of R2,450 a chest, while the remaining 12,200 chests would yield an average price of R1,500 each only. The total number of chests sold at Calcutta to end of March has amounted to 17,890 and they have brought in a revenue of R4.9806 lakes. Revised, 1912-13.

30. The Budget for 1913-14 provides only for the sale of 9,000 uncerti-Budget, 1913-14. ficated chests of Bengal opium at an average price of R1,800 each, the total receipts on this account thus amounting to R1,62 lakhs.

### (ii) Malwa opium.

- 31. As regards Malwa opium, the Budget estimate for the current year pro- Revised, 1912-13. vided for the sale of 14,615 certificated chests and the export of 1,000 chests without certificates; and after making due allowance for the effect of the arrangement which permits of the payment of the premium for the right of export within a specified period from the date of sale, on the deposit of proper security, the estimate of revenue was placed at R186.74 lakhs. 9,428 chests of Malwa opium have been sold to end of December and R220.38 lakhs of revenue have been already credited to Government. No sales have been effected in the last three months of the year; and the Revised Estimate has accordingly been placed at R220.38 lakhs.
- 32. The Budget for 1913-14 provides only for the recovery of R4 77 lakhs Budget, 1913-14. of premium payable in respect of the December sale which is not likely to be received before April next.

(iii) Excise opium and other Revenue.

33. Under this head the Revised estimate for 1912-13 exceeds the Budget Revised, 1912-13. by R2 74 lakhs. About half the improvement occurs in Bombay where Bengal opium was substituted for Malwa opium for purposes of local consumption; while the remainder is distributed among a number of provinces.

34. The Budget estimate for 1913-14 provides for the normal annual Budget, 1913-14.

growth of revenue.

### EXPENDITURE.

35. There is a saving of R12.85 lakhs in the Budget provision for the Revised, 1912-13. current year mainly in consequence of reduced payments to cultivators resulting from a comparatively poor outturn of the crop of 1912. The Budget Budget, 1913-14. estimate of 1913-14 includes a special provision of R84 lakhs for the purchase of Malwa opium for excise purposes and allows for the reduced scale of cultivation of Bengal opium.

<sup>(</sup>a) Chiefly excise on local manufacture.

#### REVENUE.

Revised, 1912-13.

36. The total quantity of salt issued for consumption in 1912-13 is likely to be less than the Budget estimate by about 5 lakhs of maunds. This decrease is wholly due to the abnormally high issues in Bengal in the months of December, January and February last year, in consequence of speculative clearances which have overstocked the market and reduced the demands in that province in the current year. With a duty of R1 per maund, the decrease in consumption would have led to an equal decrease in the Budget estimate of revenue. But the actual shortage will be higher owing to a further development of the credit system of payment of duty in Bengal, and will amount to

Budget, 1913-14.

R13.66 lakhs.

37. In the Budget estimate for 1913-14 provision has been made for a moderate growth in the consumption of 6\frac{2}{3} lakhs of maunds. The increase in revenue will, however, amount to R10.29 lakhs as the growth in the sales on credit in Bengal is not likely to be quite so large in 1913-14 as in the current year.

### EXPENDITURE.

Revised. 1912-13.

38. The total Revised estimate for the current year does not differ materially from the Budget provision. An increase of R1 24 lakhs in Bombay, mainly in connection with land acquisition at Bhandup, has been more than counterbalanced by savings in other provinces. The Budget estimate for 1913-14 provides for the normal scale of expenditure, for a necessary replenishment of the reserve stock in Northern India, and for a steam launch required in Bengal; but owing to the absence of the special land acquisition charges incurred in Bombay in the current year the total Budget will be only R 28 lakh higher than the Revised estimate for 1912-13.

<sup>(</sup>b) Chiefly duty on imported Salt.

Budget.	Accounts, 1909-1910.   1910-1911.   1911-1912.   Budget.   Revised,

### (a) Wholly Imperial.

Revised, 1912-13.

39. Excluding the Delhi figures, the total Revised estimate for 1912-13 is R 52 lakh higher than the Budget forecast owing to small improvements in the North-West Frontier Province and in other minor administrations, while the total Budget for 1913-14 is the same as the Revised estimate for the current year.

Budget, 1913-14.

(b) Divided.

Revised, 1912-13.

40. The growth of revenue in 1912-13 is now expected to be R23.65 lakhs higher than the provision made in the Budget estimate. The greater part of this increase, viz., R17.93 lakhs, will be derived from non-judicial stamps and reflects the remarkable activity of trade during the year. The revenue from court-fee stamps will also advance by R7.44 lakhs owing to the increase of litigation in a generally prosperous year. All the provinces share in the expansion of revenue with the exception of Burma, where the revenue will fall short of the Budget estimate by R1.36 lakhs in consequence of trade depression and financial stringency.

Budget, 1913-14.

41. The Budget for 1913-14 is taken at R19:30 lakhs more than the Revised estimate for 1912-13. Provision for normal growth has been made in every province.

### EXPENDITURE.

42. The cost of all stamps and stamp paper supplied from England is charged under this head, and an adjustment is made in India transferring to Post Office and Telegraph the cost of stamps used for postal and telegraph purposes. Similarly the cost of revenue stamps supplied to Local Governments and Administrations is debited to them in the Provincial section of the accounts by per contra credit in the Imperial section under this head. The credits on both these accounts are shown against item I (ii) under Expenditure in the table on page 35.

(a) Wholly Imperial (including outlay in England).

Revised, 1912-13.

43. The net credit in 1912-13 in the Imperial section of the accounts in India is now taken at R162 lakhs less than the Budget estimate. Some extra expenditure has been incurred in connection with the insurance of consignments of stamps; and there will be a large decrease in the value of stamps supplied to the Postal Department owing to the lower prices which are charged under the new contract and which will result in a saving in the English outlay. In fact, taking India and England together, the Revised estimate of stamp expenditure in 1912-13 is R295 lakhs less than the Budget estimate; while the Budget provision for 1913-14 is R273 lakhs higher than the Revised estimate for the current year.

Budget, 1913-14.

### (b) Divided.

44. The increase in expenditure in the current year over the Budget estimate, and the further advance provided for in the Budget for 1913-14 are concemitants of the growth in revenue.

### (a) Wholly Imperial.

45. Excluding Delhi, the figures do not show any important variation and call for no remark.

(b) Divided and wholly Provincial.

Revised, 1912-13.

46. The total Revised estimate for 1912-13 exceeds the Budget by R39 15 The prevalence of favourable economic conditions throughout the greater portion of the country, the gradual enhancement of rates of duty, the raising of the issue price of opium, the establishment of confidence in the contract supply system and stricter excise control have again combined to secure a very substantial improvement in revenue over the Budget estimate in almost every province. Certain special factors have also contributed to the growth; and among these may be mentioned (1) a change in system in the Punjab whereby two months' license fees which are realised in advance at the annual auctions of the right of vend in March are now credited as revenue at the time of receipt instead of being held in deposit and credited as revenue in the ensuing year; and (2) the introduction of Bengal opium for excise purposes in Bombay and in the northern districts of Burma. In Bengal alone is the revenue now expected to fall short of the Budget estimate. The license fees at which country spirit shops were settled for 1912-13 were comparatively low owing apparently to the rise in the price of food grains at the beginning of the year which is said to have checked consumption; while a shortage of last year's ganja crop has forced up prices and has affected the revenue.

Budget, 1913-14.

47. The total Budget for 1913-14 is taken at R38.85 lakhs higher than the Revised estimate for 1912-13. The increase is distributed over all the provinces with the exception of the Punjab where the normal growth of revenue is expected to be wholly counterbalanced by the absence of the special receipts of the current year and the loss of the Delhi revenue for the first half of the year. In view of the high collections of the current year, and changes contemplated in the excise administration in some provinces, provision has generally been made only for a moderate growth of revenue in 1913-14.

#### EXPENDITURE.

### (a) Wholly Imperial.

48. The figures show little variation and call for no remark.

#### (b) Divided and wholly Provincial.

Revised, 1912-13.

49. The Revised estimate for the current year does not differ materially from the Budget provision. Bulget for 1913-14 provides for normal charges of sanctioned establishments, as well as for the additional staff required in Bombay, the re-organisation of the Excise department in Bengal and the revision of certain establishments in the Central Provinces.

50. The figures show little variation and call for no remark.

### (b) Provincial.

51. The improvement of R.99 lakh in 1912-13 over the Budget estimate Kerised 1912-13. occurs mainly in the yield of the public works cess in Bihar and Orissa. The large decrease of R79 25 lakhs in the Budget of next year as compared with the Budget, 1913-14. Revised estimate of 1912-13 is explained by the surrender to district boards of the public works cess in Bengal and in Bihar and Orissa, and the discontinuance of the appropriations hitherto made from the level and a few the level and the second the continuance of the appropriations hitherto made from the level and the second the continuance of the appropriations hitherto made from the level and the second the continuance of the appropriations hitherto made from the level and the second the continuance of the appropriations hitherto made from the level and the second the continuance of the appropriations hitherto made from the level and the second the continuance of the appropriations hitherto made from the level and the second the of the appropriations hitherto made from the local rate in Agra to meet the cost of the rural police.

52. The Revised estimate for 1912-13 practically repeats the Budget. No provision for expenditure has been made in 1913-14 in view of the surrender of the public works cess in Bengal and Bihar and Orissa.

#### REVENUE.

Revised, 1912-13.

53. The Revised estimate for 1912-13 exceeds the Budget by no less than R91 44 lakhs. Of this improvement, R20 lakhs are contributed by silver, the imports of the commodity being far in excess of the cautious estimate adopted last year; R23.66 lakhs by the export duty on rice owing to heavy demands from Ceylon and the Far East which stimulated exports not only from Burma but also from Bengal; R24 58 lakhs by the import and excise duty on cotton goods, and R8 65 lakhs by manufactured articles, the demand for these goods having expanded more rapidly than had been anticipated owing to the generally favourable economic conditions; and R11.15 lakhs by sugar, the imports of which were stimulated by good crops abroad and the consequent fall in prices. Increases of smaller magnitude are also expected under some of the other tariff heads, but they are largely counterbalanced by shortages under petroleum, the imports of which have declined to a greater extent than had been allowed for on the cessation of last year's rate war, and certain other heads.

dget, 1913-14.

54. The Budget estimate for 1913-14 has been taken at R21 77 lakhs less than the Revised for the current year. A cautious estimate of R80 lakhs has again been adopted for the yield of the silver duty, while the revenue from the export duty on rice has been taken at a normal figure of R1,30 66 lakhs. Under the other tariff heads provision has been made generally for a moderate growth of revenue.

### EXPENDITURE.

Revised. 1912-13.

55. The Revised estimate for the current year does not differ materially from the Budget and calls for no remarks. Budget for 1913-14 provides for Budget, 1913-14. the sanctioned scale of expenditure, and for the revision of certain establishments in Bombay.

### (a) Imperial.

56. Excluding the Delhi figures, there is no material variation between the Budget and Revised estimates for the current year or between the latter and the Budget estimate for 1913-14.

### (b) Divided.

Revised, 1912-13.

57. The total revenue in 1912-13 is likely to exceed the Budget by R10 88 lakhs. Of this improvement R4.75 lakhs are expected in Bengal where a cautious estimate was adopted last year in view of possible troubles in the jute business which however did not arise, while the briskness of trade has led to a large growth in the revenue. Important increases will also take place in Bihar and Orissa (R174 lakhs), Bombay (R248 lakhs) and Madras (R158 lakhs) owing generally to favourable trade conditions and improved arrangements for assessment. The Budget for 1913-14 provides for normal growth of revenue in almost all the provinces. In Bengal alone has no provision been made for an advance on the heavy collections in the current year.

### EXPENDITURE.

58. The figures show little variation and call for no remark.

### (a) Imperial.

Revised, 1912-13.

59. The falling-off in revenue in the current year as compared with the Budget estimate occurs mainly in Port Blair and is due to a smaller demand Budget, 1913-14. for, and a fall in the price of, padauk timber. The Budget estimate of 1913-14 provides for a small growth in all the minor administrations.

(b) Provincial.

Revised, 1912-13.

60. The Revised estimate for 1912-13 exceeds the Budget by R17:40 lakhs. The improvement is shared by all the provinces with the exception of the Punjab and Assam, where the revenue will fall short of the Budget, and of Bihar where the Budget estimate will very nearly be realised. The more important increases occur in the Central Provinces (R7 lakhs) due to the introduction of new grazing rates in certain districts, an intensity of demand for grass, and the supply of grass to Bombay in connection with the famine fodder operations; in the United Provinces (R5.55 lakhs) owing to a larger demand for timber and the consequent improvement in prices, to more extensive resin operations and to other causes; and in Burma (R2.87 lakhs), where a special receipt of R6 lakhs on account of the second instalment of the sale-proceeds of the Mergui rubber plantations obscures a shortage of R3 13 lakhs in the Budget estimate caused by an unfavourable floating season in Upper Burma in the earlier part of the year and the postponement of the recovery of a portion of the sale-proceeds of the *kheddah* elephants. The variations in the other provinces are of smaller magnitude and are generally due to an increase or a reduction in the receipts from the sale of timber and other forest produce.

Budget, 1913-14.

61. The total revenue in 1913-14 is taken at R8:41 lakhs less than the Revised estimate of the current year The bulk of this decrease is expected to take place in Bombay (R4 50 lakhs) and the Central Provinces (R2 lakhs) owing to a cessation of the special supply of grass required in connection with the famine fodder operations in the former province. A decline in revenue is also anticipated in Bengal and in Madras owing to the substitution of the contract system for departmental working; and in the United Provinces in view of the abnormally high sales of timber in the current year and the completion of the sale of trees killed by the drought of 1908. In Burma, Assam, Bihar and the Punjab provision has been made for a small normal growth of revenue.

#### EXPENDITURE.

### (a) Imperial.

Revised, 1912-13. Budget, 1913-14.

62. The expenditure in 1912-13 will fall short of the Budget provision by R 71 lakh in consequence of lapses in grants in Port Blair. Budget for 1913-14 is R3 42 lakhs higher than the Revised estimate for the current year mainly swing to provision for increased outlay in connection with working plans in Port Blair and Coorg, on the eradication of lantana in the latter province, for the erection of a semi-portable saw-mill in Port Blair (R1 50 lakhs) and for Imperial expenditure (R:50 lakh) out of the special grant of R10 lakhs for agriculture and allied objects.

### (b) Provincial.

Revised, 1912-13.

63. The total Revised estimate for 1912-13 is less than the Budget by R1.89 There is a large excess of R1 66 lakhs in the Central Provinces in connection with the supply of grass to Bombay; and of R1 21 lakhs in the United Provinces owing to an expected larger payment of rent to the Raja of Tehri in consequence of an increase in the revenue from leased forests, and to the transfer of provision to this head from "26.—Scientific and other minor departments" to cover an allotment made for acquiring certain babul forests in the Hamirpur district out of the special Imperial grant of 1911-12 for agriculture and allied objects. But these and smaller excesses in three other provinces, will be more than counterbalanced by a large decrease of R3 50 lakhs in Madras owing to the curtailment of departmental operations and by lapses in grants in Burma,

Bombay and Bengal.

64. The total Budget for 1913-14 is R3-39 lakhs higher than the Revised Budget, 1913-14. for the current year. Increased provision has been made generally for establishment charges with reference to the sanctioned scales, as well as for special outlay on the development of forests in most of the provinces. But it is partly counterbalanced by a reduction of the expenditure in connection with famine grass operations in Bombay and the Central Provinces, and the absence of the outlay incurred from special Imperial grants in Bengal and Bihar in the current year. The Budget estimates for Burma and Assam include allotments of R 50 lakh and R 25 lakh respectively for expenditure from the special Imperial grants made in 1913-14 for agriculture and allied objects.

### Imperial.

65. Excluding Delhi, the figures of both revenue and expenditure in the two years show little variation and call for no remark.

### Provincial.

66. The favourable economic conditions which have prevailed generally during the current year have led to a more rapid expansion in the demand for registration than was allowed for in framing the Budget estimate, and the Revised estimate for 1912-13 has been taken at R5 52 lakhs higher, the improvement being shared by almost all the provinces. In view of the high collections in the current year, no allowance for any important growth of revenue in 1913-14 has been made except in Bengal and Madras and the total Budget for next year is only R1 49 lakhs more than the Revised estimate for 1912-13.

67. The estimates of expenditure for the two years do not show any important variations and call for no remark.

<sup>\*</sup> Includes 33,79,804 on account of Opium Refunds in Bombay.

### (a) Imperial.

69. The wholly Imperial expenditure shown against "Other provinces" represents refunds and drawbacks in respect of wholly Imperial revenue (e.g., Opium, Salt, Customs and Tributes). The increase of R4.02 lakhs in the Revised estimate over the Budget for 1912-13 occurs mainly under refunds of customs duty and is due to a change in the method of accounting in Bombay by which duty paid in advance, pending the final settlement of the amount, is now credited as revenue, instead of under a deposit head, any excess over the correct amount being charged as Refunds when it is returned to the party concerned. The Budget estimate for 1913-14 does not differ materially from the Budget, 1913-14. Revised for 1912-13.

### (b) Divided and Provincial.

70. The expenditure fluctuates considerably from year to year and is Revised, 1912-13. difficult to estimate. In 1912-13 the Budget will be exceeded by #2 61 lakhs owing chiefly to special refunds of Excise revenue in Bombay and to higher refunds of Land revenue in several provinces. For 1913-14 a normal expenditure has been assumed.

### (a) Imperial.

71. The figures show little variation and call for no remark. The wholly Imperial expenditure shown against "Other Provinces" represents Opium, Salt and Customs compensations paid to Native States and Foreign Governments, as well as Miscellaneous compensations (ie, those of a general character and not intended to indemnify against loss of a particular kind of revenue) in provinces other than Bombay.

### (b) Provincial.

72. The expenditure in 1912-13 will not differ materially from the Budget provision. The increase of R1 72 lakks provided in the Budget for 1913-14 over the Revised estimate for the current year occurs chiefly in connection with the resumption of certain "bkari rights in Bombay and the Central Provinces.

(a) India-Imperial.

73. The total revenue in 1912-13 is now expected to be R3 13 lakhs more than the Budget estimate. The principal items contributing to this improvement are an increase of R1.78 lakhs in the interest receivable in respect of

Budget, 1913-14.

Imperial loans and advances, mainly owing to recovery of arrears from Native States in Bombay and the credit to Imperial of the interest due from the Delhi Municipality after 1st October 1912, on loans received by it from Government; and of R1 20 lakhs in the interest payable by railway companies on overdrafts of capital. The total Budget for 1913-14 exceeds the Revised estimate for the current year by R2 26 lakhs, a decrease of R1.25 lakhs in the interest recoverable from Native States due to the absence of the arrears mentioned above, being more than counterbalanced by an increase in the interest payable by railway companies in respect of overdrafts of capital.

### (b) India-Provincial.

Revised, 1912-13.

74. The Revised estimate for 1912-13 is R117 lakhs higher than the An increase of R1.80 lakhs is expected in the United Provinces due to recovery of arrears and a larger issue of advances for wells and of loans in certain districts; but this will be partly counterbalanced by a small net decrease in the other provinces. The Budget estimate for 1913-14 provides for a decrease of R2 lakhs in the United Provinces awing to the absence of the arrears realised in the current year. On the other hand in Bombay there is an increase of R2 81 lakhs owing to expected recovery of arrears from Native States and from cultivators; and the total Budget for 1913-14 is slightly higher than the Revised estimate for the current year.

### (c) England.

Revised, 1912-13.

75. The receipts in England in the current year are expected to show a considerable improvement of R31.20 lakhs (£208,000) over the Budget estimate. The whole of this increase occurs in the interest realised from the investment of the cash balances of the Home Treasury and is due to the amounts available for investment being much larger and the rate of interest higher than was estimated. The decrease of R29 40 lakhs (£196,000) in the Pudget estimate for 1913-14 as compared with the Revised for the current year also occurs wholly in this item of revenue. The cash balances of the Home Treasury next year are not expected to remain as high as in the current year.

Budget, 1913-14.

### INTEREST ON ORDINARY DEBT.

Interest on total deht, 19 2-13.

76. The expenditure in 1912-13 on account of interest payable on the public debt as a whole falls short of the Budget estimate by H5.64 lakhs £37,600). There is an increase of R4.86 lakhs (£32,400) in England due to the average price of issue of the new sterling loan of the year being lower than was anticipated. But on the other hand, a decrease of R10 50 lakhs is expected in India, mainly in consequence of a large saving in the provision for discount on the new rupee loan of the year. In the Budget of 1913-14 necessary provision has been made for a full year's interest on the sterling loan of £3 million and the rupee loan of 3 crores raised in the current year; and for the service of the new rupee loan which it is contemplated to raise in 1913-14. But the total expenditure will fall short of that in 1912-13 by R28 71 lakhs (£191 400) owing to the absence of the heavy discount paid in the current year on the sterling loan issued in April 1912.

1913-14.

77 The amount of interest transferred to the Railway and Irrigation Transfers to Rail- sections of the accounts depends firstly, on the capital expenditure; secondly way and Irrigation on the actual payment of interest on that portion of the debt which has been incurred specifically on account of the construction or purchase of railways or irrigation works; and thirdly, on the rate at which inte est is charged on that portion of the debt which has not been specifically raised for the above purpose. Our practice is to adopt for this adjustment the average rate of interest actually paid in respect of the whole of the non-specific debt in the latest year for which practically complete accounts are available The resu't is that the rate adopted in calculating the Revised estimate for a year is generally different from that used for the Bulget estimate; and this leads to a difference between the two estimates apart from that cause by a variation in the capital expenditure itse'f. The large increase of 431.17 lakhs (£207,800) in the Revised estimate of total interest to be transfered in 1912-13, as compared with the Budget, is due part'y to an increase in the rate, and part'y to an increa e in the amount of funds supplied by Government for capital expenditue on State Railways (vide paragraph 228). The increase in the amount of interest to be transferred in 1913-14 over the Revised estimate for 1912-13 is almost wholly due to the progress of capital expenditure.

Transfers to Provincial.

78. A portion of the interest on Ordinary Debt appears in the Provincial section of the accounts. Provincial Governments are authorised to grant advances to cultivators (as well as to certain other people in special cases) under various Acts to landho'ders and notabilities apart from the provisions of any law, and to municipalities and local bodies (other than Presidency Corporations), out of amounts annually placed at their disposal by the Government of India. The interest actually levied on such advances is credited as Provincial revenue. But interest at 3½ per cent. a year is charged to the Local Governments on the mean between the outstanding balances of the Provincial Loan Accounts at the commencement of the year and at its close; and this is done by transferring the amount so calculated from the Imperial to the Provincial section under Interest on Ordinary Debt. The differences between the Budget and the Revised estimates of the amount to be so transferred in the current year, and between the latter and the Budget estimate of 1913-14, are explained by the variations in the outstanding balances of the Provincial Loan Account as shown in the table at page 51.

stevised, 1912-13.

### INTEREST ON OTHER OBLIGATIONS.

Budget, 1913-14.

79. The increase of R1.21 lakhs (£8,100) in the Revised estimate of the current year over the Budget provision occurs almost wholly in the interest payable by the Post Office Savings Banks, the deposits in which have grown more largely than was anticipated (vide paragraph 262). In 1913-14 provision has been made for a further increase in the interest payable on the deposits in the Post Office Savings Banks and in the State Provident Funds, consequent on a growth in the deposits themselves.

#### REVENUE.

80. General prosperity and briskness of trade have led to a larger growth of Revised, 1912-18 revenue under this head in the current year than was allowed for in the Budget; and the Revised estimate shows an improvement of £6.08 lakhs. In the Bunget of 1913-14 provision has been made for a further moderate advance of Budget, 1913-14. R15.20 lakhs.

EXPENDITURE.

81. The total expenditure in 1912-13 is expected to fall short of the Budget grant by R1 92 lakhs. An increase of R 47 lakh under establishment, Revised, 1912-13. main'y in consequence of the grant of grain compensation allowance, and of R 99 lakh under stationery and printing necessitated by the revision of a large number of postal forms will be more than counterbalanced by a lapse in the grant for conveyance of mails and by savings in the cost of stamps owing to the reduced rates now charged on their supply. The total Budget estimate for 1913-14 exceeds the Revised for the current year by R3 12 lakhs only. Due Budget, 1913-14. provision has been made for the normal development of the operations of the Department; but it is obscured to some extent by a decrease in the stationery and printing charges arising from the absence of the special expenditure in the current year mentioned above, and by a further reduction in the cost of stamps.

### REVENUE.

82. Here also the favourable economic conditions of the current year have led 82. Here also the favourable economic conditions of the current year nave led to a larger growth of revenue than was assumed in the Budget, and improvements of R6·61 lakhs and R4 92 lakhs respectively are expected in the receipts of the Indian and the Indo-European Departments. The Budget estimate for 1913-14 provides for a further advance of R7 59 lakhs in the revenue of the Indian Department; but in view of the very considerable development which has taken place in the receipts of the Indo-European Department in 1912-13 it is not considered prudent to budget for a further growth here next year.

### EXPENDITURE.

### (a) Indian.

83. The total expenditure in the current year is expected to exceed the Revised, 1912-13. Budget grant by R5 47 lakhs (£36,500). There is a saving of R2 04 lakhs (£13,600) in the revenue expenditure, due mainly to lapses in the grants for establishments and other general charges and to smaller outlay on line repairs. But this is more than counterbalanced by an increase of R7 51 lakhs (£50,100) in the capital expenditure chiefly in connection with the installation and equipment of radio offices.

84. The Budget estimate for 1913-14 is taken at R13 08 lakhs (£87,200) Budget, 1913-14. more than the Revised for 1912-13. There is an increase of R6:40 lakhs (£42,700) in the Revenue expenditure owing chiefly to full provision for sanctioned establishments, higher working expenses resulting from the growth in traffic, and contemplated outlay on the remodelling of existing wireless stations in the Bay of Bengal. Capital expenditure will also go up by R6.68 lakhs (£44,500)

to provide for the requirements of radio stations.

### (b) Indo-European.

85. The total expenditure in the current year will fall short of the Budget Revised, 1912-18. by R1 49 lakhs (£9,900), the decrease being made up of lapses of R1 13 lakhs (£7,500) and R·36 lakh (£2,400) respectively in the capital and revenue grants. The saving in the capital account is caused by the postponement for yet another year of the reconstruction of the Arabistan telegraph line and work on certain buildings in Persia, and would have been higher but for the utilisation of a portion of the available funds in the building of radio offices in the Persian Gulf.

86. The Budget estimate for 1913-14 is taken at #3 40 lakhs (£22,700) Budget, 1913-14. higher than the Revised for the current year. Provision has been made for capital outlay on most of the construction works postponed in the current year as well as on the radio offices, for repairs to the cable steamer, and for working

expenses of the radio offices.

### REVENUE.

Revised, 1912-13.

87. The Revised estimate for 1912-13 exceeds the Budget by R48.94 lakhs. Of this increase R32 04 lakhs are contributed by the seigniorage on the coinage of rupees from purchased silver. An important increase of R15 lakhs is also expected in the profit on the circulation of subsidiary nickel and bronze coins the demand for which has been stimulated by the activity of trade. The resumption of the coinage of new rupees will also result in an increase in the operative gains included under "Other items" in the above table, but this will be counterbalanced by an increase the debits on account of operative losses.

Budget, 1913-14.

88. The Budget estimate for 1913-14 is taken at R43.71 lakhs less than the Revised estimate for the current year, the decrease being due to the absence of the seigniorage and other special receipts of the current year and to a moderate provision for profit on the circulation of subsidiary nickel and bronze coins.

### EXPENDITURE.

89. The excess of R6·13 lakhs in the expenditure in the current year over the Budget estimate is caused by the heavy coinage of rupees from Budget, 1913-14. purchased silver. The Budget for 1913-14 provides for normal operations only.

### (a) India—Imperial.

90. In the Budget estimate for the current year, a lump provision of R5 lakhs was made for the cost of administration of the Imperial Capital at Delhi. The expenditure incurred on this account is being recorded under the proper heads. Only the pay and other charges of the Chief Commissioner and his secretariat staff will be recorded under this head; and these are expected to amount to R:49 lakh in 1912-13, while a provision of R1:10 lakhs has

Revised, 1912-13.

been made in next year's Budget to meet a full year's expenditure.

91. Omitting the Delhi figures, the total expenditure in 1912-13 will amount to R102 96 lakhs against a Budget grant of R103.16 lakhs, while the Budget for 1913-14 has been fixed at R102 97 lakhs. In the current year an excess of R1 51 lakhs under Secretariat charges, due to the employment of additional officers in connection with special work and to higher expenditure on the enquiry on prices, will be more than counterbalanced by a saving of R 59 lakh in the tour expenses of His Excellency the Viceroy, and by a net decrease of R1.02 lakhs in the cost of the Account and Currency Departments caused by the debit of a portion of the expenditure to the public works heads of account. In 1913-14 there will be a reduction of R1 23 lakhs in the Secretariat charges owing to the termination of the enquiry on prices and the absence of special expenditure incurred in the current year; but on the other hand normal provision has been made for the Viceregal tours and there will be an increase in the cost of the Account and Currency Departments in consequence of the contemplated separation of the functions of the Comptroller-General and the appointment of a Controller of Currency.

### (b) Provincial.

Revised, 1912-13.

92. The total Revised for 1912-13 exceeds the Budget estimate by R3.58 The bulk of the increase occurs in Bengal (R2 50 lakhs) and is due to the retention of the Board of Revenue and to higher expenditure on the purchase of pictures and the supply of crockery for Government House, and on the movement of records. The balance of the excess, viz., R1 08 lakhs, is contributed by certain arrear charges in connection with the Royal visit in the Punjab and some other provinces and by other unimportant variations.

Budget, 1913-14.

93. The total Budget for 1913-14 does not differ materially from the Revised estimate for the current year. Savings of R1:48 lakhs and R:82 lakh respectively are expected in Bengal and the Punjab owing to the absence of the non-recurring and special expenditure incurred in the current year. But these will be nearly counterbalanced by an increase of R1:10 lakhs in Bihar and Orissa where provision has been made for a full year's cost of the Executive Council and certain head-quarters establishments; and of R1 12 lakhs in the Central Provinces caused by lump allotments for the provincial Legislative Council, a separate Inspector-General of Registration, the revision of the office of the Excise Commissioner, and a new railway saloon for the Chief Commissioner.

### (c) England.

94. The excess over the Budget grant in the current year and the further increase provided for in the Budget of 1913-14 are mainly due to higher demands for currency note forms.

### EXPENDITURE:

### (a) Imperial.

95. Excluding Delhi, the figures show little variation and call for no remark.

### (b) Provincial.

Revised, 1912-13.

96. The total Revised estimate for 1912-13 exceeds the Budget by R2·69 lakhs. A large increase of R2·75 lakhs is expected in Madras owing mainly to larger expenditure on grain compensation allowance, the opening of an additional number of temporary subordinate courts and the deputation of a district judge to enquire into the adequacy of the judiciary outside Madras city. The variations in the other provinces are unimportant and do not call for any remark.

Budget, 1913-14.

estimate for 1912-13. A portion of this increase, viz., R1·43 lakhs, is nominal and is caused by the transfer to this head of certain charges which used to be recorded under "3.—Land Revenue" (see paragraph 28); the balance is shared by all the provinces except Bengal and Madras. Provision for the full cost of sanctioned establishments and for normal growth has been made in all the provinces. Special allotments have also been made in the Central Provinces for the appointment of a third additional Judicial Commissioner; in the Punjab for the re-organisation of the superior judicial service; and in Bengal for the regrading of munsiffs. The resultant increase in expenditure will, however, be more than counterbalanced in Bengal by a large saving in law charges owing to the absence of the special expenditure incurred in the current year in connection with political cases; and in Madras by a reduced provision for grain compensation allowance and the absence of certain items of special outlay incurred in 1912-13.

#### REVENUE.

### (a) Imperial.

98. The figures do not show any important variation and call for no remark.

(b) Provincial.

Revised, 1912-13.

99. The total revenue in the current year is expected to exceed the Budget estimate by R3·47 lakhs, the improvement occurring mainly under copying fees realised in cash in Burma, and under magisterial fines in several provinces. The Budget for 1913-14 provides for normal receipts in all the provinces.

#### EXPENDITURE.

### (a) Imperial.

100. Excluding Delhi, the figures do not show any important variation and call for no remark.

### (b) Provincial.

Revised, 1912-13.

101. The total expenditure in 1912-13 will be £1.40 lakhs less than the Budget estimate. Savings in the allotments for the cost of dietary as well as in other grants are expected in all the provinces except Burma and the Punjab. In Burma and the Punjab, the Budget grants will be exceeded by £2.24 lakhs and £1.13 lakhs respectively, owing to a larger outlay on dietary in the former province caused by necessary replenishment of stock and a rise in the price of paddy, and in the latter to the conversion of the Lahore district jail into a central

jail and an increase in the jail population.

102. The total Budget estimate for 1913-14 exceeds the Revised estimate for the current year by R199 lakhs. The grants are generally based on the sanctioned scale of establishments, the probable jail population, the cost of dietary and the requirements for raw materials. Special provision has been made in Bengal for the improvement and stimulation of industries in the jails in the eastern districts; while in the Punjab due allowance has been made for the conversion of the district jails at Rohtak and Jhang into subsidiary jails.

### REVENUE.

103. The figures show little variation and call for no remark.

### EXPENDITURE.

### (a) Imperial.

levised, 1912-13.

104. Of the figures shown against Delhi about R.75 lakh in the current year and R1 lakh in 1913-14 represent additional expenditure required for the policing of the new Imperial Capital. Excluding the Delhi figures, the expenditure in 1913-12 is constal to fall short of the Budget action, the expenditure in 1913-12 is constal to fall short of the Budget. diture in 1912-13 is expected to fall short of the Budget estimate by R.95 lakh owing chiefly to lapses in the allotments for police reforms in Baluchistan Budget, 1913-14. and the North-West Frontier Province; while the increase of R4 33 lakhs in the Budget for 1913-14 over the Revised estimate for the current year is mainly due to full provision for the re-organisation of the police in Baluchistan and for the conversion of the border military police in the North-West Frontier Province into frontier constabulary, in accordance with schemes which have been recently sanctioned by the Secretary of State.

### (b) Provincial.

Revised, 1912-13.

105. The total expenditure in 1912-13 is expected to fall short of the Budget provision by R2 lakhs only. There is a saving of R4 45 lakhs in Bengal owing to the entire or partial lapse of the lump provisions for the strengthening of the Calcutta city police, the re-organisation of the river police in Eastern Bengal and other police reforms; of R2 48 lakhs in the United Provinces due to a partial utilisation of certain lump allotments for police reforms; and of R1 26 lakhs in Assam owing to the non-utilisation of lump provisions for the re-organisation of the river and other police. In the Punjab also, there will be a small lapse, a saving of about a lakh caused by the transfer of Delhi being partly counterbalanced by increased expenditure on the maintenance of municipal police buildings. On the other hand, there will be a large increase of R4 39 lakhs in Madras in connection with the payment of grain compensation allowance and more rapid progress with the recruitment of additional constables, and of R1 30 lakhs in Burma as the net result of higher cost of punitive police and smaller outlay on the purchase of supplies for the military police; while unimportant excesses over Budget grants are also expected in Bombay, Bihar and Orissa and the Central Provinces.

Budget, 1913-14.

106. The Budget estimate for 1913-14 is taken at R36 91 lakhs higher than the Revised for the current year. A considerable increase of R14 41 lakhs is expected in the United Provinces chiefly in consequence of lump provisions of R11.02 lakhs for the payment from Provincial revenues of village police in Oudh and Gorakhpur, of R3.43 lakhs for the conversion into regular constabulary of the village police in Act XX towns (which is partly counterbalanced by a saving of R1 65 lakhs in the police grants now made to the towns), and of R1 15 lakhs for expenditure in connection with the registration and better control of criminal tribes. Provision for the full cost of the police reforms already introduced, as well as for the introduction of further reform measures has been made in all the provinces; but in Madras and Bombay the resultant growth in expenditure is obscured by smaller allowance for grain compensation and other indirect famine charges.

### REVENUE.

### (a) Imperial.

107. The figures do not show any important variations and call for no remark.

### (b) Provincial.

Revised, 1912-13.

108. The increase of R4 20 lakhs over the Budget estimate in the current year is mainly due to higher recoveries on account of punitive police employed in certain tracts in Burma, Bengal, Bihar and the Punjab. These special receipts are expected to fall off in the ensuing year; and this accounts for the Budget, 1913-14. decrease of R1 88 lakhs in the Budget of 1913-14 as compared with the Revised estimate for the current year.

### EXPENDITURE.

109. The increase of R1 52 lakhs in the expenditure in 1912-13 over the Revised, 1912-1. Budget provision is expected mostly in Bengal and will result from higher charges of pilot establishments necessitated by the briskness of trade and from the postponement of certain recoveries in connection with the agency for Government consignments. The total Budget for 1913-14 is R1 98 lakhs higher than the Budget, 1913-14 Revised estimate for the current year, mainly in consequence of provision in Bombay for the construction of two additional lights off the Sind Coast.

### REVENUE.

110. The excess of R1.75 lakhs in the current year over the Budget estimate is caused by higher pilotage receipts in Bengal which more than counterbalance the increase in expenditure mentioned above. The Budget Budget, 1913-14 estimate for next year does not differ materially from the Revised for 1912-13.

#### EXPENDITURE.

#### (a) Imperial.

111. Excluding the Delhi figures, the Revised estimate for 1912-13 is R72-29 Revised, 1912-13. lakhs less than the Budget, while the Budget for 1913-14 exceeds the Revised estimate for the current year by R413 lakhs. The large decrease in the current year is nominal and is due to the assignment to the Governments of the major provinces of the bulk of the lump grants aggregating R80 lakhs for which provision was made in the Budget under this head. The portion of the grants so assigned amounts to R73 66 lakhs; and only R6 34 lakhs have been allotted to the minor administrations, viz., R3 84 lakhs from the residue of the recurring grant of R60 lakhs, and R2 50 from the non-recurring grant of R65 lakhs. The former sum will be devoted mostly to the promotion of primary and secondary education; while of the latter, R2 lakhs have been given to the Islamia College at Peshawar and the remainder will be spent mainly on hostels. The Imperial expenditure in 1912-13, excluding Delhi, will thus exceed by R1:37 lakhs the allotments available for the purpose, either from specific provisions made in the Budget or from the special grants mentioned above. The excess is mainly due to higher demands for primary schools in the North-West Frontier Province and Coorg, and a special grant has been given recently to

meet the expenditure.
112. The increase of R4 13 lakhs in the Imperial expenditure in 1913-14 Budget, 1913-14. mentioned in the preceding paragraph, is due to provision under this head of R6.65 lakhs out of the additional recurring grant of R55 lakhs from Imperial revenues for the promotion of education (vide paragraph 19). The sum has either been allotted to the minor administrations or else is being held in reserve for future distribution and it is partially obscured by the absence of the non-

recurring Imperial outlay incurred in the current year.

#### (b) Provincial.

113. The total expenditure in 1912-13 is expected to exceed the Revised, 1912-13 Budget provision by R.34 lakh. The figures under this head, however, are not a complete index to the progress made by the various Local Governments with outlay on the promotion and reform of education out of the special Imperial grants—recurring and non-recurring—given in recent years; for a considerable portion of the expenditure is incurred in the Public Works Department on buildings, etc., and is recorded in the accounts under "45.—Civil Works." The Budget estimate for the current year provided for an expenditure of B23.50 lekks out of the recurring and recorded in the accounts under "45. expenditure of R23 50 lakhs out of the recurring assignments amounting to R55.96 lakhs which have already been sanctioned, and of R47.50 lakhs out of nonrecurring grants of previous years, or in the aggregate R71 lakhs. It is now expected that R40 82 lakhs of the recurring grant will be spent during the year and R67.22 lakhs against the non-recurring. The total expenditure in 1912-13 from special Imperial grants of both classes will then amount to R108.04 lakhs of which R75.23 lakhs will be recorded under "22.—Education" and the remaining R32 81 lakhs under other heads of account, mostly Civil Works. Thus there is an excess of R4.23 lakhs (R75.23—R71.00 lakhs) in expenditure from special grants, and as the aggregate expenditure under the head is R 34 lakh more than the Budget provision, there will apparently be a lapse of about R4 lakhs only in the ordinary grants, distributed among the nine provinces.

114. The Budget estimate of 1913-14 provides for a very considerable Budget, 1913-14. advance of R218 47 lakhs over the Revised estimate for 1912-13. Of this increase R186 48 lakhs will be financed from the special contributions made from Imperial revenues. The outlay chargeable to Education from the grants already distributed among provincial Governments will be higher by R32 48 lakhs than the similar expenditure in the current year; while special allotments to the extent of R154 lakhs will be made from the additional grants which it is now proposed to give, the whole of the recurring grants and about one-third of the non-recurring ones being made available for expenditure in 1913-14. Even so, there will remain a balance of R31 99 lakks representing the contribution made from the growth of Provincial revenues to foster the progress of education. Provision has been made in every province for increased expenditure on scholarships and stipends, educational grants to local bodies, and the

strengthening and improvement of the inspecting and teaching staff. In the Central Provinces, lump allotments have been entered for the taking over by Government of the Morris College, Nagpur, and of certain anglo-vernacular schools, and for the improvement of selected vernacular schools. In the other schools, and for the improvement of selected vernacular schools. provinces, the following additions have been made to the provincial budgets with dations of the respective Finance Committees:

reference to	the	recon	nmen	dat	ions	or the	e respective Finance Committees
Assam .			•	٠	R 1.58	lakhs,	mainly for additional grants-in-aid and scholar- ships, the establishment of a Madrassa at Sylhet, and the improvement of the Cotton College.
Bengal .			•		.73	lakh,	mainly for reform of the system of training in the eastern districts, taking over by Govern- ment of certain industrial schools and revision of pay of Sub-Inspectors of schools.
Bihar and Oris United Provin		:	:	·:	·42 1·67	lakhs,	mainly for additional grants-in-aid. mainly for increased educational grants to local bodies.
Punjab .		•	•		2.77	"	mainly for the taking over by Government of the Lawrence School, Murree, equipment and staff of the Mayo School of Art, revision of the subordinate educational service, additional
N.							subordinate inspecting staff, and a new school at Lyallpore.
Madras .	•	•	•		8.98	"	mainly for grants to aided secondary and other schools for equipment, subsidies to local bodies for equipment of elementary schools, equipment of training schools for masters, opening of
							additional girls' schools, and development of the
Bombay .				•	2.31	,,	College of Engineering.  mainly for the opening of new primary schools and the improvement of primary education.

115. The unspent balance of the various Imperial grants already made will stand at R68 59 lakhs at the end of the current year, viz, R15 14 lakhs of the recurring grant and R53 45 lakhs of the non-recurring one. The Local Governments propose to spend in 1913-14 R40.98 lakhs of the latter sum, as well as R11 66 lakhs of the former, in addition to the recurring grant of R55 96 lakhs for next year. The total outlay from the old grants will thus amount to R108.60 lakhs, of which the whole excepting a small sum of R.89 lakh has been provided under "22—Education." The unspent balance of the old grants at the close of next year will stand at R15 95 lakhs only.

116. The following statement gives the distribution among the provinces of the provision of R10771 lakhs under this head mentioned above and of the allotments aggregating 154 lakhs entered in next year's Budget for expenditure from the additional Imperial grants-non-recurring and recurring-

which it is now proposed to make.

[Lakhs of rupees].

						Allotments fr	om Imperial
6						Old grants.	New grants.
Central Provinces						5.31	8.50
Burma .						7.17	11.00
Assam .					4	2.16	6.00
Bengal .			. 0.6			36.93	38.00
Bihar and Orissa						7.09	16:50
United Provinces						11.52	20:50

	tion grant of R45 lakhs		20
		5.35	1.85

#### (ii) Other Provinces.

120. Excluding the Delhi figures, the Revised estimate for 1912-13 exceeds the Budget by R5·61 lakhs. The latter, however, included a reserve provision of R2 30 lakhs for contributions to Provincial Governments for the improvement of sanitary services. These contributions have been paid during the year where necessary, by assignments of Imperial land revenue; and the true increase in expenditure recorded under this head in 1912-13 over the Budget provision therefore amounts to R7·91 lakhs. This excess is more than accounted for by the following special grants not included in the Budget, which have been given to municipalities and other local bodies in minor administrations for non-recurring outlay on the improvement of sanitation.

						R	
Bangalore						4.00	lakhs.
Peshawar						2.00	
Indore	•••	•••	•••	•••		2.00	,,

Coorg	• • • • • • • • • • • • • • • • • • • •				•••	.25	"
						8.75	,,

On the other hand there will be a lapse of R.84|lakh in the ordinary grants for plague and other expenditure.

121. The Budget estimate for 1913-14 is R1 37 lakhs less than the Revised estimate for the current year. The latter, however, includes non-recurring expenditure amounting to R10 77 lakhs made up of R8 75 lakhs mentioned above and R2 02 lakhs in Ajmer, Coorg and Bangalore which were provided in the current year's Budget. The real increase in next year's grant over the Revised estimate for 1912-13 thus amounts to R9 40 lakhs. Nearly the whole of this excess is accounted for by the provision of R9 25 lakhs for the portions of the special Imperial appropriations for sanitation and medical relief (vide paragraphs 18 and 24) which will be utilised for research or allotted to

(2)

minor administrations, or else held in reserve for future disposal. The distribution of this amount among the minor administrations, etc., is given below:

(1) Allotments out of the recurring Imperial grant of R45 lakhs for sanitation:—

											1.25
											9.25

(b) Provincial.

Revised, 1912-13.

122. The Budget estimate for the current year included special allotments under this head aggregating about R75½ lakhs for outlay from the non-recurring Imperial grants made in 1910-11 and 1911-12 for sanitary and other medical expenditure. Out of these allotments R66 lakhs are expected to be spent in 1912-13; but only about R26 lakhs of the outlay will be recorded under this head, the balance being shown under Civil Works. This explains the bulk of the decrease of R59·83 lakhs in the Revised estimate as compared with the Budget. The balance is mainly due to lapses in the grants for ordinary and plague expenditure in several provinces, the non-utilisation of the provision of R2 lakhs made in Madras for contribution to the Edward VII Memorial Fund Committee in connection with the construction of a hospital and sanatorium for consumptives, the record under Civil Works of a portion of the expenditure in connection with special sanitation schemes in Bombay for which provision was made in the Budget under the Medical head, and the partial utilisation of the grant for the development of the Grant Medical College in the same province.

Budget, 1913-14.

123. The Budget estimate for 1913-14 exceeds the Revised for the current year by no less than \$\text{R}102\$ 66 lakhs. The latter, however, includes about \$\text{R}26\$ lakhs of expenditure out of certain special Imperial grants given in 1910-11 and 1911-12 while only \$\text{R}13\$ lakhs on this account remain to be incurred under this head in 1913-14. The real increase in expenditure in 1913-14 over that in the current year will thus amount to \$\text{R}115\frac{3}{4}\$ lakhs. Of this excess about \$\text{R}4\$ lakhs are explained by the provision under this head in Bombay of the full amount of the recurring Imperial contribution of \$\text{R}4.5\$ lakhs made in 1908-09 for special sanitation schemes; and \$\text{R}95\frac{1}{4}\$ lakhs represent allotments made out of (1) the non-recurring Imperial subvention of \$\text{R}150\$ lakhs for sanitation in 1912-13, (2) the recurring Imperial subvention of \$\text{R}36.50\$ lakhs in 1913-14 for the same purpose and (3) the non-recurring Imperial subvention in 1913-14 for hospitals and medical education (vide paragraphs 18, 21 and 24). The whole of the last two subventions, as well as one-third of the first subvention, have been made available for expenditure in 1913-14, the sums added under this head to the Budget estimates of the several provinces being as shown below.

		The state of the last						[Lakhs of R

			To	otal		86.50	8.75	95.25

124. The balance of the increase in the Budget estimate for 1913-14 over the Revised for the current year, amounting to R16½ lakhs, represents the contribution from provincial resources proper for the development of the various beneficial services whose charges are recorded under this head. Provision has generally been made for the full cost of sanctioned establishments; and for increased expenditure on medical colleges, hospitals and dispensaries, as well as on measures for the prevention of plague and malaria. The Madras Budget again provides for the payment of the contribution of R2 lakhs to the Edward VII Memorial Committee mentioned above; while in the Central Provinces a special allotment has been made for a medical school at Nagpur.

125. The following table shows the progress made by the Provincial Governments in utilising the various non-recurring grants made from Imperial revenues in 1910-11 and 1911-12 in aid of sanitary and medical expenditure.

#### REVENUE.

#### (a) Imperial.

126. The figures show little variation and call for no remark.

#### (b) Provincial.

127. The increase of R2·38 lakhs over the Budget estimate is due to the Revised, 1918-13. receipt of special contributions aggregating R1·49 lakhs in Bengal, Bombay and Madras from the Indian Research Fund for anti-malarial expenditure, and to a general improvement in hospital receipts and medical college fees. In the Budget, 1913-14. Budget of 1913-14, the absence of the special contributions obscures the provision for normal growth in some of the provinces.

128. The Imperial outlay shown against "Other Provinces" consists of the charges of the Political Residency at Aden and certain other expenditure—mainly in connection with political refugees and State prisoners—in several provinces.

#### (a) Imperial.—India and England.

Revised, 1912-13.

129. The excess of R3·45 lakhs over the Budget provision in 1912-13 is chiefly due to India's share of certain special expenditure in Muscat and Persia in connection with the suppression of the arms traffic and the buoying and lighting of the Persian Gulf, and to charges in connection with the State entry of His Excellency the Viceroy into Delhi. An increase of R1·28 lakhs in the cost of the political agencies in Native States owing mainly to higher payment of salaries in accordance with the scheme for the re-organisation of the Indian Political Department will be met by savings on this account as well as in the charges of frontier militia in the North-West Frontier Province. The Budget estimate for 1913-14 is R5·93 lakhs higher than the Revised estimate for the current year, in spite of the absence of the expenditure incurred in 1912-13 in connection with the State entry at Delhi, the excess being due to provision for increased expenditure in Muscat and Persia on the special services mentioned above, as well as for a full year's charges of the Kurram and Waziristan militia, and of the Zhob militia and certain district levies in Baluchistan, in accordance with schemes of re-organisation which have been recently sanctioned.

Budget, 1913-14.

#### (b) Provincial.

Revised, 1912-13.

130. The increase of R806 lakhs in the Revised over the Budget estimate for the current year is caused wholly by special expenditure in Burma

and Assam on political missions and surveys in the north-east frontier and for arrangements made for the administration and proper control of the Assam frontier. The further growth of expenditure amounting to R5 47 lakhs which has been provided in the Budget of 1913-14, arises chiefly from similar causes. Next year's Budget, 1913-14. outlay in Burma on this account is expected to be over R2 lakhs less than in the current year; but on the other hand, necessary allotments have been made in Assam for a full year's cost of the frontier agencies as well as for a continuance of the survey and exploration operations. As has been already mentioned in paragraphs 15 and 25, Imperial subventions have been given to both the Provinical Governments to compensate them for the special expenditure for which no provision has been made in their financial settlements. The increased provision of R1.02 lakhs in the Bombay Budget for 1913-14 is mainly due to provision for the re-organisation of the Bombay Political Department.

#### EXPENDITURE.

131. The figures shown against "Other Provinces," in the table at page 78 represent expenditure incurred in the several provinces in connection with ethnographical surveys, census operations, and the pay and allowances of officers borne on the cadre of the Imperial Civil Veterinary Department, as well as the cost of the Archæological Department in Burma.

(a) Imperial-India and England.

compared with the Budget is caused by the employment of survey detachments on frontier explorations, the cost of which is debited under the Political head, as well as by ordinary lapses in grants of the Survey of India, the Imperial Veterinary and certain other Departments. The larger saving in the Budget grant shown against "India General" in the table on page 78 and the considerable excess over the grant for "Other provinces" are due firstly to the transfer from the "India" books to those of the Accountant General, Punjab, of the charges of the Hissar Cattle Farm and of the veterinary officer employed in investigating camel diseases consequent on the transfer of their control to the Punjab Government; and secondly to allotments having been made for expenditure in the various provinces from the lump provision for census charges in the "India" estimates. The transactions of the Hissar farm will continue to be treated as Imperial in the current year; but from 1913-14 the charges exclusive of the salaries of Imperial veterinary officers, as well as the receipts, will become Provincial.

Budget, 1913-14.

133. The total Budget estimate for 1913-14 is higher than the Revised for the current year by R5 38 lakhs; and if allowance is made for the saving of R1 93 lakhs in census charges and for the transfer to the Provincial account of R1 31 lakhs of the expenditure of the Hissar Cattle Farm the true increase amounts to R8 62 lakhs. Of this excess, R3 24 lakhs are expected in the charges of the Survey Department owing to the return of the survey detachments from frontier explorations and to full provision for the re-organisation of the Provincial Service which has been recently sanctioned by the Secretary of State; while R2 90 lakhs represent the portion of the special grant for agriculture and allied objects which will be devoted to Imperial outlay under this head. Otherwise, the grants of the various departments have been generally fixed with reference to normal operations and the sanctioned scale of establishments. R:40 lakh of the special grant has been allotted to the Meteorological Department and the balance of R2 50 lakhs will be spent on the Pusa Institute and on bacteriological laboratories.

(b) Provincial.

Revised, 1912-18.

134. The Budget estimate for the current year provided for an outlay of R14 lakhs out of the non-recurring Imperial grants of R20 lakhs for agriculture and allied objects and of 2 lakhs for the bacteriological institute in Burma made in 1911-12. The probable expenditure of Local Governments on this account in 1912-13 is likely to amount to R14·15 lakhs, as the higher outlay in Bengal and Madras on the purchase of quinine will more than cover the lapses in other provinces. Only R9·53 lakhs of the expenditure will however be recorded under this head, the balance being recorded under Forests (R2·34 lakhs), Medical (R·27 lakh) and Civil Works (R2·01 lakhs). This mainly explains the decrease of R5·32 lakhs in the Revised estimate as compared with the Budget, the remainder being due to ordinary lapses in grants.

Budget, 1913-14.

135. The total Budget for next year is R14 05 lakhs higher than the Revised estimate of 1912-13. An expenditure of R630 lakhs is expected to be incurred in 1913-14 out of the balance of the special Imperial grants mentioned above, of which R4 74 lakhs will be recorded under this head. Provision has also been made for an outlay of R5.85 lakhs out of the non-recurring Imperial grants for the improvement of agriculture which will be given in 1913-14; and R1.31 lakhs of the increase in the Punjab represent charges of the Hissar cattle farm which will be met from Imperial revenue surrendered to the Provincial Government. The total expenditure under this head met from special Imperial grants in next year's Budget thus amounts to R11 90 lakhs against a similar expenditure of R9.53 lakhs in the current year; and the increased outlay contemplated from Provincial resources proper amounts to no less than R11.68 lakhs. Substantial additions to the grants for the development of the agricultural and veterinary departments have been provided in every province. Special allotments of R1 68 lakhs have been made in Bombay for the establishment of two new seed farms, and of R1.09 lakhs in the United Provinces for a seed and three cane-sugar farms.

#### REVENUE.

(a) Imperial.

Revised, 1912-13.

136. The decline of R·45 lakh expected in the receipts in the current year is caused by the discontinuance of recoveries from the Military Department for serum supplied from the Muktesar laboratory. The larger decrease shown against India in the table on page 78 and the entry against the Punjab arise in connection with the transfer of the Hissar farm to the control of the Punjab Government. The further loss of R 63 lakh in the Imperial revenue in 1913-14 is due to the transfer to the Provincial account of the receipts in connection with this farm.

Budget, 1913-14.

(b) Provincial.

Revised, 1912-13.

137. The decrease of R111 lakhs in the revenue in 1912-13 as compared with the Budget estimate is due almost wholly to the indents for the supply of quinine from the Cinchona Department in Bengal being much less than had been anticipated. Budget for 1913-14 provides for normal growth in receipts in every province, as well as for the credit to the Provincial account of the receipts of the Hissar farm; but in Bengal a further decline has been allowed for in the receipts of the cinchona plantations.

Budget, 1913-14.

140. The figures of Imperial revenue shown against "Other Provinces" represent the receipts of certain abolished funds, the assets and liabilities of represent the receipts of certain abolished funds, the assets and habitaties of which were taken over by the Government, as well as the subscriptions paid by members of the Indian Civil Service for securing certain pensionary benefits for their families. The charges on account of such pensions as well as of the pensions of the abolished funds are recorded in the accounts as Imperial expenditure.

#### EXPENDITURE.

141. The growth in the pension charges in 1912-13, both in India and in Revised, 1912-13.

England, has exceeded the provision made on this account in the Budget, a part of the increase being caused by a larger demand for commutation of pensions. Budget, 1913-14. The estimates for next year provide for the normal growth of the retired list and for the grant of pensions and gratuities to discharged officers and men of the disbanded Border Military Police in the North-West Frontier Province.

#### REVENUE.

142. The variations in the figures are unimportant and call for no remark.

#### EXPENDITURE.

Revised, 1912-13.

143. The total expenditure on stationery and printing—Imperial and Provincial—in 1912-13, exclusive of the charges of the commercial departments, shows a satisfactory decrease of R118 lakhs (£7,900) as compared with the Budget estimate, while a further decline of R 76 lakh (£5,100) is anticipated in 1913-14. The Imperial outlay in the current year, in both India and England, will fall short of the Budget provision by R3 36 lakhs in spite of an increase of R106 lakhs in the charges of the Government of India presses caused mainly by the transfer of a portion of the Calcutta Press to Delhi; and

Budget, 1913-14.

Revised, 1912-13.

the Budget for 1913-14 provides for a further decrease of R 55 lakh.

14t. The Provincial expenditure in 1912-13 will exceed the Budget grant by R2·18 lakhs, a large excess of R3 80 lakhs in Madras mainly in connection with the purchase of the Lawrence Asylum press being partly counterbalanced by savings in Bombay and some other provinces. The large increase over the Budget provision shown against Bengal in the table at page 85 and the decrease shown against Bihar and Orissa are nominal and are caused by the printing of forms for the latter province by the former, payment for which is made by a transfer adjustment through Land Revenue. The total provision for Provincial expenditure in 1913-14 is R 22 lakh less than the Revised estimate for 1912-13, the allowance for normal growth in most of the provinces being counterbalanced by the absence of the special expenditure which will be incurred in Madras during the current year.

Budget, 1913-14.

#### REVENUE.

145 The figures show little variation and call for no remark. The Imperial revenue shown against "Other provinces" represents recovery of the value of stationery supplied to railways, municipalities and other local bodies.

146. The accounts of the Government of India are prepared on a sterling basis, the rupee transactions in India being converted into pounds at the rate of R15=£1 and then added to the sterling transactions in England; and the comparatively small sums which have to be brought to account owing to the fact that the remittances to defray the net expenditure in England are not effected at exactly sixteen pence to the rupee are shown under this head.

147. In the current year the average rate to be obtained on the net remittance of funds from India to England is estimated at £1=R14.944, and there is accordingly a gain of R16.39 lakhs under this head. In the Budget estimate Budget, 1913-14. for next year, credit has been taken for a moderate receipt of R5 lakhs.

148. Charges in connection with the remittance of Government treasure are Imperial in all provinces; so is the discount paid, or the premium levied, in connection with the sale of bills at treasuries and currency offices to facilitate trade remittances of funds. The only other important items of Imperial revenue realised or expenditure incurred in the various provinces under this head are those of an extraordinary character exceeding R10,000 in amount.

#### EXPENDITURE.

#### (a) India—Imperial.

149. The Revised estimate for 1912-13 is only R-19 lakh less than the Revised, 1912-13 Budget. The bulk of the reserve provision of R5 lakhs made in the latter under this head for unforeseen charges, has been appropriated to meet necessary and sanctioned outlay, mostly under other heads of account; but the resultant decrease under this head is almost wholly counterbalanced by an excess expenditure of R2:34 lakhs on the remittance of Government funds, caused by the heavy demand for rupees, and by the charges of the Public Service Commission which are expected to amount to R1.79 lakhs.

150. The Budget estimate for 1913-14 provides for normal charges, for a Budget, 1913-14. full year's cost of the Public Service Commission (R3 30 lakhs), as well as for a reserve allotment of R10 lakhs for unforeseen expenditure. It exceeds the Revised estimate for the current year by R9.65 lakhs, the increase in the expenditure of the Public Service Commission being nearly counterbalanced by

an anticipated reduction in the remittance charges.

#### (b) India-Provincial.

151. The total Revised estimate for 1912-13 does not differ materially from Revised, 1912-13. the Budget provision. There is a large decrease of R2:56 lakhs in Bengal, in spite of a lump entry of R1 50 lakhs to meet the cost of grain compensation allowances to menial servants, caused by the record under other heads of account, of expenditure incurred from certain reserve and other provisions which were made in the Budget under this head. But on the other hand, there is an increase of R1.23 lakhs in Madras, mainly in connection with the charges of certain commissions of enquiry; of R1 01 lakhs in the Punjab owing to the write-off of the balance of a loan given to the late Dehra Ghazi Khan municipality; and of R.54 lakh in Bombay caused by the grant of special contributions to local funds in aid of famine relief expenditure. The variations in the other provinces are of less importance and call for no remark.

152. The total Budget for 1913-14 is R3 87 lakhs higher than the Revised Budget, 1913-14. estimate for the current year. There is an increase of R3 96 lakhs in Bengal caused by a higher provision for grain compensation allowance and a reserve grant Increases of smaller magnitude appear in the estimates of some of the other provinces. But on the other hand, there will be a decrease in expenditure in Madras, Bombay and the Punjab owing to the absence of the special items included in the Revised estimate of the current year. The decrease in the last named province would have been greater but for a reserve provision of R1

lakh for unforeseen expenditure.

#### (c) England.

153. The increase of £5,900 in the current year over the Budget estimate Revised, 1913-18. occurs chiefly in the miscellaneous charges connected with the supply of stores The further increase of £11,100 in the Budget estimate for 1913-14 Budget, 1913-14. is mainly due to a provision of £10,500 for the charges of the Public Service Commission.

#### REVENUE.

#### (a) India—Imperial.

154. The increase of R3.78 lakhs in the Revised estimate for 1912-13 over Revised, 1919-13. the Budget is due to higher receipts from premia on bills, the demand for which has been stimulated by the activity of trade, and to special receipts from

Budget, 1913-14. various sources. The Budget for 1913-14 is taken at R1 72 lakhs less than the Revised estimate for the current year. Provision has been made for normal receipts only and allowance has been made for the discontinuance of the twenty per cent. contributions on the land cess hitherto recovered from rural boards in the North-West Frontier Province.

#### (b) India—Provincial.

Revised, 1912-13.

155. The revenue in 1912-13 is expected to exceed the Budget by R3 76 lakhs. The bulk of the improvement will be caused by larger credits on account of unclaimed deposits mostly in Bengal, and by special receipts from sale of land in the Punjab as well as from certain other sources. The absence of these abnormal receipts and the discontinuance of the twenty per cent. contribution from rural boards in the Punjab account for the decrease of R7 15 lakhs in the Budget for next year as compared with the Revised estimate for 1912-13.

#### (c) England.

Revised, 1912-13.

Budget, 1913-14.

157. The Revised estimate for the current year shows an outlay of R29 30 lakhs under the head "Famine Relief" against a Budget provision of R20 02 Revised, 1912 13. lakhs. The bulk of the expenditure occurs in Bombay (viz., R28.40 lakhs), where relief operations have continued throughout the year in the northern districts and a payment of about R4 lakhs has been made to railways in connection with concession rates charged on the carriage of fodder. A small amount of expenditure will also be incurred in the United Provinces on account of relief operations in the Mirzapur district. The amount available for famine insurance accordingly amounts to R120 70 lakhs, of which R68 52 lakhs will be spent on Protective works and R52.18 lakhs appropriated for the reduction or avoidance of debt.

158. In the Budget estimate for 1913-14 provision has been made as usual for a total grant of R150 lakhs under this group head. A moiety of this Budget, 1913-14. sum will be allotted for the construction of Protective works. Out of the other moiety R6 99 lakhs will be required for actual famine relief expenditure, in the Ahmednagar district of Bombay (R4.00 lakhs), the Mirzapur district of the United Provinces (R199 lakhs) and in Rajputana (R1 lakh); and the remainder, viz, R68 01 lakhs, will be utilised for the avoidance of debt. Of the last-named sum, R37 50 lakhs appear in the Provincial section of the estimates as a result of the arrangements explained in the Financial Statement for 1907-08.

CONSTRUCTION OF PROTECTIVE RAILWAYS.

159. The Revised estimate for 1912-13 shows a petty excess over the Budget grant. The whole of the grant for Protective Railways in 1913-14 will again be spent on outlay on the Dharmapuri-Hosur extension of the Morappur-Dharmapuri Railway in the Madras Presidency.

CONSTRUCTION OF PROTECTIVE IRRIGATION WORKS.

160. In the Budget estimate for 1912-13 a total allotment of R75 lakhs Revised, 1912-13. was made for outlay on Protective Irrigation works. Of this sum R68-5 lakhs represented the amount available from the Famine Insurance grant for this proposed the latest and the latest angle of the this purpose, and the balance of R65 lakhs was the supplementary provision made from the general resources of Government to foster the rapid development of this important class of works. The latter provision was shown under the separate head opened in the Irrigation section of the estimates. The probable expenditure, according to the Revised estimate, will, however, amount

Budget, 1913-14. to R61-93 lakhs only, chiefly in consequence of slow progress of work on the Tandula canal in the Central Provinces, and the Gangao dam in the United Provinces. The whole of this outlay will appear in the Famine Relief and Insurance section of the accounts, and the whole of the grant (R6.5 lakhs) provided in the Irrigation section will lapse.

161. In the Budget estimate for 1913-14 the total allotment for Protective Irrigation works amounts to R90 lakhs, of which R73.71 lakhs represent the amount available from the Famine Insurance grant for this purpose. The balance, viz., R16.29 lakhs, has been provided under the special head in the Irrigation section of the estimates. The distribution of the total sum of R90 lakks is given in the table below: lakhs is given in the table below:

163. The Gross Receipts and Working Expenses of State Railways include the following figures on account of the Jorhat State Railway in Assam which is the only line whose transactions are recorded in the Provincial section of the accounts:-

Budget, 1912-13. R 1,00,000 85,000 Revised, 1912-13. R 1,10 000 88,000 Accounts, 1911-12. R 1,16,465 84,107 Accounts, 1910-11. Accounts, 1909-10. 95 331 95.895 96,184 Gross Receipts Working Expenses 80.826

Revised, 1912-13. Gross Receipts

164. In view of the phenomenal growth of Gross Receipts of State Railways in 1911-12, and of the fact that a considerable portion of it was contributed by the specially favourable traffic conditions of the year, the Budget estimate for 1912-13 was deliberately taken at a moderate figure of about R48.85 The traffic returns have again far outrun anticipations and the receipts are now expected to amount to about R55 45 crores or R6 60 crores more than the Budget estimate. The greater portion of the increase has already been The improvement is due to a continuance of prosperous conditions both of trade and agriculture, which has led to an exceptionally heavy traffic in wheat, grain, and cotton; but a substantial portion of the growth is also contributed by the coaching traffic which has been stimulated by the activity of business and the marriages and pilgrimages of an auspicious Hindu year. All the principal lines share in this improvement. More than half of it is obtained naturally from the three lines, viz., the East Indian, Great Indian Peninsula, and North-Western Railways, which traverse the tracts where the bulk of the exportable produce is grown. Important increases occur also on the Bombay, Baroda and Central India Railway in consequence of a brisk coaching traffic and heavy bookings of cotton, grain and fodder; on the Bengal-Nagpur Railway due to an exceptionally heavy pilgrim traffic to Puri and to larger transport of coal and other goods; on the Oudh and Rohilkhand Railway due to additional mileage opened during the year and to heavy traffic in wheat and grain; on the Madras and Southern Mahratta and South Irdian Railways owing to a general development of both the passenger and the goods traffic; and on the Eastern Bengal Railway caused by a brisker movement of jute.

Working Expenses

165. The Revised estimate of Working Expenses exceeds the Budget grant by R90 lakhs. The increase is due to the heavier traffic handled and also to larger expenditure on renewals of permanent-way and rolling-stock than was anticipated in the Budget.

Payment of Surplus profits, etc.

166. The increase of R36 52 lakhs in the provision for the payment of surplus profits to Companies is a concomitant of the improvement in the net

Budget, 1913-14. Gross Receipts.

167. The Budget estimate of Gross Receipts in 1913-14 is taken at R32 lakhs less than the Revised estimate of 1912-13. It is considered prudent, in view of the heavy growth which has taken place in the revenue in the current year and of the falling-off in the earnings of the North-Western Railway as indicated in the latest traffic returns, to provide for a moderate revenue in the coming year.

Working Expenses.

168. The grant for Working Expenses in 1913-14 exceeds the Revised estimate for the current year by R82 49 lakhs. The increase is due to enhanced provision for necessary renewals of permanent-way and rolling-stock and to the continued rise in the price of coal. On the other hand, the Budget profits, etc.

Payment of Surplus estimate allows for a decrease of R38:49 lakhs in the payment of Surplus profits to Companies, etc., in view of the lower estimate of net earnings in the coming year and of the payment in 1913-14 of surplus profits for nine months, and in some cases for only three months, consequent on the adoption of the financial in place of the calendar year for the distribution.

#### INTEREST CHARGES.

169. The rise in expenditure in 1912-13, as compared with the Budget Revised, 1912-18. estimate, under Interest on Debt is due to variation in the rate of interest charged on certain loan funds (vide paragraph 77) as well as to an increase in the Capital outlay. The saving in Interest on Capital deposited by Companies is due to failure to issue railway debentures to the extent anticipated in the Budget, while the decrease in Interest chargeable against Companies on advances is caused by lapses in capital grants.

170. The increase in the total interest charge in 1913-14 is a result of the Budget, 1918-14.

growth in the capital cost of Railways.

#### OTHER RECEIPTS.

171. The receipts shown under this head represent recoveries from the Travancore Durbar of its share of the loss on the Travancore branch of the South Indian Railway; the Government share of the surplus profits of the Rohilkhand-Kumaon, Southern Punjab and Amritsar-Patti Railways payable under the terms of their respective contracts; dividends on certain shares of the Ahmedabad-Dholka Railway allotted to the Government in repayment of expenditure incurred by it on behalf of the Railway; and sale-proceeds of land relinquished by Railway Companies. The improvement of R3·10 lakhs (£20,700) in the receipts in the current year over the Budget estimate and the further increase of R1·92 lakhs (£12,800) provided in the Budget of 1913·14 occur mainly in the Government share of the surplus profits of the Southern Punjab Railway.

OTHER CHARGES.

172. These consist of cost of land required by certain companies, the contracts with which provide for the free supply of all land wanted for the purposes of the railways undertaken by them, and of miscellaneous items such as surveys and controlling establishments (including the Railway Board). A share of the cost of control is charged to the working expenses of each railway company and the recoveries thus made are adjusted by deduction from the miscellaneous expenditure. The details are:

Land.—A large lapse of £10 36 lakhs is expected in the Imperial Budget grant for the current year mainly in the provision for the Jullundur-Doab, Mandra-Bhon and Tiruturaipundi-Vedaraniam Railways. The principal allotments made in 1913-14 are for the Bengal and North-Western, Darjeeling-Himalayan Extension, Vishnupur-Burdwan and Tiruturaipundi-Vedaraniam Railways.

Miscellaneous Expenditure.—The increase of R 87 lakh in the Revised Revised. 1912-13. estimate for 1912-13 as compared with the Budget is due to the inception of certain surveys for which no provision was made in the Budget. The Budget, 1913-14. Budget for 1913-14 is made up as follows:—

General Result.

173. Taking India as a whole, the net financial result of the working of Major Irrigation Works in 1912-13 will be better than the Budget forecast by £351,400 (R52 71 lakhs). There is a large improvement of R46 98 lakhs in the Direct Receipts and of R18.26 lakhs in the share of Land Revenue, but R12.53 lakhs of this are required to meet increase in expenditure. A small diminution of £54,000 (R8.09 lakhs) in the net profit is likely to take place next year. Allowance has been made for an increase of R5.58 lakhs in the Gross Revenue; but this improvement will be more than counterbalanced by a higher provision of R3 04 lakhs for Working Expenses and a large growth of R10 69 lakhs in the interest charges in consequence of the considerable outlay now being incurred on new projects in the Punjab and elsewhere, the benefits of which will not be realised for some time to come. The net result under Minor Irrigation works in 1912-13 is slightly better than the Budget estimate, owing to a small improvement in revenue and a considerable saving in expenditure; the estimate for next year provides for a further small growth in the receipts and for a much larger expenditure.

174. The figures for Land Revenue due to Irrigation have already been examined in paragraphs 10 and 11 along with those for Land Revenue proper. The details of the other heads are exhibited in the following tables.

The Imperial figures shown against the United Provinces represent the transaction of the Betwa, Ken and other "protective" canals.

#### DIRECT RECEIPTS.

#### (a) Imperial.

Revised, 1912 13.

175 The total revenue in 1912-13 will exceed the Budget estimate by R 40 lakh, an improvement of R1 lakh in the North-West Frontier Province owing to an increase in the irrigated area being partly counterbalanced by unimportant shortages in collections in the other provinces. The Budget estimate for 1913-14 is generally based on the prospects of rabi irrigation in the current year and a normal kharif irrigation in the ensuing year, and the total collections are taken at R 23 lakh higher than in 1912-13.

Budget, 1913-14.

#### (b) Divided and wholly Provincial.

Revised, 1912-13.

176. The total Revise lestimate for 1912-13 shows a large increase of R46 58 lakhs over the Bulget. The bulk of this improvement, viz, R43 18 lakhs, will occur in the Punjab where the progress made with the Triple Canal project is bringing new areas under irrigation. A rise of R3 95 lakhs in the collections is also expected in the United Provinces, where insufficient rain has necessitated the irrigation of larger areas for the kharif The variations in the other provinces are unimportant and call for no remark.

Budget, 1913-14.

177 The total Budget for 1913-14 provides for a growth in the collections of R1·85 lakhs only. The estimates are generally based on the demand for rabi irrigation in the current year and on normal requirements in connection with next year's kharif. Provision for a large increase has been made in Bihar and Orissa, and in the United Provinces, the insufficiency of winter rains having stimulated the demand for canal water for the standing rabi crops; and also in Bombay owing to the opening of the Godavari left bank canal and the revision of rates on the Nira canal. On the other hand, the revenue in the Punjab has been taken at R3 73 lakks less than the current year's Revised, in view of the doubtful prospects on some of the canals and the possible need for remissions, and also of the gradual supersession of owner's rates on certain canals by consolidated land revenue assessments.

#### WORKING EXPENSES.

#### (a) Imperial.

Revised, 1912-13.

178 The total Revised estimate for 1912-13 falls short of the Budget provision by R1 29 lakhs The decrease is due to a lapse in the reserve provision, only a portion of which was utilised to push on work on the Kabul River and the Lower Swat canals In the Budget estimate for 1913-14 provision has been made for a reserve allotment of R1 45 lakhs and for higher outlay on the Imperial canals in the United Provinces. But a large reduction is expected in the outlay on the canals in the North-West Frontier Province and the total Budget is only R 55 lakh higher than the Revised estimate for the current year.

Budget, 1913-14.

#### (b) Divided and wholly Provincial.

Revised, 1912-13.

179. The total expenditure in 1912-13 exceeds the Budget grant by R6 76 lakhs. The e is a large excess of R8 87 lakhs in the Punjab chiefly in consequence of higher outlay on special works and repairs on some of the canals, higher collection fees on the Upper Bari Doab canal and purchase of tramway plant for the head works of the Sirhind and Lower Chenab canals. On the other hand, a considerable saving of R1 80 lakhs is expected in Madras owing mainly to want of labour and postponement of certain works for which provision was made in the Budget. The variations in the other provinces are unimportant and call for no remark.

Budget, 1913-14.

180. The estimates for 1913-14 provide generally for a normal scale of expenditure, and the total Budget exceeds the Revised estimate for 1912-13 by only R2:49 lakhs.

#### REVENUE.

## (a) Imperial.

182. The figures show little variation and call for no remark.

(b) Divided and Provincial.

183. The total Revised estimate for 1912-13 exceeds the Budget by R1 21 Revised, 1912-13. lakhs mainly owing to larger collections in Bengal where the Madaripur Bhil route is now kept open to steamer traffic throughout the year consequent on the deepening of its channel. In 1913-14 provision has generally been made for normal receipts, and the total Budget does not differ materially from the Revised estimate of the current year.

#### EXPENDITURE.

#### (a) Imperial.

R5 lakhs in aid of special expenditure entailed by the recommendations of the Irrigation Commission and a reserve provision of R1 52 lakhs to meet unforeseen requirements R2 51 lakhs out of the special grant are being spent on the Nar Nallah scheme in Baluchistan; while R1 30 lakhs have been allotted to the Government of the United Provinces for tank restoration works and placed at its credit by an assignment of Land Revenue (vide paragraph 25). The balance of the special grant and the whole of the reserve provision will lapse. Savings are a so expected in almost every province in the allotment made in the Budget for expenditure on the minor irrigation and navigation works which are classed as wholly Imperial. These causes account for the decrease of R5 03 lakhs in the Revised estimate of the current year as compared with the Budget.

185. The total Budget estimate for 1913-14 exceeds the Revised for Budget, 1913-14.

1912-13 by R4 00 lakhs. Allowance has been made for the special grant of R5 lakhs and a reserve of R 97 lakh; but no provision exists for the Nar Nallah scheme, as an allotment will be made for it later in the year from the special grant. The decrease in the Indian outlay in the Punjab is counterbalanced by the provision for higher purchase of stores for this province in England.

#### (b) Divided and Provincial.

186. The total expenditure in 1912-13 is likely to fall short of the Budget Revised, 1912 13. grant by R4 57 lakhs. There is a decrease of R3:58 lakhs in Madras owing to non-utilisation of a lump provision made in the Budget with reference to a resolution of the provincial Legislative Council, and to a slower progress on works; and of R1 lakh in the Central Provinces due to transfer of funds to Civil Works to meet the cost of certain irrigation buildings. Lapses of smaller magnitude are expected in most other provinces. In the United Provinces the outlay on tank restoration works mentioned above is partly obscured by a lapse in ordinary grants, and the total expenditure will exceed the Budget provision by R 95 lakh only.

187. The total Budget for 1913-14 exceeds the Revised estimate of the current year by R7 lakhs. There is an increase of R3·24 lakhs in Madras chiefly in consequence of a larger provision for expenditure on works and the restoration of the lump provision mentioned above; of R2·67 lakhs in Bengal caused mainly by provision for higher outlay on the Madaripur Bhil scheme; and of R1 30 lakhs in Assam where a special allotment has been made for a snag boat. In the Punjab also, a special provision has been made for the Kahan hill torrent reservoir scheme. But these excesses, as well as increases of less importance in Burma, Bombay, and Bihar and Orissa are partly counterbalanced by a decrease of R1 76 lakhs in the United Provinces due mainly to the absence of expenditure incurred in the current year from the special Imperial subvention for tank works.

191 Excluding Delhi the total Revised estimate for the current year exceeds the Budget by R52 27 lakhs Of this increase, R47 lakhs represent outlay in connection with the temporary buildings required for the Government of India at Delhi; and the emainder is due to a higher payment of leave allowances in England and to certain pressing demands eg, the purchase of a building for the Currency Office at Madras and the extension of the salt golahs at Sulkea, for which no provision was made in the Budget. The main details of the expenditure of R47 lakhs on Temporary Delhi in the current year are given below, the figures being in approximate lakhs:—

### (b) India-Provincial.

Revised, 1912-13.

195. The total Revised estimate for 1912-13 exceeds the Budget provision by R24 94 lakhs. The increase is, however, nominal and is caused by the record under this head of a portion of the expenditure from the special Imperial grants for education, sanitation and other beneficial services, for which provision was made elsewhere in the Budget. The total outlay of this class will amount to about R79 lakhs; and excluding this sum, the Revised estimate under Civil Works falls short of the Budget by about R54 lakhs. The real saving is larger, for a portion of the expenditure against some of the ordinary grants provided in the Budget under Education, Medical and other heads, is recorded in the accounts under Civil Works. Considerable lapses in the grants provided under the latter head are expected in the Punjab (about R25 lakhs), where it will be impossible to push through the heavy programme of new roads and buildings contemplated in the Budget; in Bihar and Orissa (about R15 lakhs) mainly in the allotments for special works at Bankipur and Ranchi; in Bengal (about R10 lakhs) owing to non-utilisation of a lump provision of R3 61 lakhs for grants to district boards and slower progress of work on new buildings; in Madras (about R10 lakhs) where the allotments for new buildings and for water-supply and drainage schemes will not be fully utilised owing to delay in the preparation of proper estimates and in the acquisition of site, and to other reasons; and in Burma where the Local Government has decided to save for future expenditure R9½ lakhs of the special Imperial grant given in 1911-12 for the development of communications. In the United Provinces also, lapses of about R5 lakhs are expected mainly in the allotments for the Lucknow Medical College and Allahabad High Court buildings; but it is probable that the money will be utilised for other purposes. In Assam and Bombay alone there will be any real excess over the Budget grants. In the former province a vigorous programme for the improvement of communications has been started, while considerable outlay is also being incurred in connection with frontier roads. In Bombay an additional grant of R3 lakhs has been sanctioned for urgent minor works.

196. The table below compares the details of the grants for 1913-14 in the various provinces, so far as settled at present with the probable expenditure in

the current year.

197. Of the total Budget grant of R825 95 lakhs proposed for 1913-14 Budget, 1913-14. R33 lakhs represent the portion (viz., about one-third) of the discretionary grant of R100 lakhs from Imperial revenues (vide paragraph 23) which has been made available for expenditure in the ensuing year. Lump allotments have been added under this head as shown in the table in the preceding paragraph, from which each Local Government will be at perfect freedom to make necessary re-appropriations for any schemes to which it may decide to apply the funds placed at its disposal.

198. The total provision for grants to Local Boards and Municipalities in 1913-14 is R4 5 lakhs less than the similar expenditure in 1912-13. There is an increase of R6 20 lakhs in Burma in consequence of a lump allotment of the entire unexpended balance of the old Imperial subvention for sanitation; of R3.74 lakhs in Madras where provision has been made for large grants to local boards for roads, bridges and protected wells in rural areas; and of R1 53 lakhs in Assam where it is contemplated to make increased grants to local boards for the improvement of communications. But these increases are more than counterbalanced by reductions in the other provinces. The decreases in the grants in Bengal, Bihar and Orissa, and the United Provinces are caused by lump reductions which have been made to provide for the discontinuance of certain contributions in connection with the surrender to rural boards of the amounts which are now appropriated for Provincial use from the cess on land (vide paragraph 16). In the Punjab, also, a similar reduction has been made; but it is nearly counterbalanced by a lump allotment of R2 lakhs for feeder roads. In Bombay, the Revised estimate for the current year includes a payment of R3 91 lakhs to municipalities for special sanitation schemes out of the provision made for this purpose in the Budget under the medical head (see paragraph 122); and the absence of this special payment as well as a smaller provision for the improvement of water-supply in districts affected by the scarcity account for the decrease of R5.47 lakhs in the Budget of 1913-14 as compared with the Revised for 1912-13.

199. The figures shown under "Grants to other local bodies" consist of contributions to the Chittagong Port Trust (R1 5 lakhs), the Calcutta Improvement Trust (R11 50 lakhs), the Madras Corporation (R12 5 lakhs) and the Madras Port Trust (R6 lakhs). The second and third of these contributions represent grants from Imperial revenues passed through the Provincial accounts.

200. A higher provision for repairs has been made in most of the provinces to meet the requirements of new roads and buildings. The grant for "Original works" in Burma includes the unspent balance (R91 lakhs) of the

Imperial subvention for the development of communications which was given last year and H20 lakks out of the similar contribution which it is proposed to make in the current year. In the other provinces, the prosperous condition of provincial finances has again made it possible for the Local Governments to allot large sums in their Budgets for 1913-14 for new roads, buildings and other public improvements. Provision for an unusually heavy programme has been made in the Punjab where the provincial balances have been very largely swelled in consequence of the windfall received from the sale of proprietary rights in canal colonies; and the grant for 1913-14 is very nearly double the probable outlay in the current year. Large sums have been allotted for additional roads, official residences at Lahore and other places, police buildings, the enlargement of the Civil Secretariat building, and other public improvements. In Bihar and Orissa, a provision of £20 lakhs has been made for special works at Bankipur. The Madras Budget includes £463 lakhs for buildings required in connection with the Meyer scheme for the redistribution of districts.

### REVENUE.

# (a) Imperial.

Revised, 1912-13.

201. The revenue in the current year is likely to exceed the Budget estimate by R3:39 lakhs owing to a credit of R2:21 lakhs for earthwork done by the Public Works department for railways, special receipts from the sale of buildings, and the recovery of rents on account of the temporary quarters Budget, 1913-14. occupied by Government officials at Delhi. The absence of these special receipts explains the decrease of R2 66 lakhs in the Budget for 1913-14 as compared with the Revised estimate for the current year.

### (b) Provincial.

Revised, 1912-13.

202. The total Revised estimate for 1912-13 will fall short of the Budget by R4-19 lakhs. A large decrease of R7:19 lakhs in Bengal caused by the nonrealisation of any portion of the sale-proceeds of the Sibpur College buildings is partly counterbalanced by increased receipts of R1 41 lakhs and R1 25 lakhs respectively in Bombay and the United Provinces from sale of buildings, old materials and other sources. The Budget estimate for 1913-14 provides Budget, 1913-14. generally for normal receipts in all the provinces.

Revised, 1912-13, compared with Budget, 1912-13. Expenditure-India.

203. The Revised estimate of expenditure in India anticipates an excess of R36:57 lakhs (£243,800) over the Budget provision of R21,20:56 lakhs (£14,137,100). Of this excess the food charges account for R26:10 lakhs £174,000) in consequence mainly of a rise in prices which was not anticipated when the Budget was framed; the provision in the latter was based on the probable actuals for 1911-12, so that the causes operating this year to keep up prices appear to be abnormal. The demand for military work parties in connection with the survey operations on the North-Eastern Frontier involves an extra outlay of R8.09 lakhs (£53,900); while another unexpected call arose from the National Health Insurance Act, under which we had to meet a liability in respect of the British soldiers serving in India amounting to R2-24 lakhs (£14,900). But for these three items which aggregate R36 43 lakhs (£242,800), and represent unforeseen liabilities which came into operation after the 1st April 1912, the Budget anticipations of March last would have proved in the main

fairly accurate.

Various other causes have contributed to additional expenditure on the one hand and savings on the other, which, however, practically balance each other. More prominent among the former may be mentioned a grant of R3.00 lakhs (£20,000) towards laying in a reserve of fodder and of £4.00 lakhs (£26,700) to purchase about 1,200 mules from the Argentine with the object of reducing the excessive number of aged mules now serving. The assumption by the State of the liability of housing silladar cavalry units, in return for their present contributions, has necessitated the writing off to expenditure of the outstanding cavalry lines loan of R3 74 lakhs (£24,900); and additional assistance to the extent of R1 25 lakhs (£8,300) has been given for the urgent repairs needed in the lines of Indian troops. Then the expenditure on account of the Army in India Committee is expected to reach R1 50 lakhs (£10,000); railway charges are likely to be higher than anticipated by R2 07 lakhs (£13,800); and some additional maxim gun and ordnance mules are being purchased at a cost of R1.30 lakhs (£8,700). It has also been deemed expedient to procure certain local stores this year in reduction of next year's requirements, and to make an advance payment towards the annual grant-in-aid to cantonments; these anticipatory charges amount to R7 88 lakhs (£52,500).

On the other hand, savings have accrued under several heads, in the pay and allowances of British troops to the extent of R6:37 lakhs (£42,500); a lapse of R4 88 lakhs (£32,500) occurred in the grant for the purchase of remounts; and our Ordnance expenditure shows a decrease of R7 61 lakhs (£50,700), partially due to larger recoveries amounting to R3.92 lakhs (£26,100) from the Home Government for stores and equipment taken by the additional troops sent to China at the close of 1911-12. The Indian estimates also have been relieved by R093 lakh (£6,200) owing to the employment of certain troops in Somaliland at the expense of the Protectorate, and a saving of R4 85 lakhs (£32,300) is anticipated in India in connection

with the Arms Traffic Operations.

204. The total Army expenditure at Home shows an increase of £280,200, of which about £155,000 relates to the additional rifles found necessary and demanded during the year. The outlay at Home in connection with the Arms Traffic Operations has exceeded the Secretary of State's budget anticipations by £47,200, but, as stated above, there has been a saving of £32,300 in India. The outlay on the trooping service is expected to be £35,200 in excess of the budget provision owing to the larger number of voyages found necessary. Our ordinary store expenditure also rose by £59,300, partly on account of arrear charges. On the other hand, a saving is expected in the furlough allowances of officers of the Indian Service, and in connection with the re-armament of artillery and the provision of panoramic sights.

205. The Revised estimate of receipts anticipates an improvement of £30,600 which practically all occurs in India, and is mainly due to larger pay-India and Home ment issues and sales of ordnance stores, and to the credit now taken for the equipment, stores and animals sent to China with Indian units in 1911-12. On the other hand, the expected realizations by the disposal of surplus clothing stores have not been fully attained, and dairy produce sales have been less than

was anticipated.

Receipts.

Home.

206. The net expenditure of the year is expected to be £493,400 more than Net Expenditure the Budget provision, and may broadly be attributed to causes not in evidence

when the estimate was framed in March last.

207. The total provision for special or "Schedule" expenditure in the Budget Special Expendiof 1912-13 was R42 70 lakhs (£284,700), and it is anticipated that the actuals ture. will amount to R58.74 lakhs (£391,600). An excess of £116,400 is expected in England, mainly due to an order having been placed for a large number of additional rifles on account of which about £155,000 will be paid this year, the difference being met from lapses due to non-compliance with the store demands put forward, notably in connection with the rearmament of the artillery now in hand and the supply of panoramic sights. This latter cause has retarded expenditure in India, where a lapse of £9,500 has occurred.

208. The more important measures and the outlay on each during the current year are stated below approximately, in the absence of full details of the

Home expenditure on individual measures:

Constitution of the standard o		Expend	iture in 1912-13.
		Lakhs.	Equivalent in
(I) Purchase of short rifles		33.64	224,300
(II) Rearmament of artillery		19.73	131,500
(III) New pattern bayonet for British troops		1.46	9,700
(IV) Panoramic sights for mobile artillery		1.11	7,400
(V) Increase of training grant .		1.00	6,700

209. The Indian portion of the Army estimate for 1913-14 falls below the Budget, 1913-14, Revised estimate by R14 55 lakhs (£97,000). If we exclude the provision of compared with R11 00 lakhs (£73,300) in 1913-14 for the acquisition of land for the new can- Revised, 1912-13. tonment at Delhi, the decrease would be R25 55 lakhs (£170,300), and this may Expenditure-broadly be attributed to a variation of R26 10 lakhs (£174,000) in food charges India. as it has not been considered necessary to go beyond the Budget provision of the current year. Among other causes of decrease may be mentioned the following measures which have been specially sanctioned during the current year and do not find a place in next year's Budget—R3 00 lakhs (£20,000) incurred on a fodder reserve, R4 00 lakhs (£26,700) allotted for purchase of additional mules in the Argentine, remission of the loans outstanding against the Indian Cavalry line funds, £3.74 lakhs (£24,900), and the additional grant of £1.25 lakhs (£8,300) for the repair of the lines of Indian troops and followers. Anticipatory purchases of Ordnance and Supply and Transport stores and part payment in advance of the grant-in-aid to cantonments account for a decrease of R15 76 lakhs (£105,100), while the mustering out of the cavalry squadrons of the 42nd Deoli and 43rd Erinpura regiments produces an economy of R1 17 lakhs (£7,800) in pay charges. On the other hand, the pay and allowances of the army are R9 42 lakhs (£62,800) higher, the augmentation and regrading of the dairy and grass farms personnel and their larger operations account for an increase of R3 46 lakhs (£23,100); while for the purchase of remounts and ordnance mules an additional outlay of R6 19 lakhs (£41,300) is required. Railway charges show an expansion of R5 08 lakhs (£33,900) as the reliefs during the current year were on a low scale, and the provision for ordnance requirements is higher by R9 29 lakhs (£61,900) apart from the advance purchases referred to above.

210. The Home estimates for 1913-14 are £44,200 more than the present Home. year's Revised estimate. Our store demands are expected to cost £22,600 more, due to an increase in ordinary requirements owing mainly to depletion of stocks which more than counterbalances the decrease in Schedule expenditure, eg, on short rifles. For the Indian Troop Service £41,200 more will be required, owing to the expected employment of hired transports on a larger scale and a smaller use of Royal Indian Marine vessels. An unusual payment of £17,000 for clothing allowance is not repeated next year, and the outlay in connection with the Arms Traffic Operations is £14,200 lower.

211. The anticipated receipts in 1913-14 amount to R1,7800 lakhs Receipts. (£1,186,700), i.e., an increase of R0.18 lakh (£1,200) over the Revised.

Net Expenditure.

212. The net Army expenditure for 1913-14 is less than the Revised, 1912-13, by £54,000. Under India there is a decrease of £89,900, and under Home an increase of £35,900.

Buaget, 1913-14, compared with Budget, 1912-13. India and Home. 213. The gross estimated expenditure for 1913-14 is R29,33 38 lakhs (£19,555,900), or R70 68 lakhs (£471,200) above the Budget figure of the current year. Of this amount R22 02 lakhs (£146,800) occur in the Indian, and R48 66 lakhs (£324,400) in the Home estimates. The receipts show an improvement of R4 76 lakhs (£31,800), and the net Army expenditure for 1913-14 thus exceeds the original estimate for 1912-13 by R65 92 lakhs (£439,400).

Special Expenditure.

214. The expenditure on Schedule measures incorporated in the Budget of 1913-14 is R6400 lakhs (£426,700), as compared with R58.74 lakhs (£391,600) in the Revised, and R42.70 lakhs (£284,700) in the Budget 1912-13. The following are the more important measures proposed to be undertaken:—

							propose	expenditure ed in 1913-14 and Home).
							Lakhs.	Equivalent in

Equivalent in sterling . England	£	83,460	91,787	84,900	91,100	87,800	98,300
Total	£	83,460	91,787	84,900	91,100	87,800	98,300
NET EXPENDITURE	£	377,697	354,080	365,828	356,000	389,000	880,000

215. The total expenditure (India and Home) exceeds the Budget by Revised, 1912-18, £29,700, and there is a fall in the receipts to the extent of £3,300; the Budget, 1912-18. net expenditure is thus £33,000 more than the Budget.

The increase in Indian expenditure is due chiefly to the advance purchase Receipts and Net Expenditure.

The increase in Indian expenditure is due chiefly to the advance purchase Expenditure.

India and Home. from Madras to Burma owing to our Royal Indian Marine transports being fully employed elsewhere, and to coal for the subsidised vessels for which no provision was made in the Home store estimates having been supplied on payment from the stock maintained for the Arms Traffic Operations. Larger demands of stores account for the higher Home expenditure. The decrease in receipts in India is largely due to smaller recoveries from the Imperial Government for the hire of Royal Indian Marine vessels.

216. The Budget included £750 for the provision of a ferry barge at Special Expendi-Calcutta. This was ultimately found unnecessary, but an expenditure of £3,400 ture had to be incurred in providing additional life boats for the Royal Indian Marine

transports.

217. The Budget for 1913-14, as compared with the Revised of 1912-13, Budget, 1918-14, shows an increase of £1,500 in expenditure, and an increase of £10,500 in compared with Revised, 1912-13. receipts, or a net decrease of £9,000. Omitting the transactions in connection India and Home. with the purchase of advance stores and the chartering of a private steamer to convey a mule corps to Burma, referred to above, the Budget for next year would be R3 60 lakhs (£24,000) more than the probable actuals this year. Of this increase, £27,600 occurs at home mainly for higher store demands owing to depletion of stocks, while the Indian provision is lower by £3,600. Larger receipts are anticipated for services rendered and stores supplied by the dockyards.

No special expenditure is proposed in 1913-14

Special Expendiodt ture.

Revised, 1912-13, compared with Budget, 1912-13, India and Home.

Ordinary Expenditure.

Receipts.

Special Demands. Expenditure.

Net Expenditure.

Budget, 1913-14,
compared with

Budget, 1918-14, compared with Budget. 1912-13. India and Home.

Ordinary Expenditure.

Receipts.

Special Demands.

Expenditure.

Net Expenditure.

218. Under this head the Ordinary expenditure, and the expenditure on Military Works Schedule (Special Demands) measures, are separately compiled in the ordinary course of accounting. Under Ordinary expenditure the Revised anticipates an excess of £14,000, including an additional grant of R2 00 lakks

(£13,300) given for urgent repairs.

219. The Military Works receipts represent the rents derived from military quarters, recoveries for water supply and electrical power, the sale-proceeds of stores, and with effect from the 1st October 1912 the rental and repair recoveries from silladar cavalry units whose lines have been taken over by the Military Works Services. The improvement of R 20 lakh (£1,300) is mainly due to the new recoveries from silladar regiments.

220. Under Special Demands there is an excess of R 91 lakh (£6,100), mainly due to funds becoming available to admit of the acceleration of works in progress. The bulk of the expenditure has been applied to the improvement of the accommodation of Indian troops and followers (£82,700), to buildings in progress at Risalpur, Murree Hills, Kirkee, Takdah, Dacca and Rajkot, to the provision of improved water supply arrangements and of better storage accommodation for cordite at certain places.

221. On Military Works expenditure as a whole, a net increase of R2.82

lakhs (£18.800) is expected.

222. The Ordinary Military Works grant for 1913-14 has been fixed at R99 38 lakhs (£662,600), or R2 49 lakhs (£16,600) more than in 1912-13.

The allotment proposed for 1913-14 represents the normal accepted grant for this head, while that of 1912-13 was restricted by a curtailment of works which cannot be repeated.

223. The anticipated increase of R 60 lakh (£4,000) in receipts, allows for the new receipts from silladar cavalry units, and for some expansion in rents and water rates.

224. The provision made for Special Demands, namely, R42 98 lakhs (£286,500) is R10 80 lakhs (£72,000) more than that of 1912-13. The bulk of this expenditure has been allotted to the prosecution of the works mentioned in paragraph 220 including R12 75 lakhs (£85,000) for the lines of Indian troops under reconstruction, R5 00 lakhs (£33,300) for buildings in the new cantonment at Delhi, R3 47 lakhs (£23,100) for rentable quarters for officers and subordinates, R2 02 lakhs (£13,500) for the improvement of the water supply arrangements at various stations, R1 46 lakhs (£9,700) for the accommodation of British troops in the hills, and R0 62 lakh (£4,100) for aviation buildings.

The allotments for new works amount to R12 80 lakhs (£85,300). 225. The net expenditure proposed in 1913-14 is thus R12 69 lakhs (£84,600) more than the Budget figure for 1912-13, represented by an increase of R1 89 lakhs (£12,600) under Ordinary, and of R10 80 lakhs (£72,000) under Special Demands.

# CAPITAL EXPENDITURE ON RAILWAYS AND IRRI-GATION AND OTHER WORKS NOT CHARGED TO REVENUE.

# RAILWAY CONSTRUCTION.

Revised, 1912-13.

228. In the Budget for 1912-13, a sum of R13.50 lakhs was allotted for expenditure on Railway Construction for which the Government of India undertake financial responsibility. During the course of the year the grant was raised to R15,76.41 lakhs of which R76.41 lakhs were specially added to meet the pressing demand for wagons. Special efforts were made during the year to avoid the heavy lapses in grants which have taken place in recent years; and as a result, the bulk of the enhanced grant is expected to be utilised, the Revised estimate standing at R15,09.62 lakhs. Of the total lapse of R66.79 lakhs R58.11 lakhs are expected in the special grant for wagons.

Budget, 1913-14.

lakhs, R58:11 lakhs are expected in the special grant for wagons.

229. For 1913-14 the programme of Capital outlay on Railway Construction has been placed at R18 crores, i.e., about R3 crores higher than the probable expenditure in the current year. Of this sum about R2 crores have been earmarked for the supply of additional wagons.

been earmarked for the supply of additional wagons.

230. The distribution of the total expenditure on Railway Construction between State and Companies' agency in each of the three years from 1911-12

to 1913-14 is as follows:

		Accounts,	1912-	1913.	1913-1914,
*		1911-1912.	Budget,	Revised.	Budget.

231. The policy of devoting the greater part of the programme grant to the improvement of open lines has been maintained, and an allotment of R15,18 68 lakhs made for open line works and rolling stock. The heavy demands of open lines have made it impossible to allot any portion of the increased grant to the construction of new lines; but funds to the extent of R2,81.32 lakhs have been provided for lines under construction to permit of a reasonable rate of progress being maintained on them.

232. The figures in the table in paragraph 230 do not include the expenditure on Protective Railways, met from the Famine Insurance grant, nor of Branch line Companies. Including this expenditure, and also some small expenditure from Provincial revenues, the total outlay on Railway Construc-

tion in the three years is as follows:-

				Accounts, 19111912.	Revised Estimate, 1912-1913.	Budget Estimate, 1913-1914.

Equivalent in Sterling .	1,536,531	1,415,500	1,441,800	1,40 700

234. The Budget grant of R212 33 lakhs has been raised to R216 27 la hs Revised, 1912-13. in the Revised, owing to satisfactory progress on the Triple Canal scheme in the Punjab and on the Upper Swat River Canal, as well as to the commencement of work on the permanent headworks of the Ganges Canal at Hardwar for which no provision was made in the Budget. The grant in next year's Budget Budget, 1913-14. has been fixed at R220 lakhs. The following table shows the projects included in the programme of 1912-13 as now revised and in that of 1913-14, together with the amount to be spent on each :-

	Expendit	ure in
Name of Project.	1912-13.	1913-14.

TOTAL R .	2,16,27,000	2,20,00,000
Equivalent in Sterling £	1,441,800	1,466,700

Of the total grant of R220 lakhs, about R180 lakhs will be allotted to canals under construction and the balance (viz., about R40 lakhs) will be devoted to the completion and development of canals in operation. A major portion of the ormer sum will be again applied to push on work in connection with the

Triple Canal project in the Punjab and with the Upper Swat River Canal in the Frontier Province. Large allotments of R14 lakhs and R10.75 lakhs have also been made respectively for the Twante Canal in Burma and the Mahanadi Canal in the Ce-tral Provinces. A considerable portion of the grant for canals in operation will be applied to meet outlay on the headworks of the Ganges Canal

# INITIAL OUTLAY ON THE NEW CAPITAL AT DELHI.

235. In the Budget estimate for the current year provision was made for a grant of R2 crores for the construction of the new Imperial Capital at Delhi. Careful investigations about the proper site of the Capital and other connected questions have, however, delayed the commencement of work on the permanent city and the total capital expenditure in 1912-13 is not likely to exceed R16.78 lakhs made up as follows:—

			India.	(Lakhs of Rupees) England.
charges of experts	investigations	including	1.24	1.05
(ii) Land acquisition: (a) Establishmen (b) Purchase mon		. 12·50		
(iii) Value of copper wires	•	over from	13.02	•••

(v) Malarial survey .			-06	u <u>rearyer</u> b
			15.78	1.05
			16	78

236. In the Budget estimate of 1913-14 a provision of R2 crores has been made under this head to permit of a vigorous prosecution of work on the permanent city.

# WAYS AND MEANS.

### HOME TREASURY.

237. The bulk of the payments made in England on account of the Introductory. Government of India consists of expenditure chargeable to the Indian revenues; and if this represented the only charges, the Ways and Means programme would be a simple arrangement, as the whole of the expenditure would ordinarily be met by remittance of funds from India. The capital outlay on the construction of railways and irrigation works, however, necessitates heavy borrowing; and the major portion of the money required is usually raised in England, either direct or through the agency of Companies. A further complication is introduced by the practice under which all payments made in England to Railway Companies working purchased lines, for purchase of stores and other capital purposes, as well as all moneys raised by them and paid into the Home Treasury, are brought to account under the appropriate heads in this country and are treated in the Home accounts and estimates as remittances to or from India respectively. The transactions connected with the Gold Standard Reserve, and with the replacement of one particular form or item of direct or indirect debt by another, also largely swell the receipts and charges of the Home Treasury without affecting the general Ways and Means programme.

238. The following are the details of the transactions appearing in the Budget and Revised estimates of the Home Treasury for 1912-13 and in the Budget estimate of 1913-14.

	Budget, 1912-1913.	Revised, 1912-1913.	Budget, 1913-191 .

Opening balance .	19,595,900	19,463,700	9,377,900

<sup>\*</sup> The heads marked with an asterisk appear on both the receipt and payment sides. As the receipt and disbursement under each of them are generally equal, they do not ordinarily affect the Ways and Means of the year to any material extent.

Herised, 1912-13.

239. The net disbursements in 1912-13 are now taken at £38,745,800 or £8,626,300 more than the Budget. A sum of £7,060,000 has been spent on the purchase of silver for the coinage of rupees in India, for which no provision was made in the Budget estimate. The deposits of capital by railway companies are less by £1,313,100 owing to a much smaller issue of debentures of the Madras and Southern Mahratta Railway Company than was contemplated in the Budget. There is an aggregate excess of £573,100 in the capital expenditure on railways and irrigation works, inclusive of outlay on companies and payments to companies working purchased railways. There is also an increase of £139,500 in the net expenditure chargeable to revenue; and of £210,100 in the miscellaneous payments which are treated in the Home Treasury accounts as remittances to India, caused chiefly by a larger demand for stores on the part of Provincial Governments, supply of national health insurance stamps to British soldiers serving in India, and higher remittances by soldiers for deposit in the Post Office Savings Bank. The increase in the net disbursement from these various sources amount to £9,295,800; but a portion of it is counterbalanced by a total improvement of £669,500 under the other items shown in the table on the preceding page, which arises mainly from a special receipt of £327,900 in gold from India and a rise of £303,700 in the net receipts in connection with postal and money order transactions exchanged between England and India.

240. The briskness of the export trade has again led to a heavy demand for remittance of funds to India; and the total drawings of the Secretary of State in the current year are now expected to amount to £25,660,000, the whole of which will be used to meet the disbursements of the Home Treasury, against a Budget estimate of £15,500,000. The additional funds thus obtained will more than suffice to meet the increase in the net disbursements mentioned in the preceding paragraph; and the balances of the Home Treasury will be drawn on to the extent of £10,085,800 only instead of £11,619,500 as provided in the Budget. A remittance of £1,927,900 in gold was also received during the year from India; but of this amount £1,600,000 was deposited at the Bank of England on account of the Paper Currency Reserve, and only £327,900 was used for general purposes.

1912-13. Capital raised and deposited by Railway Companies.

241. The details of the transactions in respect of capital raised and deposited by Railway Companies are as follows:—

RECEIPTS.	
Budget, 1912-13.	Revised, 1912-13.

Total . 2,550,400	1,187,300
	W 452

The Budget estimate provided for the replacement by fresh capital of £1,570,400 debentures of the Bengal Nagpur and Southern Mahratta Railway Companies and for the raising of £2 millions of new capital by the latter Company, the net proceeds of which were expected to amount to £1,810,000. The Madras and Southern Mahratta Railway Company has actually issued only £500,000 of new debentures which have produced £495,000; and it expects to replace only £160,000 of the debentures maturing during the year. £250,000 of the debentures of this Company, as well as the whole of the debentures of the Bengal Nagpur Railway Company which fell in during 1912-13 have been renewed. 1912-13, have been renewed.

242. The following are the details of the Railway remittance transactions. 1912-13. As already explained, they occur almost wholly in connection with the capital Railway remittances. account of the purchased lines worked by companies:-

246. The Budget Estimate for 1913-14 provides for the receipt from India of £450,000 light-weight sovereigns and half sovereigns which have been withdrawn from circulation. The improvement under Deposit, Advance and Miscellaneous Remittance transactions is mainly due to an increased provision of £270,000 for receipts on account of postal and money order transactions, following the large improvement which has taken place under this item in the current year.

247. Provision has been made in the estimates for the discharge of the following liabilities which mature during the year:—

Indian Midland	l Raily	vay D	ebent	ures			£ 1,111,200
Madras Railwa	y Deb	enture	g				170,000
India Bonds							500,000
							1,781,200

248. Of the net disbursement of £25,916,900, it is proposed to meet £21,650,000 by Council Bills and the balance of £4,266,900 by drawing on the cash balances of the Home Treasury which are estimated to stand on the 31st March 1914 at £5,111,000, inclusive of £1,018,600 held as cash at short notice on behalf of the Gold Standard Reserve. It is not contemplated to raise any sterling loan in the ensuing year.

249. The following are the details of the transactions of the Gold Standard 1912-13 and 1913-14. teserve in England:—

eserve in England :—		1912	-13.	1913-14.

in India .

(2) Rupees held in India

251. The coinage of rupees from the silver which has been purchased for £7,060,000 is expected to yield a net profit of £3,265,700 which will be available for transfer to the Gold Standard Reserve. Of this sum £2,065,700 has been utilised to raise the rupees in the Indian branch of the Reserve to the prescribed amount of £4 millions. The balance, viz., £1,200,000, will be remitted to England through the Paper Currency Department—the amount being paid to it in India against an opposite payment by it to the Gold Standard Reserve in England. The earmarking of gold on account of the Gold Standard Reserve at the Bank of England is in pursuance of the Secretary of State's decision to hold £5 millions of the Reserve in liquid gold in England.

252. The Secretary of State has also agreed that the limit which the sterling assets of the Gold Standard Reserve in England must attain before any portion of the profits on rupee coinage can be diverted for other purposes should be fixed at £25,000,000, the value of the securities held being taken at the market price instead of cost price. For this purpose, a half-yearly valuation of the securities is made on 30th September and 31st March and on the basis of the valuation made on 30th September 1912—the closing balances of gold in England for the

Revised.

Budget.

Revised and Budget stand as follows:-

1. Market price of securities on 30th	September	1912-13. £ 9,596,400	1913-14. £ 9,596,400
2. Cost price of securities purchased	between 1st Octo-	6,354,800	6,354,800
ber and 31st March 3. Gold in the Bank of England		1,620,000	2,170,000
4. Cash in the Home Treasury .	• • • • •	1,005,000	1,018,600
		18,576,200	19,139,800

The above gives a reduction of £963,200 as compared with the cost price

given in paragraph 250.

253. The following is a summary of the figures relating to Council Bills and the Sterling Debt of Government and of Railway Companies (omitting transfer fees, etc.) included in the estimates for 1912-13 and 1913-14:—

254. The programme herein announced of the probable drawings on India and of the transactions in connection with the Government Sterling Debt and the borrowings of Railway Companies, represents the present intentions of the Secretary of State. But in view of the varying conditions of Indian finance and of the London money market, no assurance can be given that this programme will be adhered to either in amount or in form. The Secretary of State reserves to himself the right to vary the programme to any extent that may be considered necessary during the course of the year. The estimate of Council drawings is for the amount necessary to provide for the Secretary of State's requirements, but additional Bills will as usual be sold if needed to meet the demands of trade.

\*Head 9 represents expenditure defrayed by reduction of Provincial balances.

†The figures shown under head 12 differ from those given in the Home Treasury Ways and Means statement, as Bills drawn by the Secretary of State towards the end of one year are paid in India in the next. The figures of the present statement represent payments in India.

256. In the Budget estimate of 1912-13, the cash balance in Indian 1912-13.

Treasuries on the 1st April 1912, was taken at £17,71 lakhs. It was estimated Main features of (1) that the net Imperial revenue in India would amount to R31,17 lakhs (2) that Budget Estimates. the net deposits in Savings Banks and Provident Institutions would increase during the year by R1,98 lakhs, (3) that a sum of R55 lakhs would be available from the Famine Insurance grant for the avoidance of debt, and (4) that the remittance transactions of Railway Companies would result in a net credit in India of R4,92 lakhs. On the other hand, provision was made: (1) for a net expenditure of R2,34 lakhs from Provincial balances, (2) for capital expenditure

in India on railways (inclusive of outlay by companies) and canals to the extent of R10,97 lakhs, (3) for an outlay of R2,00 lakhs on the construction of the new Capital at Delhi, (4) for the discharge of R14 lakhs of the permanent debt, (5) for net payments of R60 lakhs and R33 lakhs, respectively, in connection with Imperial and Provincial loans and miscellaneous deposit transactions, and (6) for the payment of Council Bills to the extent of R23,65 lakhs. The total payments mentioned above aggregate R40,03 lakhs against a total receipt of R38,62 lakhs; and as the net disbursement of R1,41 lakhs would have reduced the cash balances at the end of the year to the inconveniently low figure of R16,30 lakhs, it was proposed to raise a loan of R3 crores to meet the deficit and to form a reserve for future capital expenditure on Imperial Delhi.

257. The results according to the Revised estimates show considerable Main features of Revised Estimates, variations from this forecast. The year opened with a balance which was R71 lakhs higher than the Budget forecast mainly owing to a larger betterment in the revenue account in 1911-12 (vide paragraph 6), which was partly counterbalanced by a reduction in the net credits in connection with miscellaneous deposit and remittance transactions; and the full amount of the contemplated rupee loan of R3 crores was raised in July. The large increase in the opening balance, the very considerable improvement which has taken place in the revenue returns of the current year, as well as in Savings Banks deposits; and the heavy lapse in the grant for Imperial Delhi will, however, enable the Government of India to incur higher outlay on railway construction, to remit to the Secretary of State in aid of the Home Treasury £3 millions more than was provided in the Budget, and still to close the year with a balance of R29,32 lakhs. Taking India as a whole, there will be a very considerable improvement of R11,53 lakhs over the Budget in the combined revenue account of the Imperial and Provincial Governments in the current year. Two-thirds of this increase occurs in the yield of the wholly Imperial heads-Opium and Railways; but as a result of the large assignments from Imperial to Provincial described in paragraphs 20 to 24, R3,08 lakes of the gain will appear in the Imperial section of the accounts and R8,45 lakhs as an addition to the Provincial balances. Silver of the value of R10,59 lakhs has been received from the Secretary of State for the coinage of new rupees. As the purchase in England was made from the balances of the Home Treasury, an equivalent sum was paid by the Currency Department to the Treasury in India on the transfer of the silver to the former for conversion into rupees. The increase in the net deposits in Savings Banks will be R631 lakhs more than was allowed for; while increases of  $R36\frac{1}{2}$  lakhs and  $R47\frac{1}{2}$  lakhs respectively are also expected in the net credits from remittances of railway companies and miscellaneous deposit and remittance transactions. Further, there is a large saving of R1,84 lakhs in the capital grant for Imperial Delhi, and the net payments on account of takavi and other loans are expected to fall short of the Budget provision by R59½ lakhs. The total improvements from all these sources, including the increase in the opening balance of the year amounts to R26,74 lakhs. But this will be partly counterbalanced by (1) a reduction of R3 lakhs in the amount available from the Famine Insurance grant for the avoidance of debt; (2) larger capital expenditure to the extent of R1,05 lakhs on railways (inclusive of outlay by Companies) and on canals arising mainly from the expansion of the Railway programme; (3) a remittance of R49 lakhs in gold to England; and (4) an increase of R15,16 lakhs in the payment of Council bills, of which R10,59 lakhs are intended to meet the expenditure incurred by the Secretary of State out of the balances of the Home Treasury on the purchase of silver. The closing balance on 31st March 1913 will thus be R10,01 lakhs more than the Budget estimate of R19,30 lakhs.

1912-13 Rupee loan.

258. It was announced last year, subject to the usual reservations, that a 3½ per cent, rupee loan of R3 crores would be raised in 1912-13. Tenders new 3½ per cent. rupee loan of R3 crores would be raised in 1912-13. for this loan were opened on the 19th July, and the result was as follows:-

Total amount tendered.	Amount accepted.	Average rate of accepted tenders.	Minimum rate accepted.
R	R	R a. p.	R a. p.
9,29,13,500	3,00,00,000	96 2 0.07	96 2 0

259. In 1913-14 the net Imperial revenue in India is estimated at R31 36 1913-14.

lakhs; Savings Banks and similar deposits are expected to yield a net receipt Main features of R2 25 lakhs; a sum of R68 lakhs will be available from the Famine Insurance grant for the avoidance of debt; and the remittance and capital transactions of Railway Companies are likely to result in a net credit in India of R6,61 lakhs.

On the other hand, provision has been made: (1) for an expenditure of R4.37 lakhs from Provincial balances, (2) for payments of R13 lakhs, R16 lakhs and R113 lakhs respectively in connection with the discharge of permanent debt, Imperial and Provincial loans, and miscellaneous deposit and remittance transactions; (3) for capital expenditure of R13,47 lakhs in India on railways and canals and of R1,99 lakhs on Imperial Delhi; (4) for a remittance of R67½ lakhs in gold coins to England; and (5) for payment of Council Bills to the extent of R32,47½ lakhs. The total amount of funds required by the Government of India next year therefore aggregates R54,40 lakhs, while the receipts at its disposal amount to on'y R40,90 lakhs.

about R10½ crores from the heavy cash balance which will be held in India at the about R10½ crores from the heavy cash balance which will be held in India at the end of the current year; and to provide for the shortage it is proposed to raise a new rupee loan of R3 crores in 1913-14. With a loan of this amount it will be possible to close the year, according to the present estimate, with a balance of about R18.82 lakhs. The announcement now made regarding the rupee loan is in accordance with present intentions; but full liberty is reserved, as usual, to vary the programme now announced to any extent that may be

considered desirab'e.

261. The following table gives details of the transactions of Savings Banks 1912-13 and and Provident Funds during a series of years, and the estimated transactions 1913-14. for 1912-13 and 1913-14.

= Post Office Savings Banks, etc. Net additions to YEAR. Total addition. Interest. deposits, cash. #  $\Re$  $\mathbb{R}$ 1902-03 52,40,000 39,00,000 91,40,000 1,09,1+,000 1,24,81,000 66,99,000 42,15,000 1903-04 78,94,000 1904-05 45,87,000 1905-06 31,49 0,00 46,80,000 78,29,000 1,03,19,000 1906-07 50,94,000 52,25,000 68,36,000 1907-08 14,86,000 53,50,000 51,63,000 -26,22,000 28,41,000 1908-09 51,82,0 0 57,20,000 1,09,02,000 1909-10 1,65,88,000 1,05,06,000 60,82,000 1910-11 67,79,000 75.97,000 2,63,48,000 2,51,54,000 1,95,69,000 1911-12 1,75,57 000 1912-13 (Revised) 1913-14 (Budget) 1,31,09,000 83,27,000 2,14,36,000

262. The growth in the net deposits in the Post Office Savings Banks in 1912-13 has again been phenomenally large, owing to the generally presperous conditions of the year and also to the enhanced maximum limit now admissible for cash deposits; and the Revised estimate for the year is taken at R127 lakhs, exclusive of interest, against a Budget of 60 lakhs. For next year, the estimate of deposits in these banks is taken at a moderate figure of R80 lakhs, while the deposits in the various Provident Funds for Government servants are expected to grow by R51 lakhs.

R. W. GILLAN.

20th March 1913.

### GOVERNMENT OF INDIA.

### DEPARTMENT OF REVENUE AND AGRICULTURE.

### Rainfall summary for the six days ending at 8 hrs. on Wednesday, the 19th March 1913, based on the Indian Daily Weather Reports of the period.

- 1. A depression which appeared over Sind advanced northwards into the Kashmir Himalayas and occasioned numerous dust storms in the plains of north-west India and nearly general precipitation on the 17th in Kashmir and the adjacent districts. Rain fell in Lower Bengal on the 13th, but with the exception of a few falls in Assam and Burma weather was dry in the rest of the Indian region.
- 2. Burma.—Several falls of rain were reported from the north of the province and from South Tenasserim.

North-east India, including Orissa.—Rainfall was nearly general in Lower Bengal on the 13th, and fairly general in Assam on the 14th and 18th.

The United Provinces, Central India and the Central Provinces.-Weather was dry.

North-west India.—Nearly general precipitation occurred on the 17th in Kashmir and the adjoining districts of the North-West Frontier Province and the North Punjab hills.

The Peninsula. -- Dry weather prevailed.

3. The chief daily amounts were as follows :-

March 13th, Victoria Point 1.82", Chittagong 1.49" and Narayanganj 0.99".

14th, Bhamo 0.77" and Cox's Bazar 1.58".

17th, Sonamarg 1.75", Dras 1.22", Skardu 1.02", and Murree and Rawalpindi each 0.83".

4. The precipitation of the past six days was 20 per cent. or more in excess in Bengal and Kashmir, and was within 20 per cent. of the normal in Upper Burma, Assam and Orissa. It was 20 per cent. or more in defect in the rest of the country with the exception of the following divisions where dry weather is a normal feature at this time of year; Rajputana, Gujarat, Central India West, Berar, the Konkan, the Bombay Deccan and the Madras Deccan.

The seasonal rainfall up to date is 20 per cent. or more in excess in Upper Burma, Assam, Bengal, Bihar and Orissa, the United Provinces, Baluchistan and the Central Provinces East. It is within 20 per cent. of the normal in Lower Burma, the Punjab, Kashmir, Sind, Central India East, the Central Provinces West and Malabar; and is 20 per cent. or more in defect elsewhere.

G. C. SIMPSON, for Director General of Observatories.

Dated 19th March 1913.

E. D. MACLAGAN, Secretary to the Government of India.

### GOVERNMENT OF INDIA.

### DEPARTMENT OF REVENUE AND AGRICULTURE.

### Season and Crop Prospects for the week enling Saturday, 15th March 1913.

Burma.—Rain fell in the northern districts of the Province. Threshing and winnowing of winter rice have been completed in Lower Burma. Harvesting of miscellaneous crops is proceeding normally in Upper Burma. Crops are in good condition. Pasturage is ample. Farm stock is healthy. The price of unhusked rice is steady though a little above normal.

Assam.—Excessive rain fell in the Surma Valley. Elsewhere the fall was slight to moderate. Ploughing for early and late rice, pruning of tea and pressing of sugarcane are in progress. Gathering of mustard is nearing completion. The average price of common rice has risen by four per cent. Cattle disease is reported from four districts.

Bengal.—Light rain fell in all the districts of the Province, except in Murshidabad, Rajshahi, Jalpaiguri, Bogra and Malda. Prospects of standing crops are generally good. Preparation of fields for autumn paddy and jute is going on briskly and sowings have commenced in places. Harvesting of spring crops and pressing of sugarcane are in progress. The average price of common rice for the Province has risen by one per cent. as compared with that of the previous week. Cattle disease is reported from Khulna and from parts of Dinajpur, Malda, Mymensingh and Tippera.

Bihar and Orissa.—Light and scattered showers fell in parts of Bihar and Orissa There was no rain in Chota Nagpur. Harvesting of spring crops and pressing of sugarcane continue. Preparation of lands for the next season's crop and planting of sugarcane are in progress. The condition of standing spring crops and vegetables is good. The average price of common rice has r sen slightly as compared with that of the previous week. The condition of cattle is on the whole good. The supply of fodder and water is sufficient. Agricultural prospects in the Feudatory States of Orissa are generally good.

United Provinces.—Rain fell in the hills. The western submontane districts received about half an inch and lesser falls occurred in the remaining submontane districts and in the north central tract. Elsewhere the week was practically rainless. Standing crops are generally reported to be doing well. Harvesting of spring crops is now general and sowing of extra crops and planting of sugarcane are in progress. Opium is being extracted. Fodder and water are everywhere sufficient. In Mirzapur there are 1,999 persons on test works and 10,382 on canal and water works. In the Benares State there are 2,196 persons on works and 2,490 in receipt of gratuitous relief. Cattle disease is widespread in Bundelkhand but continues to diminish elsewhere. Prices are steady with a slight upward tendency.

Punjab.—Light to moderate rain has fallen in many districts. The condition of irrigated spring crops is generally fair. Rape seed is being harvested. Sowings of extra spring crops and of sugarane and cotton, and ploughings for autumn crops continue. Standing crops have been damaged seriously by floods in parts of Hissar and by hallstorm in parts of Shahpur. Cattle are generally healthy but fodder is insufficient in places. Prices remain high.

North-West Frontier Province.—Slight showers fell in Hazara and in parts of Peshawar. The weather is cool and at times cloudy. The condition of standing crops is generally good on irrigated and average on unirrigated areas. Sowings of sugarcane and extra spring crops are proceeding. The condition of cattle is good. The water supply is sufficient. Fodder is generally sufficient but scarce in Dera Ismail Khan. Prices are high but falling slightly in Dera Ismail Khan.

Jammu.—The rain during the week was good. Prices are fluctuating. Wheat sells from 10 to 16 and maize from 15 to 22 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Riasi tahsil. Fodder is insufficient in some tahsils.

Kashmir.—It rained on two occasions during the week. Prices of maize and rice show a tendency to rise. Operations for spring crops continue. No damage has been done to crops. Fodder is ordinary. There is no disease among cattle.

Rajputana.—The weather during the week was pleasant. The rainfall, in cents, was:—Jaisalmer 43, Bikaner 65 to 103 and Bharatpur 33. Spring crops are being irrigated and harvesting has commenced in some places. Standing crops are in good condition and prospects are generally fair. Cattle are in good condition. Fodder and water are sufficient. Prices are generally high but falling. The opium crop in Kishangarh is doing well.

Central India.—The rainfall was partial in Gwalior. The weather was clear with high winds and cool nights. Harvesting of spring crops is in progress and the outturn is normal in Bhopal and good elsewhere. Cattle disease prevails in parts of Gwalior, Indore and Baghelkhand. The fodder supply is good. Prices are beginning to fall.

Central Provinces.—The weather has been clear. The days are getting warm but the nights and mornings are cold. Harvesting, threshing and winnowing of spring crops were in full swing. Water is adequate everywhere. Fodder is dear in Saugor, in the Sausar tahsil of Chhindwara and in Akola and Amraoti; both dear and scarce in Wardha and scarce in one taluka of Buldana. Agricultural stock is in good condition. Gram sold cheaper by 2 seers per rupee in Jubbulpore and Narsinghpur.

Feudatory States.—Prospects of spring crops are generally good. The price of kodon fell in Kawardha and that of wheat rose in Bastar by 2 and 4 seers per rupee respectively.

Bom y.—Slight rain fell during the week in parts of Larkana and Nawabshah. Standing crops are generally in good condition. Harvesting of spring crops is in progress. Cotton picking continues in parts of Gujarat, Satara, the Karnatak and Rewa Kantha. Preparation of lands for cultivation of autumn crops is generally in progress. The fodder supply is deficient in Ahmednagar. Agricultural stock is generally in good condition and sufficient except in parts of Cutch. The condition of stock is deteriorating in Ahmednagar. Drinking water is generally adequate except in parts of Ahmednagar, Sholapur and Bijapur. Water for irrigation is deficient in parts of the Deccan and Bijapur. Prices are high but fluctuating. The public health is generally good. Grain stocks are sufficient.

The weekly report on the famine and scarcity is as follows:—Distress is deepening in Ahmednagar. There is little wandering or emaciation yet. Two kitchens and six poor houses continue to give relief. People on relief are generally in good condition. The public health is generally good. Land revenue suspensions have been granted and takavi advanced freely for fodder and wells. Government grass finds ready sale. Measures for the improvement of the water supply from Government and Local Board grants continue. Charitable funds are being utilized for the relief of weavers and for five cattle kitchens. The numbers on gratuitous relief for the week ending the 15th March were:—Ahmednagar 17,488. Poona and Sholapur 1,026. Total 18,514.

Hyderabad.—No rain fell during the week. The spring crop is being harvested The crop is in fair condition except in parts of the Aurangabad, Bir and Usmanabad districts. Late rice is being weeded and irrigated in parts and the crop is fair to good. Fodder is being imported into affected talukas of the Aurangabad and Bir districts. Takavi is being distributed and ordinary works have been increased. The daily average number of labourers employed on works during the week ending the 8th March was 9,995. The total number was 69,071. Cattle disease is reported in 8, fodder scarcity in 20 and water scarcity in 180 talukas. Prices:—Wheat 6½, coarse rice 5½ and juar 10¾ seers per rupee. White juar is selling in Hyderabad City at 12 seers per rupee. The highest price in districts is 7 seers in Karimnagar and the lowest 17 seers in Adilabad.

Mysore.—Prices of food grains are generally steady. Markets are well supplied. Crops are in good condition. Prospects of the season are good. Cattle are healthy except in parts. Water and fodder are available.

Coorg.—No rain fell during the week. Threshing of rice is almost completed. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—There was no rain during the week. Standing crops are fair to good. Harvesting of dry crops, paddy and sugarcane continues with outturn fair to normal. Sowings of dry crops and paddy are proceeding normally in parts. The condition of cattle is generally good. Fodder and water are generally sufficient. Prices show an upward tendency.

SUPPLEMENT TO

# The Gazette of India.

No. 13.}

DELHI, SATURDAY, MARCH 29, 1913.

### OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in Part VI of the Gazette.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The Supplement and Part VI of the Gazette can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALOUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

### Rainfall summary for the eight days ending at 8 hrs. on Thursday, the 27th March 1913, based on the Indian Daily Weather Reports of the period.

- 1. A few showers of rain occurred in Assam, east Bengal and Baluchistan, and light snow fell at one or two places in Kashmir. In all other parts of the country dry weather prevailed.
  - 2. Burma. Weather was dry.

North-east India, including Orissa.—Rain fell on the 19th at most places in Assam and at Narayanganj and Mymensingh, and on the 20th at Cherrapunji.

The United Provinces, Central India and the Central Provinces.-There was no

North-west India. —Light precipitation occurred at Sonamarg, Dras, Astor, Kalat and Panjgur.

( 871 )

The Peninsula.—Dry weather prevailed.

3. The rainfall of the past eight days was 20 per cent. or more in defect everywhere, except in the following divisions where the absence of rainfall is a normal feature at this time of year: the United Provinces East, Sind, Rajputana, Gujarat, Central India West, the Konkan and the Madras Deccan.

The seasonal rainfall up to date is 20 per cent. or more in excess in Upper Burma, Assam, Bengal, Bihar and Orissa, the United Provinces, Baluchistan and the Central Provinces East. It is within 20 per cent. of the normal in the Punjab Southwest, Kashmir, Sind, Central India East, the Central Provinces West and Malabar, and is 20 per cent. or more in defect elsewhere.

Dated 27th March 1913.

E. D. MACLAGAN,
Secretary to the Government of India
A 2

# GOVERNMENT OF INDIA. DEPARTMENT OF REVENUE AND AGRICULTURE.

# Season and Crop Prospects for the week ending Saturday, 22nd March 1913.

Burma.—Light rain fell in the north of the Province. Island crops are being harvested under normal conditions. Pasturage is ample. Farm stock is healthy. The price of unhusked rice is steady though a little above normal.

Assam.—Slight rain fell in most districts. Ploughing for early rice and broadcast winter rice, pruning of tea and pressing of sugarcane are in progress. Sowing of early rice and jute continues in places. Gathering of mustard is finished. The average price of common rice has fallen by one per cent. Cattle disease is reported from two districts.

Bengal.—During the week light rain fell in places in the Rajshahi, Dacca and Chittagong divisions. Prospects of standing crops are generally good. Preparation of fields for autumn paddy and jute is going on briskly and sowings have commenced in places. Harvesting of spring crops and pressing of sugarcane are in progress. The average price of common rice for the Province has risen by about '7 per cent. as compared with that of the previous week. Cattle disease is reported from Khulna and from parts of Jessore, Burdwan, Malda, Mymensingh and Tippera.

seasonable. Harvesting of spring crops and preparation of lands for the next season's crops are in progress. Planting of sugarcane is going on. Pressing of sugarcane still continues in some districts. The condition of standing crops and vegetables is good. The average price of common rice is almost stationary as compared with that of the previous week. The supply of fodder and water is sufficient. The condition of cattle is on the whole good. Agricultural prospects in the Feudatory States of Orissa are on the whole good.

United Provinces.—The week was rainless except in the hills. Harvesting of spring crops is now general throughout the Provinces. Extra crops are being sown, sugarcane planted and poppy lanced. Standing crops are reported to be in good condition. Fodder and water are everywhere adequate. In Mirzapur the numbers on test works have fallen to 1,366 and those on canal and water works to 10,040. In the Benares State the numbers on works have fallen to 1,911 and there are still 2,490 persons on gratuitous relief. Cattle disease prevails in Bundelkhand but elsewhere continues to diminish. The level of prices shows a slight downward tendency.

**Punjab.**—The weather during the week was generally dry. The condition of irrigated spring crops is average to good and of unirrigated crops generally fair. Spring crops are being harvested in the Ambala division. Sowing of extra spring crops and of sugarcane and cotton and ploughing for autumn crops continue. Cattle are generally healthy but fodder is insufficient in places. Prices remain high.

North-West Frontier Province.—The week was rainless except for slight showers in Hazara. The weather was cool and at times cloudy. The condition of standing irrigated crops is generally good and of unirrigated crops average. Sowings of sugarcane and extra spring crops continue. The fodder and water-supply is generally sufficient. Prices are high but stationary.

Jammu.—The rain during the week was good. Prices are fluctuating. Wheat sells from 9½ to 15 and maize from 12 to 18 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Jammu tahsil. Fodder is insufficient in some tahsils.

Kashmir.—It rained once during the week. Operations for spring and autumn crops are in progress except in the submontane tracts which are under snow. The state of standing crops is fairly good. No damage has been done to crops. Agricultural stock is in fair condition. Pasturage, fodder and water supplies are sufficient. Prices of food grains are rising.

Rajputana.—The weather during the week was pleasant. The rainfall in Jaisalmer was 36 cents. Spring crops are being irrigated. Harvesting has commenced in some places. Standing crops are in good condition. Prospects are generally fair. Cattle are in good condition. Fodder and water are sufficient. Prices are generally high but falling.

Central India.—There was no rain during the week. The weather is clear with hot days and cool nights. Harvesting of spring crops is in progress. Land is being ploughed for autumn sowings in Bhopawar. The outturn of spring crops is normal in Bhopal and good elsewhere. Cattle disease prevails in parts of Gwalior, Bundelkhand and Bhopawar. The supply of fodder is good. Prices are normal in Bhopal, above normal in Baghelkhand and falling elsewhere.

Central Provinces.—The days are warm but the nights and mornings continue to be cool. Harvesting of spring crops has been practically completed in the Berar districts but is in progress elsewhere. Threshing continues in eight districts. Prospects are favourable. Fodder is still dear in the Sausar tahsil of the Chhindwara district and in Akola and Amraoti; both dear and scarce in Saugor and Wardha and scarce in the Mekhar taluka of Buldana. Cattle are in good condition. The supply of water is sufficient. Prices of staple food grains were fairly steady.

Fewlatory States.—Spring crops are in good condition. Variations in prices are insignificant.

Bombay.—Standing spring crops are in good condition except in parts of the Upper Sind Frontier where they have been damaged slightly by adverse winds. Harvesting is in progress. Cotton picking continues in parts of Gujarat, Satara, the Karnatak and Rewa Kantha. Preparation of lands for autumn cultivation is generally in progress. The fodder supply is deficient in parts of Hyderabad and Ahmednagar. Agricultural stock is generally in good condition and sufficient except in parts of Cutch. The condition of stock is deteriorating in Ahmednagar. Drinking water is generally adequate except in parts of Ahmednagar, Sholapur and Bijapur. Water for irrigation is deficient in parts of the Deccan and Bijapur. Prices are high but steady. The public health is generally good. Grain stocks are sufficient.

The weekly report on the famine and scarcity is as follows:—Distress is deepening in Ahmednagar. There is little wandering or emaciation yet. Three kitchens and six poor houses continue to give relief. People on relief are generally in fair condition. The public health is generally good. Land revenue suspensions have been granted and takavi advanced freely for fodder and wells. Government grass is readily sold. Measures for the improvement of the water supply from Government and Local Board grants continue. Charitable funds are being utilized for the relief of weavers and for five cattle kitchens. The numbers on gratuitous relief for the week ending the 22nd March were:—Ahmednagar 16,375. Poona and Sholapur 1,026. Total 17,401.

Hyderabad.—There was no rain during the week. Harvesting of spring crops is nearing completion and castor seed is being plucked in a few parts. Late rice is being weeded and irrigated in parts. The crop is fair throughout. Fodder is being imported into the affected talukas of the Aurangabad and Bir districts. Takavi has been distributed and ordinary works increased. The daily average number of labourers during the week ending the 15th March was 9,456. The total number was 66,191. Fodder scarcity is reported in 21, water scarcity in 19 and cattle disease in 8 talukas. Prices:—Wheat 6\frac{1}{4}, coarse rice 5\frac{1}{2} and juar 10\frac{3}{4} seers per rupee. White juar is selling in Hyderabad City at 12 seers per rupee. The highest price in districts is 7 seers in Karimnagar and the lowest 17 seers in Adilabad.

Mysore.—Prices of food grains are steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—There was no rain during the week. Threshing of rice is completed. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—No rain fell during the week. Standing crops are fair to good. Harvesting of dry crops, paddy and sugarcane is proceeding with outturn fair to normal. Sowings of dry crops and paddy are proceeding normally in parts. The condition of cattle is generally good. Fodder and water are generally sufficient. Prices show an upward tendency.

### 876 SUPPLEMENT TO THE GAZETTE OF INDIA, MARCH 29, 1913.

### TARIFF VALUATION OF SUGAR.

The following statement shows in respect of each of the descriptions of sugar distinguished in the Tariff Schedule IV (excepting molasses and all other kinds of sugar), firstly, the total imports into India in the month of February, 1913, and the average value per cwt. as calculated on the returns received from the Customs Houses; and, secondly, a running total showing the total imports into India since the beginning of the year (1st October to 30th September, and the average net value per cwt. so far established. It is published in conformity with the procedure laid down in Customs Circular No. V of 1911 in order to enable merchants to compute the probable rate of duty for the year 1914:—

Against Cable Maintenance under columns "1911-12" and "Decrease," for Rs. 1,94,194 and 16,182 read Rs. 1,95,004 and Rs. 15,372 respectively.

Persian Section :-Against General Charges under columns "1911-12" and "Decrease," for Rs. 1,44,398 and 10,861 read Rs. 1,44,294 and 10,965 respectively, and against Line Maintenance under columns "1911-12" and "Decrease," for Rs. 1,02,590 and Rs. 12,549 read

Rs. 1,02,565 and Rs. 12,574 respectively.

Against Signalling under columns "1911-12" and "Increase," for Rs. 1,68,277 and Rs. 5,024 read Rs. 1,68,252 and Rs. 4,999 respectively.

Against Total under columns "1911-12," "Increase" and "Decrease," for Rs. 10,89,966, Rs. 13,889, and Rs. 45,182 read Rs. 10,90,646, Rs. 13,818, and Rs. 44,481 respectively.

Against Nett Decrease, for Rs. 31,343 read Rs. 30,663.

Page 5, Paragraph 4.
Lines L and 2 For Rs. 1,50,37,849, Rs. 8,87,275 and Rs. 590 read Rs. 1,50,38,091,
Rs. 8,86,683 and Rs. 5,896 respectively. Against 1911-12, for Rs. 5,900 read Rs. 5,896.

Page 10. Appendix A .:-

Persian Gulf Section. Against "Sales" under Debits for both the columns "India" and "Total," for Rs. 2,212 read Rs. 2,300.

Against Total Gulf Section under columns "India" and "Total," for Rs. 52,400 and Rs. 1,48,754 read Rs. 52,488 and Rs. 1,48,842 respectively, and in column 6, for Rs. 27,103 read Rs. 27,191. Persian Section, against Suspense head "Advances" for both the column "India" and "Total," for Rs. 51,224 read Rs. 51,378, and in column 6, for Rs. 11,255 read Rs. 11,409. Against Total Persian Section, columns 2, 4, and 5. for Rs. 54.512 read Rs. 54.666. 2, 4, and 5, for Rs. 54,512 read Rs. 54,666.

In column 7, for Rs. 38,358 read Rs. 38,600, and against Grand Total, for Rs. 1,50,37,849 read Rs. 1,50,38,091.

Rs. 1,50,37,849 read Rs. 1,50,38,091.

Page 11. Appendix B.:—
Column 1 under Earnings.—Miscellaneous Receipts, against India—under Gulf, for Rs. 5,004 read Rs. 5,092, and against Total, for Rs. 5,004 read Rs. 5,092. In column 3, for Rs. 14,689 read Rs. 14,777, against "Grand Total," for Rs. 19,77,241 read Rs. 19,77,329.

Under "Expenditure," Persian Gulf Section.
Under columns "India" and "Total" against Line Maintenance, for Rs. 75,106 read Rs. 75,126; against Cable Maintenance, for Rs., 1,94,194 read Rs. 1,95,004, against Signalling, for Rs. 2,64,037 read Rs. 2,64,041, and against Total Gulf, for Rs. 6,43,048 and Rs. 6,70,647 read Rs. 6,43,882 and Rs. 6,71,481 respectively. Persian Section, under columns "India" and "Total," against General Charges, for Rs. 1,28,163 and Rs. 1,44,398 read Rs. 1,28,059 and Rs. 1,44,294 respectively. Against Line Maintenance, for Rs. 1,02,590 read Rs. 1,02,565, and against Signalling, for Rs. 1,67,677 and Rs. 1,68,277 read Rs. 1,67,652 and Rs. 1,68,252, against Total, for Rs. 3,93,430 and Rs. 4,15,265 read Rs. 3,98,276 and Rs. 4,15,111 respectively.

Against Indo-European Telegraph Department, under columns "India" and "Total,"

Against Indo-European Telegraph Department, under columns "India" and "Total," for Rs. 10,41,478 and Rs. 10,85,912 read Rs. 10,42,158 and Rs. 10,86,592

respectively.

In last column, for Rs. 10,89,966 read Rs. 10,90,646. Against "By balance," for Rs. 8,87,275 read Rs. 8,86,683, and against Grand Total, for Rs. 19,77,241 read Rs. 19,77,329.

Page 12. Appendix B (i):—
"1911-12," against General Charges under columns "Office Expenses," "Total as per Finance Accounts," and "Total as per Administrative Accounts, etc.," for Rs. 10,318, 2,81,708, and 2,85,762 read Rs. 10,214, 2,81,604 and 2,85,658 respectively.

respectively.

Against Line Maintenance, under columns "Office Expenses," "Repairs to Lines and Buildings," "Total as per Finance Accounts," and "Total as per Administrative Accounts, etc.," for Rs. 7,128, 43,622, 1,77,696, and 1,77,696 read Rs. 7,108, 43,637, 1,77,691, and Rs. 1,77,691 respectively.

Against Cable Maintenance, under columns "Repairs to Cables," "Cable Steamer," "Total as per Finance Accounts," and "Total as per Administrative Accounts, etc.," for Rs. 56,266, 1,18,698, 1,94,194, and 1,94,194 read Rs. 56,271, 1,19,503, 1,95,004, and 1,95,004 respectively.

for Rs. 56,266, 1,18,698, 1,94,194, and 1,94,194 read Rs. 56,271, 1,19,503, 1,95,004, and 1,95,004 respectively.

Against Signalling, under columns "Office Expenses," "Total as per Finance Accounts," and "Total as per Administrative Accounts, etc., for Rs. 54,482, 4,32,314 and 4,32,314 read Rs. 54,461, 4,32,293, and 4,32,293, respectively.

Against Total, under columns "Office Expenses," "Repairs to Lines and Buildings," "Repairs to Cables," "Cable Steamer," "Total as per Finance Accounts," and "Total as per Administrative Accounts, etc.," for Rs. 72,072, 65,333, 56,266, 1,18,698, 10,85,912, and 10,89,966 read Rs. 71,927, 65,348, 56,271, 1,19,503, 10,86,592, and 10,90,646 respectively. 10,86,592, and 10,90,646 respectively.

SUPPLEMENT TO

# The Gazette of Andia.

No. 14. }

SIMLA, SATURDAY, APRIL 5, 1913.

# OFFICIAL PAPERS

A Supplement to the Gazette Of India will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in Part VI of the Gazette.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of five Rupees per annum if delivered in Calcutta, or eight. Rupees if sent by Rost. The Supplement and Part VI of the Gazette can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

#### GOVERNMENT OF INDIA.

# DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 3rd April 1913, based on the Indian Daily Weather Reports of the period.

1. A few falls of snow occurred in Kashmir and local rainfall in Assam, Bengal, Burma

and the south of the Peninsula. Dry weather prevailed elsewhere.

2. Burma.—Rain fell at Myitkyina on the 30th March, at Lashio and Bhamo on the

Tst April, and at Lashio on the 2nd.

Northeast India, including Orissa.—Rainfall occurred on most days in Assam.

Chittagong had a light shower on the 30th March, and rain fell at Narayanganj and Darjiling on the 2nd April.

The United Provinces, Central India and the Central Provinces.—Weather was

Northwest India .- Light precipitation occurred in Kashmir on the 27th and 28th March, at Murree on the 27th and at Sonamarg on the 2nd April.

The Peninsula .- Rain fell locally in the south on the 28th and 29th March and the and April.

3. The chief daily falls of rain were as follows:— March 27th, Silchar 1'34".

28th. Kodaikanal 2'94".

29th. Cherrapunji 3'25", Silchar 3'05" and Trivandrum 0'94".

30th. Myitkyina 0'92" and Silchar 2'13".

April 2nd. Victoria Point 1'32", Cherrapunji 1'65", Silchar 1'39", Narayanganj 1.20" and Mysore 0.75".

4. The rainfall of the week was more than 20 per cent in excess in Assam and Mysore, and was normal in Upper Burma and Malabar. It was more than 20 per cent in defect in all the remaining divisions, except in the following where absence of rain is a normal feature at this time of year; the United Provinces, Sind, Rajputana, Gujarat, Central India, the Konkan and the Madras Deccan.

The seasonal rainfall up to date is 20 per cent or more in excess in Assam, Bengal, Bihar, Chota Nagpur, the United Provinces, Baluchistan and the Central Provinces East. It is within 20 per cent of the normal in Upper Burma, Orissa, the Punjab Southwest, Sind, Central India East, the Central Provinces West and Malabar; and is 20 per cent or more in defect in the rest of the country. The deficiency amounts to 7½ inches in the Bay Islands, 41 inches in Madras Southeast and 3 inches on the Madras Coast North.

# Season and Crop Prospects for the week ending Saturday, 29th March 1913.

Burma.—No rain fell during the week. Cultivation of spring and summer rice and harvesting of island crops are proceeding normally. Farm stock is in good condition. The price of unhusked rice remains a little above normal.

Assam.—Slight to moderate rain fell in most districts and facilitated cultivating operations. A severe hailstorm occurred in Silchar causing damage to houses and trees. Ploughing for and sowing of early and late broadcast rice and jute and pressing of sugarcane are in progress. Pruning of tea is nearly finished and plucking has commenced. The average price of common rice has risen by 3 per cent. Cattle disease is reported from five districts.

Bengal.—During the week no rain fell throughout the Province except in parts of Chittagong. Prospects of standing crops are generally good. Harvesting of spring crops and pressing of sugarcane are approaching completion. The average price of common rice for the Province has risen by a per cent as compared with that of the previous week. Cattle disease is reported from Khulna and from parts of Rajshahi and Mymensingh.

Bihar and Orissa —There was no rain during the week. The weather was seasonable. Harvesting of spring crops, planting of sugarcane and preparation of lands for the next season's crops are in progress. Pressing of sugarcane still continues in some districts. The condition of standing crops is good. The average price of common rice has risen slightly as compared with that of the previous week. The condition of cattle is on the whole good. The supply of fodder and water is sufficient all over the Province. Agricultural prospects in the Feudatory State of Orissa are on the whole good.

United Provinces.—The week was rainless. Harvesting of spring crops is in full swing. Extra crops are being sown, sugarcane planted and opium extracted. Prospects of the harvest are generally good. Standing crops are reported to be in good condition. Fodder and water are everywhere sufficient. In Mirzapur the numbers on test works have fallen to 1,130 and those on canal and water-works to 8,748. In the Benares State the numbers on relief works have risen to 2,047 and there are still 2,490 persons on gratuitous relief. Cattle disease still prevails in Bundelkhand but elsewhere continues to diminish. There is a distinct fall in the level of prices which is particularly marked in the case of spring grains.

Punjab.—The weather during the week was dry. The condition of irrigated spring crops is average to good and of unirrigated crops fair. Spring crops are being harvested in the Ambala division. The outturn of irrigated crops is generally average to good and of unirrigated crops below average. Sowing of extra spring crops and of sugarcane and cotton and ploughing for autumn crops continue. Cattle are generally healthy but fodder is insufficient in places. Prices remain high.

North-West Frontier Province.—Except slight showers in Hazara and Bannu the week was rainless. The weather at times was cloudy. The cold is decreasing. The condition of standing crops is generally good on irrigated and average on unirrigated areas. Sowing of sugarcane and extra spring crops is proceeding. The condition of cattle is good. The fodder and water-supply is generally sufficient. Prices are high but are falling slightly in Dera Ismail Khan.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 10 to 16 and maize from 12 to 19 seers per rupee. The condition of standing crops is fair.

Cattle disease of mild type prevails in the Riasi tahsil. Fodder is insufficient in some tahsils.

Rajputana.—The weather is cool at night and pleasant in the day. Harvesting is in progress. Standing crops are in good condition. Prospects are generally fair. Cattle are in good condition. Fodder and water are sufficient. Prices are generally high but falling. The opium crop in Kishangarh is doing well.

Kashmir.—It rained twice during the week. Standing crops are in good condition. Prices of rice and maize are rising and those of other grains are stationary. No damage has been done to crops. Operations for autumn crops continue. Fodder is normal.

Central India.—The weather is clear with hot days and cool mornings. Harvesting of spring crops continues with outturn generally excellent. Ploughing for autumn crops is proceeding. Cattle disease prevails in parts of Gwalior, Indore, Bhopal, Bundelkhand and Bhopawar. The fodder supply is sufficient. Prices are normal in Bhopal and Baghelkhand, fluctuating in Indore and falling elsewhere.

Central Provinces.—The weather has been clear and warm but the nights and mornings are still cool. Harvesting and threshing of spring crops still continue in most districts. Prospects are favourable. Fodder continues to be dear in the Sausar tahsil of the Chhindwara district and in Akola; both dear and scarce in Saugor and Wardha and scarce in the Mehkar taleka of the Buldana district. The supply of water is sufficient. Agricultural stock is in good condition. Gram fell in Chhindwara and rice rose in Bilaspur by two seers per rupee. Elsewhere prices of food grains remained stationary or fluctuated alightly.

Feudatory States.—Prospects of spring crops are generally good. Wheat sells cheaper by two seers per rupee in Sarangarh.

Bombay.—Standing spring crops are in good condition except in parts of the Upper Sind Frontier where they have been damaged slightly by adverse winds. Cotton has been damaged by insects in Radhanpur. Harvesting continues. Cotton picking is progressing in parts of Gujarat, West Khandesh, Satara, the Karnatak, Cutch and Rewa Kantha. Preparation of lands for autumn cultivation continues generally. The fodder supply is deficient in parts of Hyderabad and Ahmednagar. Agricultural stock is generally in good condition and sufficient except in parts of Cutch. The condition of stock is deteriorating in Ahmednagar. Drinking water is generally adequate except in parts of Ahmednagar, Sholapur and Bijapur. Water for irrigation is deficient in parts of the Deccan and Bijapur. Prices are high and show a tendency to rise. The public health is generally good. Grain stocks are sufficient.

The weekly report on the famine and scarcity is as follows:-

Distress is deepening in Ahmednagar. There is little wandering or emaciation yet. Three kitchens and eight poor houses continue to give relief. People on relief are generally in fair condition. The public health is generally good. Land revenue suspensions have been granted and takavi advanced freely for fodder and wells. Government grass is readily sold Measures for the improvement of the water-supply from Government and Local Board grants continue. Charitable funds are being utilized for the relief of weavers and for five cattle kitchens. The numbers on gratuitous relief for the week ending 29th March were:—Ahmednagar 16,315. Poona and Sholapur 835. Total 17,150.

Hyderabad.—The spring harvest is almost over. Picking of castor seed continues in a few parts. Late rice is being irrigated in most parts. The crop is good in places and is generally fair. Fodder is being imported into the affected talukas of the Aurangabad and Bir districts. Takavi has been distributed and ordinary works increased. Fodder scarcity is reported in 22, water scarcity in 20 and cattle disease in 8 talukas. Prices are high and steady. Prices:—Wheat 6½, coarse rice 5½ and juar 10½ seers per rupee.

Yellow juar is not available in Hyderabad City. White juar is selling at 12 seers per rupee. The highest price in districts is 7 seers in Karimnagar and the lowest 17 seers in Adilabad.

Mysore.—Prices of food grains are generally steady. Markets are well supplied Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—There was no rain during the week. Prices of food grains are high. Water and fodder for cattle are sufficient. The public health is fair.

Madras.—Light rain fell in Ramnad, Tinnevelly and Travancore. There was no rain elsewhere. Standing crops are fair to good. Harvesting of dry crops, paddy and sugarcane is proceeding with outturn fair to normal. Sowings of dry crops and paddy are proceeding normally. Planting of sugarcane is commencing in parts. The condition of cattle is generally good. Fodder and water are generally sufficient. Prices are stationary.

E. D. MACLAGAN, Secretary to the Government of India.

### No. 502-26-1.

### GOVERNMENT OF INDIA.

### DEPARTMENT OF REVENUE AND AGRICULTURE.

### FAMINE.

### Simla, the 31st March 1913.

### Ninth Report of the Board of Management of the Indian People's Famine Trust covering the Calendar year 1912.

- 1. There were three meetings of the Board held during the year 1912, besides the usual Annual Meeting, viz., on 6th January, 12th March and 20th May.
- 2. The Report and the Annual accounts for 1911 were passed at a meeting of the Board held on 5th February and a copy of the Report on the administration of the Trust during 1911 and of the Accounts was forwarded to the Government of India in the Department of Revenue and Agriculture in accordance with rule 16 of the rules for the administration of the Trust.
- 3. The famine in Bombay noticed in the last year's report developed itself steadily, especially in Gujerat, Cutch and Kathiawar and two further applications from the Central Famine Relief Fund Committee, Bombay, were received. Each time the Board made to them a grant of Rs. 50,000 and the total grants made during the year including the application received in 1911 amounted to Rs. 1,50,000. It may be noted that the cash balance in hand in March and June was not sufficient to meet the calls and the Board had to sell Government paper for Rs. 55,000 for the purpose, out of the temporary investment. It is gratifying, however, to note that the whole of the grant made by the Board was not used up, the Committee being able to refund Rs. 14,000 and to make a promise of a further refund.
- 4. Accumulations of interest realized were promptly invested from time to time during the year as in 1911 and 3½ per cent. Government paper of the nominal value of Rs. 1,02,000 was purchased at a cost of Rs. 98,610-12-0. These securities as well as those purchased in previous years less sales effected during the year amount to Rs. 6,50,000 and stand in the joint names of the Comptroller General and Accountant General, Bengal, and are available for expenditure.
- 5. During the year the Hon'ble Sir Lawrence Jenkins, Kt., K.C.I E., K.C., resigned his appointment as Chairman to the Board and the Hon'ble Sir R. W. Carlyle, K.C.S I., was appointed to succeed him.
- 6. A statement of the assets of the Trust and an Abstract of the accounts are given in schedules I and II annexed.
- 7. A sum of £ 1,769 13s. 3d. (equivalent in Indian coin to Rs. 26,544-15-0) was received through the India Office, London, on account of a bequest made by the late Mr. John Siward Arden of Burton-on-Trent for relief of famine in India.
- 8. The Miscellaneous Receipts shown in schedule II annexed represent the annual subscription of Rs. 500 by the Raja of Athgarh for 1909-1910.
  - 9. The Endowment Fund stands at Rs. 28,10,000 as in last year.

Secretary to the Government of India

No. 17-40-3.

### GOVERNMENT OF INDIA.

### DEPARTMENT OF REVENUE AND AGRICULTURE.

AGRICULTURE.

Simla, the 1st April 1913.

### RESOLUTION.

The following Rules and Regulations which have been prescribed for carrying out the provisions of the United States Plant Quarantine Act of 20th August 1912, are published for general information.

### United States Department of Agriculture,

OFFICE OF THE SECRETARY-Circular No. 41, Revised.

### RULES AND REGULATIONS FOR CARRYING OUT THE PLANT QUARANTINE ACT.

Under date of September 18, 1912, rules and regulations for the enforcement of the Plant Quarantine Act, August 20, 1912, were issued. Regulations 2 to 9 are amended to read as herein set forth.

JAMES WILSON, Secretary.

Date: December 3, 1912.

### RULES AND REGULATIONS.

### Regulation 1. Short Title of the Act.

The act "To regulate the importation of nursery stock and other plants and plant products; to enable the Secretary of Agriculture to establish and maintain quarantine districts for plant diseases and insect pests; to permit and regulate the movement of fruits, plants, and vegetables therefrom, and for other purposes," approved August 20, 1912, shall be known and referred to as "The Plant Quarantine Act, August 20, 1912."

### Regulation 2. Definition.

For the purpose of this act the term "nursery stock" includes all field grown florists' stock, trees, shrubs, vines, cuttings, grafts, scions, buds, fruit pits, and other seeds of fruit and ornamental trees or shrubs, and other plants and plant products for propagation, except field, vegetable, and flower seeds, bedding plants, and other herbaceous plants, bulbs, and roots.

All woody plants and parts thereof for propagation or planting are included within the term "nursery stock" as used in this act.

"Field-grown florists' stock" is all florists' stock which is usually grown outside of greenhouses for all or part of the year.

### Regulation 3. Applications for Permits for Importation of Nursery Stock.

Persons contemplating the importation by mail, express, freight, or other form of transportation of nursery stock as defined in this act from any part of the world will first make application to the Secretary of Agriculture for a permit, stating in the application the general nature and quantity of the nursery stock, the district or locality where grown, the name and address of the exporter, together with the name and address of the importer in the United States and the proposed port of entry. (NOTE—The port of entry is the port where the imported nursery stock is cleared from customs and the duty paid.)

By "general nature" is meant the class or type of stocks, as fruit trees, fruit-tree stocks, etc., as specified in the official form of permit.

Applications for permits should be made in advance of the shipment of the nursery stock, but if through no fault of the importer stock shall arrive before the issue of a permit the stock will be held in customs custody at the risk and expense of the importer for a period not exceeding 10 days pending the issue of a permit.

Applications for permits should contain the following information.

APPLICATION FOR PERMIT TO IMPORT NURSERY STOCK.

...... 191....

To the Federal Horticultural	Board, Washington, D. C.:	
A permit is requested for in the district or locality and cas follows:	the importation of nursery stock from the firm of ountry of, for the shipping season of

### Regulation 4. Delivery in Bond.

(Section 1.)

If the required permit be not at hand at the time of the arrival at port of entry of the nursery stock, the latter may be delivered to the importer, consignee, or agent for the proper care thereof upon the filing of a voluntary bond with approved sureties in double the invoice value of the property (the amount of the bond in no case to be less than \$20) conditioned upon the redelivery thereof to the collector within 20 days from the date of arrival and providing that the same shall not be removed from the port of entry within such period or until the presentation of proper permit; or, if the importer, consignee, or agent shall so elect, the goods may be retained in the custody of the officer of the customs pending the issuance of the permit, wholly at the expense of the importer.

### Regulation 5. Permits for entry of Nursery Stock.

(Section 1.)

On approval by the Secretary of Agriculture of an application for the importation of nursery stock from countries which maintain nursery stock inspection a permit will be issued in triplicate. One copy of the permit will be furnished to the applicant, one copy will be mailed to the collector at the port of entry, and the third filed with the application. Permits will expire on the 30th day of June of the year following the date of issue. They will be in the following form:—

	Executive Officer.

Permits for the entry of nursery stock from countries which do not maintain official nursery-stock inspection will be addressed to the collector of customs in the following form:—

To the Collector of Customs:

You are hereby authorized, so far as the jurisdiction of the Department of Agriculture is concerned, to permit the importation under "The Plant Quarantine Act, August 20, 1912" of the nursery stock specified in the application of......., dated....., described herein, only upon receipt of notice in writing from an inspector of the Department of Agriculture that the nursery stock has been inspected by him or under his direction at the port of arrival and was found or believed to be free from injurious plant diseases and insect pests.

(See Regulation 6 for entry of nursery stock from countries having no official system of nursery inspection.)

Permits are not required for nursery stock entering the United States for immediate transportation in bond to foreign countries.

Permits for nursery stock entered for immediate transportation to interior points in bond are required only at point of entry.

### Regulation 6. Entry of Nursery Stock.

(Section 1.)

On and after July 1, 1913, entry of nursery stock will not be allowed unless the invoice is accompanied by the original certificate and unless each container bears a copy certificate, issued by a duly authorized official of the country from which it is shipped, stating that the nursery stock covered by these certificates has been thoroughly inspected by him or under his direction and was found, or believed to be, free from injurious plant diseases and insect pests: Provided, That for stock to be shipped between October 1 and May 31 such inspection shall be made on or after the 1st of October and for stock shipped during the growing season inspection shall be made at the time of packing: Provided further, That on and after July 1, 1913, nursery stock from countries which do not maintain official nursery stock inspection will be admitted into the United States only for experimental purposes and in limited quantities. For such importations a special permit will be required. (See Reg. 5.) Applications for such permits should be addressed, in writing, to the Federal Horticultural Board, specifying the amount and kinds of nursery stock which it is intended to import.

Any such shipments will be allowed to enter only through a port which the Secretary of Agriculture will designate in the permit. Such nursery stock shall not be delivered to the importer or consignee until it has been examined by an inspector of the Department of Agriculture and found to be free from plant diseases and insect pests.

Prior to July 1, 1913, it will not be required that the original certificate of inspection accompany the invoice, but each container of imported nursery stock must bear a copy of the certificate of inspection in the form authorised by the responsible inspection official of the country of origin.

Prior to July 1, 1913, nursery stock from countries which maintain no official nursery-stock inspection will be admitted into the United States only through the ports of New York, San Francisco, Seattle, Jacksonville, New Orleans, Honolulu, and San Juan after examination by inspectors of the Department of Agriculture at the port of entry, if found to be free from plant diseases and insect pests.

Collectors of customs will be notified from time to time, through the Secretary of the Treasury, of the countries which maintain official nursery stock inspection.

Entry will not be allowed unless the case, box, or other container or covering is plainly and correctly marked to show the number of permit, the general nature and quantity of the contents, the district or locality and country where grown, the name and address of the exporter, and the name and address of the consignee.

Nursery stock offered for entry without compliance with these regulations will be refused admission. Nursery stock, inspected as provided herein, which is found to be carrying dangerous insects or plant diseases may be treated or destroyed, as circumstances require.

When a package of imported nursery stock includes any prohibited species the entire package will be refused entry and treated or destroyed as circumstances may require.

All charges for storage, cartage and labour incident to inspection, other than the services of inspectors, shall be paid by the owner or consignee.

### Regulation 7. Foreign Certificate of Inspection.

### (Section 1.)

On and after July 1, 1913, certificates and copy certificates shall give the date of inspection, name of the grower, the district or locality, and country where grown; a statement that the stock has been inspected by a duly authorized official and found, or believed to be, free from dangerous insects and plant diseases. The original certificate shall be signed and sealed by, and the copy certificate shall bear the seal of the responsible inspection official for the country of origin.

Lists of officials in foreign countries authorised to inspect nursery stock giving their names and official designations, will be furnished to collectors of customs through the Secretary of the Treasury.

### Regulation 8. Notice of Shipment by Importers and Shippers.

### (Sections 2 and 4.)

Immediately upon the entry and before removal from the port of entry of shipments of nursery stock the person receiving the stock shall notify the Secretay of Agriculture through the collector of customs where entry is made on forms provided for that purpose, stating the number of permit, the general nature, age or height, and quantity of the nursery stock, the country and locality where grown, the date of entry, and the name and address of each of the consignees to whom it is proposed to forward the nursery stock, together with the probable date of delivery for transportation.

At the same time, a copy of the notice to the Secretary of Agriculture shall be sent by the person receiving the stock at port of entry to the duly authorised inspector or other officer of the State, Territory, or District to which the nursery stock is to be shipped. Lists of such officers may be obtained on application to the collector of customs or the Federal Horticultural Board, Washington, D. C. A list of State inspection officials will be found at the end of this circular.

Should the consignee named in the notices required to be given before removal from the port of entry of imported nursery stock ship or deliver for shipment to any other State, Territory, or District such nursery stock before it has been inspected by a duly authorised State, Territorial, or District officer, he shall prior to such shipment give like notice to the Secretary of Agriculture and to the duly authorised inspector or other officer of the State, Territory, or District to which the nursery stock is to be reshipped.

Imported nursery stock which has been once inspected will be allowed to move interstate without restrictions other than those imposed on the interstate movement of domestic nursery stock.

### Regulation 9. Declaration.

(Section 1.)

On and after December 1, 1912, each invoice of nursery stock imported into the United States from any foreign country which maintains an official system of nursery-stock inspection shall be accompanied by a declaration of the shipper, produced before an American consular officer, as follows:

(Name in	full.)
(Shippe	of the nursery stock herein mentioned and
described, and that it or insect pests.	consists of stock which I believe to contain no injurious plant disease
	(District or locality and country.)
	is exported from

	American Consul.

If the declaration be not at hand at the time of the arrival of the nursery stock at the port of entry, the stock may be delivered to the importer, consignee, or agent for the proper care thereof on the same conditions as are set forth in Regulation 4 for the delivery of the stock in case the permit is not at hand at the time of the arrival of the same at the port of entry.

### Regulation 10. Hearings.

(Sections 5, 7, and 8.)

When the Secretary of Agriculture, in the exercise of his discretion, contemplates the restriction of the importation of plants and plant products not

included within the term "nursery stock" as used in this act, or the prohibition of the importation of nursery stock and other plants and plant products from any foreign country, or the prohibition or restriction of the shipment of nursery stock and other plants and plant products from one State, Territory, or District of the United States to another State, Territory, or District, he will give a public hearing to interested parties, who may appear either in person or by attorney, and give evidence or be heard respecting the subject of the hearing. Due notice of the hearing will be given by publication or otherwise, as may be deemed appropriate by the Secretary of Agriculture. Notice will contain a statement of the action which is contemplated by the Secretary of Agriculture, and will state the time and place of the hearing.

### Regulation II. Marking of Packages.

(Section 3.)

Packages containing nursery stock which arrive not marked according to the law will not be delivered until they shall have been so marked under customs supervision and at the expense of the importers. (See also paragraph 2, Regulation 6.)

The above rules and regulations are hereby adopted.

JAMES WILSON,

Secretary of Agriculture.

WASHINGTON, D.C., December 3, 1912.

### THE PLANT QUARANTINE ACT, AUGUST 20, 1912.

AN ACT To regulate the importation of nursery stock and other plants and plant products; to enable the Secretary of Agriculture to establish and maintain quarantine districts for plant diseases and insect pests; to permit and regulate the movement of fruits, plants, and vegetables therefrom, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it shall be unlawful for any person to import or offer for entry into the United States any nursery stock unless and until a permit shall have been issued therefor by the Secretary of Agriculture, under such conditions and regulations as the said Secretary of Agriculture may prescribe, and unless such nursery stock shall be accompanied by a certificate of inspection, in manner and form as required by the Secretary of Agriculture, of the proper official of the country from which the importation is made, to the effect that the stock has been thoroughly inspected and is believed to be free from injurious plant diseases and insect pests: Provided, That the Secretary of Agriculture shall issue the permit for any particular importation of nursery stock when the conditions and regulations as prescribed in this act shall have been complied with: Provided further, That nursery stock may be imported for experimental or scientific purposes by the Department of Agriculture upon such conditions and under such regulations as the said Secretary of Agriculture may prescribe: And provided further, That nursery stock imported from countries where no official system of inspection for such stock is maintained may be admitted upon such conditions and under such regulations as the Secretary of Agriculture may prescribe.

SEC. 2. That it shall be the duty of the Secretary of the Treasury promptly to notify the Secretary of Agriculture of the arrival of any nursery stock at port of entry; that the person receiving such stock at port of entry shall, immediately upon entry and before such stock is delivered for shipment or removed from the port of entry, advise the Secretary of Agriculture or, at his direction, the proper State, Territorial, or District official of the State or Territory or the District to which such nursery stock is destined, or both, as the Secretary of Agriculture may elect, of the name and address of the consignee, the nature and quantity of the stock it is proposed to ship, and the country and locality where the same was grown. That no person shall ship or offer for shipment from one State or Territory or District of the United States into any other State or Territory or District, any nursery stock imported into the United States without notifying the Secretary of Agriculture or, at his direction, the proper State, Territorial, or District official of the State or Territory or District to which such nursery stock is destined, or both, as the Secretary of Agriculture may elect, immediately upon the delivery of the said stock for shipment, of the name and address of the consignee, of the nature and quantity of stock it is proposed to ship, and the country and locality where the same was grown, unless and until such imported stock has been inspected by the proper official of the State, Territory, or District of the United States.

- SEC. 3. That no person shall import or offer for entry into the United States any nursery stock unless the case, box, package, crate, bale, or bundle thereof shall be plainly and correctly marked to show the general nature and quantity of the contents, the country and locality where the same was grown, the name and address of the shipper, owner, or person shipping or forwarding the same, and the name and address of the consignee.
- SEC. 4. That no person shall ship or deliver for shipment from one State or Territory or District of the United States into any other State or Territory or District any such imported nursery stock the case, box, package, crate, bale, or bundle thereof is not plainly marked so as to show the general nature and quantity of the contents, the name and address of the consignee, and the country and locality where such stock was grown, unless and until such imported stock has been inspected by the proper official of a State, Territory, or District of the United States.
- SEC. 5. That whenever the Secretary of Agriculture shall determine that the unrestricted importation of any plants, fruits, vegetables, roots, bulbs, seeds, or other plant products not included by the term "nursery stock" as defined in section six of this act may result in the entry into the United States or any of its Territories or Districts of injurious plant diseases or insect pests, he shall promulgate his determination, specifying the class of plants and plant products the importation of which shall be restricted and the country and locality where they are grown, and thereafter, and until such promulgation is withdrawn, such plants and plant products imported or offered for import into the United States or any of its Territories or Districts shall be subject to all the provisions of the foremulgate his determination that the unrestricted importation of any plants, fruits, vegentables, roots, bulbs, seeds, or other plant products not included by the term "nursey stock" as defined in section six of this act may result in the entry into the United States or any of its Territories or Districts of injurious plant diseases or insect pests he shall, after due notice, give a public hearing, under such rules and regulations as he shall prescribe, at which hearing any interested party may appear and be heard, either in person or by attorney.
- SEC. 6. That for the purpose of this act the term "nursery stock" shall include all field-grown florists' stock, trees, shrubs, vines, cuttings, grafts, scions, buds, fruit pits and other seeds of fruit and ornamental trees or shrubs, and other plants and plant products for propagation, except field, vegetable, and flower seeds, bedding plants and other herbaceous plants, bulbs, and roots.
- SEC. 7. That whenever, in order to prevent the introduction into the United States of any tree, plant, or fruit disease or of any injurious insect, new to or not therestofore widely prevalent or distributed within and throughout the United States, the Secretary of Agriculture shall determine that it is necessary to forbid the importation into the United States of any class of nursery stock or of any other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products from a country or locality where such disease or insect infestation exists, he shall promulgate such determination, specifying the country and locality and the class of nursery stock or other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products which, in his opinion, should be excluded. Following the promulgation of such determination by the Secretary of Agriculture, and until the withdrawal of the said promulgation by him, the importation of the class of nursery stock or of other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products specified in the said promulgation from the country and locality therein named, regardless of the use for which the same is intended, is hereby prohibited; and until the withdrawal of the said promulgation by the Secretary of Agriculture, and notwithstanding that such class of nursery stock or other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products be accompanied by a certificate of inspection from the country of importation, no person shall import or offer for entry into the United States from any country or locality specified in such promulgation, any of the class of nursery stock or of other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products named therein, regardless of the use for which the same is intended: Provided, That before the Secretary of Agriculture shall promulgate his determination that it is necessary to forbid the importation into the United States of the articles n
- SEC. 8. That the Secretary of Agriculture is authorized and directed to quarantine any State, Territory, or District of the United States, or any portion thereof, when he shall determine the fact that a dangerous plant disease or insect infestation, new to or not theretofore widely prevalent or distributed within and throughout the United States, exists in such State or Territory or District; and the Secretary of Agriculture is directed to give notice of the establishment of such quarantine to common carriers doing business in or through such quarantined area, and shall publish in such newspapers in the quarantined area as he shall select notice of the establishment of quarantine. That no person shall ship

or offer for shipment to any common carrier, nor shall any common carrier receive for transportation or transport, nor shall any person carry or transport from any quarantined State or Territory or District of the United States, or from any quarantined portion thereof, into or through any other State or Territory or District, any class of nursery stock or any other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products specified in the notice of quarantine except as hereinafter provided. That it shall be unlawful to move or allow to be moved any class of nursery stock or any other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products specified in the notice of quarantine hereinbefore provided, and regardless of the use for which the same is intended, from any charantined State or Territory or District of the United States, or quarantined portion thereof, into or through any other State or Territory or District, in manner or method or under conditions other than those prescribed by the Secretary of Agriculture. That it shall be the duty of the Secretary of Agriculture to make and promulgate rules and regulations which shall permit and govern the inspection, disinfection, certification, and method and manner of delivery and shipment of the class of nursery stock or of any other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products specified in the notice of quarantine hereinbefore provided, and regardless of the use for which the same is intended, from a quarantined State or Territory or District of the United States, or quarantine portion thereof, into or through any other State or Territory or District; and the Secretary of Agriculture shall give notice of such rules and regulations as hereinbefore provided in this section for the notice of the establishment of quarantine: Previded, That before the Secretary of Agriculture shall promulgate his determination that it is necessary to quarantine any State, Territory, or District of t

SEC. 9. That the Secretary of Agriculture shall make and promulgate such rules and regulations as may be necessary for carrying out the purposes of this act.

SEC. 10. That any person who shall violate any of the provisions of this act, or who shall forge, counterfeit, alter, deface, or destroy any certificate provided for in this act or in the regulations of the Secretary of Agriculture shall be deemed guilty of a misdemeanour and shall, upon conviction thereof, be punished by a fine not exceeding five hundred dollars or by imprisonment not exceeding one year, or both such fine and imprisonment in the discretion of the court: Provided, That no common carrier shall be deemed to have violated the provisions of any of the foregoing sections of this act on proof that such carrier did not knowingly receive for transportation or transport nursery stock or other plants or plant products as such from one State, Territory, or District of the United States into or through any other State, Territory, or District; and it shall be the duty of the United States attorneys diligently to prosecute any violations of this act which are brought to their attention by the Secretary of Agriculture or which come to their notice by other means.

Sec. 11. That the word "person" as used in this act shall be construed to import both the plural and the singular, as the case demands, and shall include corporations, companies, societies and associations. When construing and enforcing the provisions of this act, the act, omission or failure of any officer, agent, or other person acting for or employed by any corporation, company, society, or association, within the scope of his employment or office, shall in every case be also deemed to be the act, omission, or failure of such corporation, company, society, or association, as well as that of the person.

Sec. 12. That for the purpose of carrying out the provisions of this act there shall be appointed by the Secretary of Agriculture from existing bureaus and offices in the Department of Agriculture, including the Bureau of Entomology, the Bureau of Plant Industry, and the Forest Service, a Federal Horticultural Board consisting of five members, of whom not more than two shall be appointed from any one bureau or office, and who shall serve without additional compensation.

Sec. 13. That there is hereby appropriated, out of the moneys in the Treasuries not otherwise appropriated to be expended as the Secretary of Agriculture may direct, for the purposes and objects of this act, the sum of twenty-five thousand dollars.

Sec. 14. That this act shall become and be effective from and after the first day of October, nineteen hundred and twelve, except as herein otherwise provided.

Approved, August 20, 1912.

### State Inspection Officials.

Alabama: State Horticulturist, Alabama Polytechnic Institute, Auburn, Ala.

Alaska: Special Agent in Charge, Alaska Agricultural Experiment Station, Sitka, Alaska:

Arizona: Chairman, Horticultural Commission, Phoenix, Ariz.

Arkansas: State Inspector, Fayetteville, Ark.

California: Horticultural Quarantine Officer, Room 11, Ferry Building, San Francisco,

Colorado: Entomologist, Colorado Agricultural Experiment Station, Fort Collins, Colo.

Connecticut: State Entomologist, New Haven, Conn.

Delaware: Secretary, State Board of Agriculture, Dover, Del.

Florida: Inspector of Nursery Stock, Florida Agricultural Experiment Station, Gainesville, Fla.

Georgia: State Entomologist, Atlanta, Ga.

Guam: Special Agent in Charge, Guam Agricultural Experiment Station, Island of Guam (vià San Francisco).

Hawaii: Entomologist, Board of Commissioners of Agriculture and Forestry, Honolulu, Hawaii.

Idaho: State Horticultural Inspector, Boise, Idaho.

Illinois: Chief Horticultural Inspector, Urbana, Ill.

Indiana: State Entomologist, Indianapolis, Ind.

Iowa: State Entomologist, Iowa State College, Ames, Iowa.

Kansas North: Entomologist, Kansas Agricultural Experiment Station, Manhattan, Kans.

Kansas South: Entomologist, University of Kansas, Lawrence, Kans.

Kentucky: State Entomologist, Kentucky Agricultural Experiment Station, Lexington, Ky.

Louisiana: Entomologist, State Board of Agriculture and Immigration, Baton Rouge, La.

Maine: State Horifculturist, Augusta, Me.

Maryland: State Entomologist, College Park, Md.

Massachusetts: State Nursery Inspector, Amherst, Mass.

Michigan: State Inspector of Nurseries, East Lansing, Mich.

Minnesota: State Entomologist, St. Anthony Park, Minn.

Mississippi: Entomologist, Agricultural College, Miss.

Missouri: Entomologist, University of Missouri, Columbia, Mo.

Montana: Montana, State Board of Horticulture, Missoula, Mont.

Nebraska: Assistant State Entomologist, University of Nebraska, Lincoln, Nebr. Nevada: Entomologist, Nevada Agricultural Experiment Station, Reno, Nev.

New Hampshire: Secretary, State Board of Agriculture, Concord, N. H.

New Jersey: State Entomologist, New Brunswick, N. J.

New Mexico: Horticulturist, New Mexico Agricultural Experiment Station, State College, N. Mex.

New York: Commissioner of Agriculture, Albany, N. Y.

North Carolina: State Entomologist, State Department of Agriculture, Raleigh, N. C.

North Dakota & Director, North Dakota Agricultural Experiment Station, Agricultural College, N. Dak.

Ohio: Chief Inspector, Ohio Department of Agriculture, Columbus, Ohio.

Oklahoma: Secretary, State Board of Agriculture, Oklahoma City, Okla.

Oregon: Secretary, State Board of Horticulture, Portland, Oreg.

Pennsylvania: Chief Nursery Inspector, Harrisburg, Pa.

N.B.—Provinces named in the first and last columns include their chief port or ports. "Madras ports" includes the ports of Madras, French Port (Pondicherry and Karikal, exclusive of sea imports from Non-British Ports and Foreign countries), Negapatam, Tuticorin, Calicut, Cocanada, Vizagapatam Cuddalore, Cochin, Tellicherry, Cannanore, Masulipatam, Mangalore, Quilon, Porto Novo, and Badagara

Figures previous to 1st April 1912 in this statement against "Bengal" include those relating to "Bihar and Orissa," but exclude those for Eastern Bengal districts (viz., Bakarganj, Faridpur, Dinajpur, Kajshahi, Rangpur, Bogra, Pabna, Jalpaiguri, Malda, Dacca, Mymensingh, Tippera including, Hill Tippera, Chittagong including Port and town, Noakhali and Chittagong Hill Tracts); these latter are included in the figures shown against "Assam.

#### GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

# Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 10th April 1913, based on the Indian Daily Weather Reports of the period.

- 1. Two depressions affected northwest India during the week and gave light precipitation along the hills and a few light falls of rain in Baluchistan. Rainfall occurred on most days in Assam, and areas of low pressure over Chota Nagpur gave nearly general rain in east Bengal on the 4th and 6th. Weather was practically dry in the rest of the country.
  - 2. Burma.-Light rain fell at Victoria Point, Bhamo and Myitkyina.

Northeast India, including Orissa.—Rainfall was nearly general in the eastern half of Bengal on the 4th and 6th, and local falls occurred in Bengal on the 3rd, 5th, 7th and 8th. Rain fell in Assam every day except the 8th.

The United Provinces, Central India and the Central Provinces.—Light rain fell on the 5th at Bareilly, Chakrata and Mukteswar.

Northwest India.—Precipitation occurred in Kashmir on the 4th, 5th, 8th and 9th, in the North-West Frontier Province on the 4th, 8th and 9th, and in Baluchistan on the 8th and 9th. Murree, Simla, Delhi and Sialkot also had light showers.

The Peninsula.-Light rain fell at Mysore, Mercara, Ootacamund and Kodaikanal.

- 3. The following gives the chief daily amounts of precipitation:-
  - April 3rd. Silchar 3'58" and Narayangani 1'14".
    - ,, 4th. Dhubri o'95", Chittagong 1'55", Narayanganj 1'14", Barisal 1'20", Bogra o'84", and Sonamarg and Drosh each 1'00".
    - " 5th. Tezpur 1'45", Gauhati o'93" and Silchar 1'59".
    - ,, 6th. Dhubri 1.48", Silchar 1.85", Cherrapunji 2.30", Chittagong 1.15", Narayanganj 1.04" and Calcutta 1.18".
    - , 7th. Silchar 1.32".
    - " 8th. Narayanganj 1'17".
    - " 9th. Sonamarg 1.25" and Parachinar 0.70".
- 4. The rainfall of the week was 20 per cent or more in excess in Assam, Bengal and Kashmir, and was normal in the United Provinces West and Mysore. It was 20 per cent or more in defect in all the remaining divisions, except the following where the absence of rainfall is a normal feature at this time of year:—Sind, Rajputana West, Gujarat, Central India, Berar and the Konkan.

The seasonal rainfall up to date is 20 per cent or more in excess in Assam, Bengal, Bihar, Chota Nagpur, the United Provinces and the Central Provinces East. It is within 20 per cent of the normal in Upper Burma, Orissa, Kashmir, the Punjab South-West, Baluchistan, Sind and Central India East, and is 20 per cent or more in defect in the rest of the country.

G. C. SIMPSON, for Director-General of Observatories.

E. D. MACLAGAN, Secretary to the Government of India.

Simla; Dated 10th April 1913.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

## Season and Crop Prospects for the week ending Saturday, 5th April 1913.

Burma.—Light rain fell in the north. Harvesting of island crops and cultivation of spring and summer rice are proceeding normally. Cattle are healthy. The price of unhusked rice is stationary.

Assam.—There were hail-storms and heavy rain in the Surma Valley; elsewhere the fall was moderate. Ploughing for and sowing of early and late broadcast rice and jute and pressing of sugarcane are in progress. Picking of tea continues. The average price of common rice has risen slightly. Cattle disease is reported from five districts.

Bengal.—During the week rain fell throughout the Province except in Midnapore, Dinajpur and Rangpur. The fall was heavy in Noakhali. Prospects of standing crops are generally good. Preparation of fields for autumn paddy and jute is going on briskly and sowings thereof continue. Harvesting of spring crops and pressing of sugarcane are approaching completion. The average price of common rice for the Province has a tendency to fall. Cattle disease is reported from Khulna and parts of Murshidabad, Dacca and Mymensingh.

Bihar and Orissa —Light showers fell during the week in parts of Patna, Bhagalpur, Cuttack and Manbhum. There was no rain in the rest of the Province. Harvesting of spring crops and planting of sugarcane still continue. Preparation of lands for the next season's crops is in progress. Sowings of jute have begun in Purnea. The condition of standing crops is good. The price of common rice is rising. The condition of cattle is on the whole good. The supply of fodder and water is sufficient throughout the Province. Agricultural prospects in the Feudatory States of Orissa are on the whole good.

United Provinces.—The week was rainless except for a fall in Rampur and showers in Tehri. Harvesting continues and winnowing and threshing are in full swing. Extra crops are being irrigated. Sugarcane is still being planted and is reported to be doing well. Opium is still being extracted. Standing crops are reported to be good. Fodder and water are sufficient everywhere. In Mirzapur the numbers on test works have fallen to 1,069 and on canal and water-works to 6,485. Gathering of mahua is giving employment in precarious tracts. In the Benares State the numbers on relief works have fallen to 1,920 and on gratuitous relief to 899. Cattle disease retains its hold on Bundel-khand but elsewhere continues to decrease. There is a distinct fall in the level of prices.

Punjab.—The weather is generally dry. The condition of irrigated spring crops is average to good and that of unirrigated crops fair. Spring crops are being harvested. The outturn of irrigated crops is average to good and that of unirrigated crops below average. Sowings of extra spring crops and of sugarcane and cotton and ploughings for other autumn crops continue. Cattle are generally healthy but fodder is insufficient in places. Prices remain high.

North-West Frontier Province.—No rain fell during the week except insignificant showers in Hazara and in the Charsadda tahsil of the Peshawar district. The weather is at times cloudy but the cold is decreasing. Standing crops are generally good on irrigated areas and average on unirrigated areas. Sowings of sugarcane and extra spring crops are in progress. Cattle are in good condition. The fodder and watersupply is generally sufficient. Prices are high but are falling in Peshawar.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 9 to 16 and maize from 12 to 19 seers per rupee. The condition of standing crops is fair. Fodder is insufficient in some tabsils.

Kashmir.—It rained on two occasions during the week. The state of standing crops is good. Ploughing operations for autumn crops are in progress. No damage to crops is reported. Prices are normal.

Rajputana.—The weather is hot. Harvesting is in progress. Standing crops are in good condition and prospects are generally fair. Cattle are in good condition. Fodder and water are sufficient. Prices are generally high but are falling. Harvesting of the opium crop in Kishengarh has been completed.

Central India.—Usually hot conditions are prevalent. Harvesting of spring crops continues with outturn generally excellent. Land is being ploughed for autumn sowings. Cattle disease prevails in parts of Gwalior, Indore, Bhopal, Bundelkhand and Malwa. The fodder supply is sufficient. Prices are falling steadily as the new grain is coming on the market.

Central Provinces.—The weather continues to be clear. The days are hot but the nights and mornings are cool. Harvesting of spring crops is progressing rapidly and threshing continues. Fodder and water are sufficient but fodder is getting dear or scarce in Saugor, Chhindwara, Wardha, Akola, Amraoti and Buldana. Cattle are in good condition. Variations in the prices of food grains are insignificant.

Feudatory States.—The condition of spring crops is generally good and prospects are favourable. Prices remain fairly steady.

Bombay.—Standing spring crops are generally in good condition. Harvesting continues. Cotton picking is progressing in parts of Gujarat, Satara, the Karnatak, Rewa Kantha and Kolhapur. Preparation of lands for cultivation of autumn crops generally continues. The fodder supply is deficient in parts of Hyderabad and Ahmednagar. Agricultural stock is generally in good condition and sufficient except in parts of Cutch. The condition of stock is deteriorating in Ahmednagar. Drinking water is generally adequate except in parts of Ahmednagar, Sholapur and Bijapur. Water for irrigation is deficient in parts of the Deccan and Bijapur. Prices are high but steady. The public health is generally good. Grain stocks are sufficient.

The weekly report on the famine and scarcity is as follows:—Distress is deepening in Ahmednagar. There is little wandering or emaciation yet. Four kitchens and nine poor-houses continue to give relief. People on relief are generally in fair condition. The public health is generally good. Land revenue suspensions have been granted and takavi is being advanced freely for fodder and wells. Government grass is being readily sold. Measures for the improvement of the water-supply from Government and Local Board grants continue. Charitable funds are being utilized for the relief of weavers and for seven cattle kitchens. The numbers on gratuitous relief for the week ending 5th April were:—Ahmednagar 15,640. Poona and Sholapur 836. Total 16,476.

Hyderabad.—Harvesting of spring crops is nearing completion. Picking of castor seed continues in a few parts. Late rice is being irrigated in many parts. The crop is good in places and generally fair. Measures to afford relief in the affected talukas of the Aurangabad and Bir districts continue. The labourers on work daily during the weeks ending the 22nd and 29th March were 9,327 and 8,565, respectively. Fodder scarcity prevails in 24 talukas, water scarcity in 23 and cattle disease in 7. Prices:—wheat 6½, coarse rice 5½ and juar 10¾ seers per rupee. White juar is selling at 12 seers in Hyderabab City. The highest price in districts is 7 seers in Karimnagar and the lowest 18 seers in Adilabad.

Mysore.—Slight rain fell in Bangalore, Kolar and Mysore. The price of ragi has fallen slightly in Mysore and Hassan and is steady elsewhere. Markets are well supplied. Standing crops are in good condition and prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—No rain fell during the week. Prices of food grains are rising. Water and fodder for cattle are sufficient. The public health is fair.

Madras.—Light rain fell in Ramnad, Tinnevelly and the Nilgiris. There was no rain elsewhere. Standing crops are fair to good. Harvesting of dry crops and sugarcane is proceeding and that of paddy is nearing completion in parts with outturn fair to normal. Sowings of dry crops and paddy are proceeding normally. Planting of sugarcane is commencing in parts. The condition of cattle is generally good. Fodder and water are generally sufficient. Prices show a slight downward tendency.

### DEPARTMENT OF REVENUE AND AGRICULTURE.

## (CIVIL VETERINARY ADMINISTRATION.)

Simla, the 7th April 1913.

The following Order issued by the Board of Agriculture and Fisheries, London, is published for general information:—

(8808.)

### ORDER OF THE BOARD OF AGRICULTURE AND FISHERIES.

(DATED '4TH MARCH 1913.)

The Board of Agriculture and Fisheries, by virtue and in exercise of the powers vested in them under the Diseases of Animals Acts, 1894 to 1911, and of every other power enabling them in this behalf, do order, and it is hereby ordered, as follows:

- 1. The date on which Chapter I. (Importation) of the Horses (Importation and Transit) Order of 1912 (hereinafter referred to as the principal Order) shall come into operation is hereby further altered to the first day of July, nineteen hundred and thirteen.
- 2. The provisions of paragraph (ix.) (Food and Water) of Article 13 of the principal Order shall not, until the first day of July, nineteen hundred and thirteen, apply to a vessel on which horses, asses, or mules are carried to any port in Great Britain or from any such port to any port in the British Islands.
- 3. The first day of July, nineteen hundred and thirteen, shall be substituted for the first day of January, ninteen hundred and thirteen, in the Schedule to the principal Order (Orders Revoked).

In witness whereof the Board of Agriculture and Fisheries have hereunto set their Official Seal this fourth day of March, nineteen hundred and thirteen.

Sydney Olivier,

Secretary.

E. D. MACLAGAN,

Secretary to the Government of India.

SUPPLEMENT TO

# The Gazette of Andia.

No. 16.}

DELHI, SATURDAY, APRIL 19, 1913.

## OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in Paut VI of the Gazette.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of five Rupees per annumif delivered in Calcutta, or eight Rupees if sent by Post. The Supplement and Paut VI of the Gazette can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the Gazette of India is required by Law, or which it has been customary to publish in the Calcutta Gazette, will be included in the Supplement. For such Orders and Notifications the body of the Gazette must be looked to.
